

Sea Grant Undergraduate Student Careers & Opportunities

Sea Grant is a national network that consists of 33 university-based college programs around the U.S. These programs have many undergraduate opportunities which include internships, scholarships, and fellowships. Internships work to provide hands-on unforgettable experiences in research to aid in the development of budding STEM careers. Scholarships offer opportunities that provide financial assistance and research funding to students pursuing a career in STEM. Sea Grant fellowships allow students to partner with various STEM organizations to promote professional development in new careers.

1195
Undergraduate students supported

1172
Graduate students supported

535
Post-secondary Degrees Awarded

690
Students Supported who Found Jobs Related to Their Field of Interest
