

Sea Grant Undergraduate Student Careers & Opportunities

1195

Undergraduate students supported

1172

Graduate students supported

535

Post-secondary degrees awarded

690

Graduates employed in degree field

Metrics above for students supported during 2016 grant year.

Sea Grant has many undergraduate opportunities. Internships work to provide hands-on unforgettable experiences in research to aid in the development of budding STEM careers. Scholarships offer opportunities that provide financial assistance and research funding to students pursuing a career in STEM. Sea Grant fellowships allow students to partner with various STEM organizations to promote professional development in new careers.

Testimonials

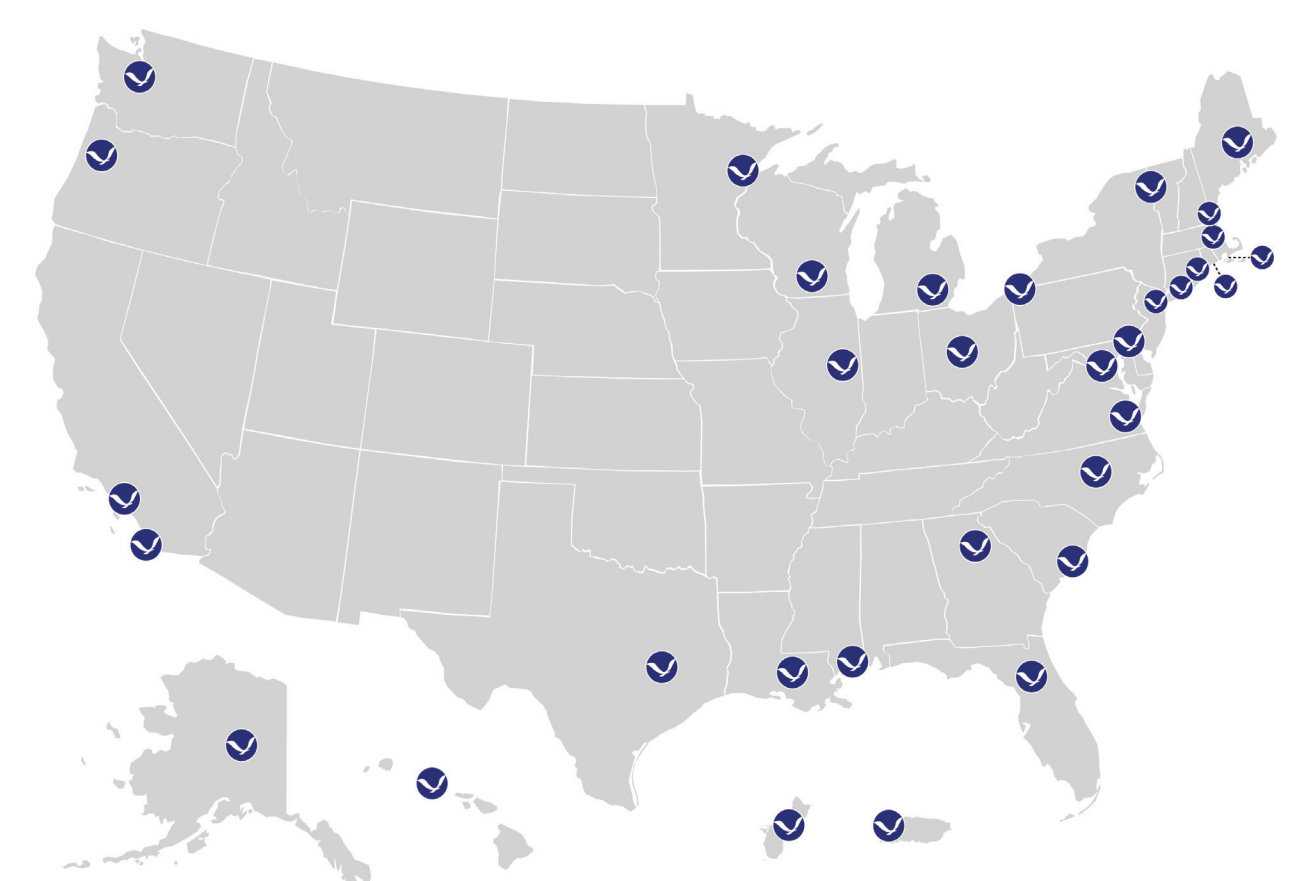

“The Knauss Fellowship has given me the opportunity to learn more about the [marine] policy making process. . . by placing me in a position on Capitol Hill. . . focusing on how to make science matter.”

-Lauren Linsmayer
2018 Sea Grant John A. Knauss Fellow

“ I love Sea Grant!”

-Mattie Rodrigue
2018 Sea Grant John A. Knauss Fellow
