## MBA Information Technology

The MBA in Information Technology is designed to provide an extensive base of knowledge of managerial responsibilities. An MBA program is designed for students who desire a more general management background than an MS in Information Technology, which has more of a specialization and focus in the field. Career opportunities after you complete the MBA program through the Department of Information Technology and Decision Sciences are abundant. An MBA with a concentration in Information Technology supports growth and development from two perspectives. One, if you have an established career path, the Information Technology concentration provides you the opportunity to gain the broader, more general perspective necessary for promotion to leading managerial positions. Two, if you are preparing for the business world, the combination of an undergraduate degree with an MBA concentration in Information Technology provides an excellent foundation for additional career opportunities.

### CAREER POSSIBILITIES

IT Operations and Maintenance Mgr | Quality Assurance Director | Business Integration Mgr | Business Planning Director | IT Risk and Compliance Mgr | Business Capabilities Mgr | Technology Capabilities Mgr | Business Transformation Director | Business Process Mgmt Director | Enterprise Systems Mgr | Senior Data Architect | IT Business Solutions Mgr | Senior Security Analyst | Senior Data Communications Analyst | Chief Information Security Officer | Technical Services Mgr | Lead Network Engineer | IT Procurement Mgr

### QUESTIONS OR READY TO APPLY?

Contact a staff member in the College of Business Graduate Program's Office. [MBACOB@unt.edu](mailto:MBACOB@unt.edu) / 940-369-8977

### BACKGROUND COURSES/CONTENT

The College of Business Graduate Programs Office works with students to determine if background deficiency courses will be necessary. Background content might include Financial and Managerial Accounting, Business Information Systems, Statistics, Business Law, Finance, Marketing, Micro and Macro Economics, Operations Management and Calculus. Deficiencies can be completed via traditional academic coursework or through Ivy Software and Responsive.net. Ivy Software and Responsive.net deliver self-paced online learning modules that provide the needed background content without the need to formally enroll in courses at UNT. For more information go to [cob.unt.edu/background](http://cob.unt.edu/background).
