Maintenance of Fees

Review and Handling of Incidental Fees:

Instructional Fees (academic and lab) are reviewed and revised once-per-year. Presently this review occurs in January.

Academic fees directly support classroom instruction and support supplemental activities and services that enhance classroom activities and learning. Current examples of the latter include tutors, graders, help centers, and resource centers.

Academic fees will be calculated and generally applied on a college-wide basis, rather than on a course-by-course or section-specific basis.

Units will continue to review and revise fee budgets to comply with the statute that requires the fee to “reasonably reflect the actual cost to the university of the materials or services for which the fee is collected.”

An academic fee will be charged at the college/school level and it can be:

- One fee, charged by the credit hour to *all students* enrolled in courses in the college/school, or
- One fee for *all undergraduate students*, charged by the credit hour to all students enrolled in undergraduate courses in the college/school (no charges for graduate students), or
- One fee for *all graduate students*, charged by the credit hour to all students enrolled in graduate courses in the college/school (no charges for undergraduate students), and/or
- Two fees, *one undergrad and one graduate*.
- A very limited alternative to request *differential fees* within a college/school, as approved by Academic Resources.

Colleges/Schools will:

- Annually review expenditure categories and amounts to most accurately predict a total expense budget.
- Calculate fees per credit hour by dividing total requested budget by total estimated credit hours to be generated over a 12-month period.
- Complete Excel® spreadsheet template (or other forms, as provided by Academic Resources) to submit budget requests for Academic Fees.
- Submit Lab Fee Forms as needed.

Lab Fees *must* be charged separately from an academic fee when appropriate under Statute. Courses for which students must register for a lab section are required to charge a lab fee per Section 54.501 of the Higher Education Code. All organized lab course(s) set-up through the Registrar’s Office must be charged a separate fee from the Instructional fees.

Academic and lab fee submissions will be reviewed and approved by Academic Resources, Provost, and by the President or his or her designee.

Deans' Offices may request to increase the fee amounts to include collecting money for centralized instructional goods and services that support classroom instruction, and retain those funds in the Dean's Office to be managed centrally. This is in addition to fees collected to support departmental/unit instructional activities and must be in accord with the first principle above.

Colleges/departments in possession of depreciable equipment are required to maintain and update depreciation schedules to manage equipment purchasing and replacement. The schedules must be kept up-to-date by the departments and submitted with the annual fee revision forms.

Prudent reserves maintained in the fund balance may include a modest amount of up to 10% of the annual Academic fee revenue, inclusive of equipment reserve funds. Annual unexpended fund balances in excess of the 10% reserve must have written justification approved by the Provost.

Refunds will not be provided. If fiscal year expenses are less than 90% of available funds, the fee will be reduced in the upcoming year to bring the balance back in compliance. A Dean may submit a justification for a fee adjustment that leaves some of the unused money in the college's chart field string to be used in the next year (e.g. because some costs have risen or a piece of instructional equipment is being requested).

Academic Fee budget requests can include an expense line for purchase of new (not just replacement) instructional equipment in the upcoming fiscal year. Academic Resources will request justification at the time the fee amount is submitted.

Historically, the equipment reserve funds were maintained on the General Ledger and balances were only available by requesting that information from the Budget Office. As of FY 2016, the equipment reserve funds will be part of the balance of available funds in the primary college or departmental fee chart field string (it is up to the Dean's Office to decide where the equipment reserves will be held).

Academic Fees will be deposited at the college/school level so a beginning budget is required. If the Dean will distribute money from the college/school's fee chart field string to departments/units, then budgets must be created for those units. The budget at the college/school level would only be for the amount that the college or school intends to retain for centrally-managed items. Budgets at the departmental or unit level would only be for the amount that the college/school expects to distribute to that unit. This method prevents double-counting of revenues and expenses.

Instructions for the annual university budget planning process and the fiscal year budget data entry will come from the Budget Office through the VPAA Office. The total revenues and total expenditures must net to zero for each Academic or Lab Fee as entered in this process.

Academic and Lab Fee budgets will be entered in the University's budgeting system of record (Hyperion as of FY17) at the same time as all other budget items for the next future fiscal year.

Academic Fee balances will carry-forward from year-to-year, but balances (including the equipment reserve amount) that exceed 10% of the fiscal year revenues must be justified to the Provost's Academic Resources Office. Colleges may be required to adjust the instructional fee for the following fiscal year if the balance cannot be appropriately justified.

Adding, Changing, or Inactivating a Fee:

Requests to change either type of instructional fee must be submitted to Academic Resources for review.

Academic Resources ensures that all requests comply with state statutes and university policies regarding Incidental Fees and Laboratory Fees and that the amounts requested are accurately computed and reasonable. A spreadsheet template has been made available by Academic Resources in preparation for a new Instructional Fee or to change an existing Instructional Fee. Lab Fees will be submitted on the form that has been designated for this purpose. The forms/spreadsheets are reviewed, edited if needed, and approved copies are returned to the college or school.

Academic Resources will obtain final approval from the Provost and President or his or her designee and submit the approved Academic and Lab Fee rates to Student Accounting and University Cashiering Services (SAUCS) and to the Budget Office prior to the initiation of fall registration, in order to establish the academic and/or lab fees to be charged for the following fiscal year. These steps comply with our policy and State Statute.

Academic fees and lab fees may be added or changed only once per year. Academic Resources will annually distribute specific instructions and timetables for revising academic and lab fees.

In accordance with state statute, fees must be set at the time that students begin registering for a session. Fees must remain fixed for the entire academic year once registration begins for the fall semester.

Additional information about the submission of fees, review of fees, approval of fees, and posting of fees to the billing system are in the policy.

Annual Fee Process:

Below is a tentative schedule of activities for the instructional fee format.

December:

- Provost finalizes decisions regarding special requests related to 90% rule violations, accumulating balances, charging fees for future purchases, etc.
- Departments and colleges review current status of fees and instructional need, and ending balances of all academic fee chart field strings that rolled forward from the prior fiscal year. Gather additional needed information from faculty or staff.
- Departments update depreciation schedules in preparation for fee revisions.
- Academic Resources distributes forms and sets the deadlines for submission of new requests and revisions to existing fees.
- Departments check for deficit lines and correct them.

January:

- Departments and colleges submit requests for new fees and revisions of fees via the fee request Excel[®] spreadsheet.
- Late January and early February, Academic Resources reviews requests, requests updated depreciation schedules, requests job descriptions (as needed), and reviews balances that rolled from prior fiscal year.
- Departments check for deficit lines and allow ability and make any corrections.

February:

- Academic Resources continues review.
- Academic Resources submits fees to President (or designee) for approval.
- After fees are approved, Academic Resources forwards fee information to Student Accounting and University Cashiering Services (SAUCS) for posting and to the Budget Office, as required by policy.
- Departments and colleges check academic fee chart fields for excess revenues and prepare an ABA, as necessary. The ABA will route through the Provost's Office for approval. The actual transaction will be processed by the Budget Office, as with any ABA. To "budget" the excess revenue, the department identifies the amount by which the Revenue budget is to be increased and the individual Expense lines to be increased by the same total amount.
- Colleges distribute spring revenues to units as appropriate.
- Departments check for deficit lines and allow ability and make any corrections.

March:

- SAUCS posts the fees.
- SAUCS asks departments and colleges to proof the postings.
- SAUCS makes any necessary corrections.
- Summer and fall registration begins.
- Departments check for deficit lines and allow ability and make any corrections.

April:

- Departments check for deficit lines and allow ability and make any corrections.

May:

- Departments check for deficit lines and allow ability and make any corrections.

June:

- Departments check for deficit lines and allow ability and make any corrections.

July:

- Departments and colleges check academic fee chart field strings for excess revenues and prepare an ABA, as necessary. The ABA will route through the Provost's Office for approval. The actual transaction will be processed by the Budget Office, as with any ABA. To "budget" the excess revenue, the department identifies the amount by which the Revenue budget is to be increased and the individual Expense lines to be increased by the same total amount.
- Late July, colleges distribute summer revenue to units as appropriate.
- Departments check for deficit lines and allow ability and make any corrections.

August:

- Departments and colleges/schools fix all deficit lines and bottom line deficits for year-end.

September:

- Budget Office and Financial Reporting will close the books for the prior fiscal year during September/October.
- Late September or early October, colleges distribute fall revenue to units, if applicable.

October:

- Balances from prior year will roll in October or November.
- Once balances roll from the prior year, Academic Resources will audit for 90% rule violations, including review of the prior audit to check for violations that are for a second consecutive year.
- Departments/units should check staff lines to see if the budgeted amount matches the actual person in the position (Note – repeat this process if raises are granted mid-year):
 1. If not balanced, determine the reason (different person, merit raise, equity raise, vacant and set to entry, etc.)
 2. Determine the appropriate method to fix the balance on the staff line (ABA or HRM-4 or waiting for vacancy to be filled). The Budget Office can advise on this procedure.
 3. Correct it, as appropriate.
- If school/college's available funds (fund balance) exceed 10% of annual revenues, there are two options:

1. Plan to reduce the fee for next fiscal year to reflect having too large a starting balance in the academic fee chart field string.
 2. Provide justification for excess revenues, for example, due to equipment reserve balance, and submit no later than October 31.
- Departments check for deficit lines and correct them, but in the context of whether or not the Dean's Office transfers have been completed.

November:

- Academic Resources reviews current lab fee forms and the current instructional fee spreadsheets with the budget officers to determine if any changes are needed.
- Academic Resources makes decisions regarding special requests related to accumulating balances, charging fees for future purchases, etc. (October/November/December).
- Departments check for deficit lines and correct them.

The total of all compulsory student services fees collected from a student at an institution of higher education other than The University of Texas at Austin or a component institution of the University of Houston System for any one semester or summer session shall not exceed \$250. All compulsory student services fees charged and collected under this section by the governing board of an institution of higher education, other than a public junior college, shall be assessed in proportion to the number of semester credit hours for which a student registers. In subsequent years, an election authorizing a fee increase must be held before the fee can be increased by more than 10 percent of the fee approved at the last student election.
- (g) If a student registers at more than one institution of higher education within a college or university system under concurrent enrollment provisions of joint or cooperative programs between institutions, the student shall pay all compulsory student services fees to the institution designated as the home institution under the joint or cooperative program. The governing board of the college or university system may waive the payment of all compulsory student services fees at the other institution or institutions.
- (h) Except for Subsection (g) of this section, this section does not apply to The University of Texas at Austin or a component institution of the University of Houston System.
- (i) General revenue appropriations, other educational and general income, and funds appropriated under Article VII, Section 17 or 18, of the Texas Constitution may be expended on a proportional use basis to support the services, activities, and facilities provided for in this section to the extent that the use of such funds is not otherwise restricted by the Texas Constitution or general law.

Student Union Fee:

Authorized under TEC §54.515.

- (a) The governing board of each institution of higher education may charge each student registered at the institution a student union fee not to exceed \$20 for each regular semester and not to exceed \$10 for each term of the summer session for the sole purpose of financing, constructing, operating, maintaining, and improving a student union building. The fee may not be imposed, and may not be increased above \$10 for each regular semester and \$5 for each term of the summer session, unless the imposition or increase is approved by a majority vote of those students participating in a general election. The fees authorized by this section are in addition to any other use or service fee authorized by law to be charged and collected by the institution.
- (b) The fees collected under Subsection (a) of this section shall be deposited in a designated account and shall be placed under the control of and subject to the order of a student advisory committee. The student advisory committee annually shall submit to the governing board of the institution a complete and itemized budget to be accompanied by a full and complete report of all activities conducted during the previous fiscal year and all related expenditures made during that year. The governing board shall make any changes in the budget as it considers necessary before approving the budget and shall charge and collect the fees as provided by this section in amounts sufficient to meet the budgetary needs of the student union building and within the limits authorized by this section.

The rate of an incidental fee must reasonably reflect the actual cost to the university of the materials or services for which the fee is collected. In fixing such rate, the governing board may consult with a student fee advisory committee which the governing board may establish if such student committee does not presently exist.
- (b) The board shall publish in the general catalog of the university a description of the amount of each fee to be charged.
- (c) In this section, "incidental fees" includes, without limitation, such fees as late registration fees, library fines, microfilming fees, thesis or doctoral manuscript reproduction or filing fees, bad check charges, application processing fees, and laboratory breakage charges, but does not include a fee for which a governing board makes a charge under the authority of any other provision of law.

The deposit must be returned within a reasonable period after the date of the student's withdrawal or graduation from the institution, not to exceed 180 days, that provides the institution with sufficient time to identify all amounts owed and to determine that the student does not intend to enroll at the institution in the semester or summer session immediately following the student's withdrawal or graduation or, if the student withdraws or graduates in the spring semester, in the next fall semester.
