## Sea Grant Seeks Proposals for Hosting Undergraduate Workshops on Population and Ecosystem Dynamics

Silver Spring, MD -- The National Sea Grant College Program, in partnership with the National Marine Fisheries Service and the NOAA Office of Education, announce the availability of funds for Sea Grant programs and university partners to host one or more workshops for undergraduate students focused on population and ecosystem dynamics.

Sea Grant and its NOAA partners anticipate that up to \$140,000 will be available to fund a one-year cooperative agreement to develop, conduct, and evaluate one to several Undergraduate Population and Ecosystem Dynamics Workshops to be held between October 1, 2018 and September 30, 2019.

The deadline to apply is **May 22, 2018**. All Sea Grant programs are eligible to apply. Interested university partners should work with a Sea Grant program to develop proposals. A complete list of Sea Grant programs and contact information is at <https://seagrants.noaa.gov>.

More information on this opportunity, including complete announcement, is available at <https://seagrants.noaa.gov/Funding>

The National Sea Grant Office will host an informational webinar about this opportunity on Tuesday, April 24, 2018 at 3 pm Eastern. Register [here](#).

Since 1999, Sea Grant and NMFS have partnered to train students on population and ecosystem dynamics. Population and ecosystem dynamics involve the study of fish populations and marine ecosystems to better assess fishery stock conditions and dynamics.
