We heard your voice ...
and took action

WHAT'S COMING?

We are excited to inform you of a significant enhancement tool for more effective and efficient administration of your externally sponsored projects

PIs AND RESEARCH ADMINISTRATORS ASKED:

Could I see all my active awards listed together on one screen in both summary and detail views, and all within PeopleSoft not COGNOS? And in addition to expenditure activity, could I also see non-financial info like award end date, F&A rate, burn rate tracking, etc..

HERE IS THE ACTION WE'VE TAKEN

A PI Dashboard has been created within PeopleSoft itself that provides summary and detailed information for active awards summarized on the same screen without having to use a separate sign-on or navigate over to COGNOS.

Active awards will first be listed in high-level summary format, with drill down ability to quickly see underlying details.

WHEN?

Roll-out of the PI dashboard begins on March 1st. Further information on the roll-out will be disseminated soon.

More information coming soon!
