## Board Briefing

Committee: Finance  
 Date Filed: July 10, 2012

**Title:** UNT System FY 2013 Proposed Budget

### Background:

The UNT System is comprised of four component institutions – The University of North Texas (UNT), The University of North Texas at Dallas (UNT-D), The UNT Health Science Center (UNTHSC) and the UNT System Administration (UNTS).

The proposed FY 2013 consolidated revenue budget for the UNT System totals \$1,132,617,135 which reflects a reduction of \$12,460,813 or 1.09%. The consolidated revenue budget was principally impacted by reductions in enrollment growth estimates and intra-campus budgetary cost sharing at UNT.

The proposed FY 2013 consolidated expenditure budget for the UNT System totals \$1,128,951,945. When compared to the FY 2012 budget of \$1,130,101,561, this represents a decrease of \$1,149,616 or -0.1%. The budget includes a continued shift of expenditures from campuses to System Administration (approximately \$22.8M) to correspond with the startup of IT Shared Services and Human Resources.

When comparing FY 2013 Revenues to Expenditures, a consolidated operating surplus of \$3,665,190 (0.3%) is projected for FY 2013

A summary of the Proposed Revenue and Expenditure budgets is as follows:

### Revenues:

Institution	FY2012 Budget	FY2013 Proposed Budget	\$ Change	% Change

## NOTES - FY2012 AND FY2013 VARIANCES

Explanations of FY2012 Variances	
# Item	Notes
1- Tuition	FY2012 enrollment declines and increased waivers/exemptions result in lower than projected revenues.
2- Fees	FY2012 enrollment declines and increased waivers/exemptions result in lower than projected revenues.
3- Sales and Services	Ticket sales, promotions, concerts are not projected to meet the projected volume.
4- Investment Income	Anticipated shortfall from budgeted earnings.
5- Other Non-Operating Income	Bond proceeds for research facilities will not be realized as bonds were not sold.
6- Faculty Salaries	Estimated expenditures in excess of budget for faculty and grad student support will be covered from other operational savings.
7- Staff Salaries	Anticipated staff salary savings will be used to offset revenue shortfall and other expenditure budgets.
8- Maintenance and Operations	Anticipated operational savings will offset revenue shortfall and additional expenditures.
9- Scholarships and Financial Aid	Enrollment declines and increases waivers/exemptions awards result in lower than projected set aside for FY2012 need-based aid.
10- Capital Outlay	Capital expenditures reduced concomitant to item 5, above.

Explanations of FY2013 Variances	
# Item	Notes
11- General Revenue	Based on the fixed formula funding rate for a biennium, General Revenue (GR) appropriations are typically reduced in the second year of the biennium as the estimates for GR-Dedicated (primarily tuition) are projected to increase.
12- Tuition	FY2012 and FY2013 enrollment declines and increased waivers/exemptions result in lower than projected revenues. The impact of those declines is offset by estimated revenues from approved tuition increases and from increased non-resident tuition rate (as set by THECB.) Anticipated additional revenues from tuition assessments for "3-Peat" and excess undergrad hours will also partially offset revenue declines.
13- Fees	FY2012 & FY2013 enrollment declines are offset by approved fee increases and estimated additional revenues from other fees.
14- Contracts and Grants	Anticipated increase in grants and contracts offset by anticipated decreases in federal student aid programs result in slight increase in the net projection.
15- Gifts	Anticipated increase in gifts.
16- Sales and Services	Revenues from sales and services (including athletic ticket sales) are estimated to increase.
17- Investment Income	Anticipated decline in investment earnings from FY2012.
18- Intrasystem Transfers	UNTS assessment will increase based on an annual calculation using the most recent year-end actual revenue reported in the annual financial report (FY2011 for FY2013); annualized transfers for ITSS and HR are included in this line for the first time in FY2013. Previous budget line items have been reduced by these transfers.
19- Other Operating Income	Anticipated additional auxiliary revenues primarily resulting from approved increases in room and board rates.
20- Other Non-Operating Income	Anticipated additional bond proceeds for research facilities offset by two items: capital project revenues decrease as projects are completed; significant impact from changes in accounting for internal transfers (cost sharing) in the budget. (The account change is being made to eliminate double counting of both revenues and expenditures.)
21- Faculty Salaries	Reductions and reallocation of current budget—including proportional share of raise pool, allocation of new funds for faculty, and graduate student support.
22- Staff Salaries	Salaries for HR and ITSS converted to operating (contract) and budget cuts are offset by reallocation of budget for staff merit and the addition of staff classification funds.
23- Wages	Budget cuts and movement of IRSS & HR to UNTS intrasystem transfers.
24- Maintenance & Operations	Budget cuts, ITSS and HR budgets moved to Intrasystem Transfers (revenues); reallocation of \$4.6 raise pool to faculty and staff salaries result in a decline in this budget. However, we made significant changes in accounting for cost sharing in the budget as our first step to eliminate as much "double-counting" as possible.
25- Scholarships and Financial Aid	Increases in scholarship and financial aid funds available from tuition increases offset by anticipated reductions from enrollment declines combined with changes in accounting for cost sharing transfers in the budget resulted in an overall "net decrease". In reality, we will spend about \$2.2 million more on scholarships and aid in FY2013.
26- Debt Retirement	Long term debt retirement obligations set per amortization schedules.
27- Capital Projects	Budget based on approved capital projects plan for FY2013.

**NOTES - FY2012 AND FY2013 VARIANCES**

Explanations of FY2012 Variances		
#	Item	Notes
1-	Tuition	Original budget amount was based on a conservative estimate of revenue collections. The variance was due to both a lower revenue projection and enrollment growth.
2-	Fees	Increase in Fees is related to an HSC change in budget methodology, which will now include the reporting of all student and incidental fees.
3-	Contracts and Grants	The decrease is related to a salary cap reduction imposed by the National Institutes of Health (NIH) and less than anticipated FY11 grant awards which has impacted our expenditures.
4-	Intrasystem Transfers	The variances are related to the funding, which support UNT System and the Business Services Center (BSC) and Information Technology Shared Services (ITSS). At the time the budget was being prepared, the final allocations to support UNT System and the BSC and ITSS had not been formally determined. As a result, the amount the HSC budgeted was an estimate of the amount of funds the HSC was to transfer for the two entities.
5-	Other Operating Income	The variance is due to a change in HSC's budget methodology and the method in which we report fees. During prior fiscal years, the HSC had only budgeted student fees and categorized them as Designated Budgetary. During the course of the current fiscal year, the HSC made the decision to budget all student and course fees in order to align with the UNT Strategic Budget Plan template; going forward, these fees will be reported in the Fees category versus Designated Budgetary. In addition, the remaining difference is due to UNTHHealth clinical activities being lower than anticipated.
6-	Other Non-Operating Income	Increased assessment to support Information Technology Shared Services (ITSS) and Telecommunications by utilizing funding from Cost Recovery operations.
7-	Faculty Salaries	Decrease is primarily due to attrition, retirements and a slower than expected rate for filling vacant positions.
8-	Staff Salaries	The variance is primarily related to College of Pharmacy startup costs.
9-	Wages	The variance is primarily a result of merits provided to Staff/Faculty which were originally budgeted in the M&O category.
10-	Benefits	During the FY2012 Strategic Budget Process, expenditures which should have been categorized as M&O were improperly included in Wages & Benefits category. The variance is due to proper recording of expenditures in the M&O category.
11-	Maintenance & Operations	The variance in the M&O category is primarily due to two factors: 1) our projected expenditures in the Educational and General (E&G) Funds for the remaining fiscal year. Based on prior fiscal years, we have fully expended all of our E&G Funds and anticipate the same happening during the current fiscal year. Because salaries are encumbered for the entire fiscal year, the HSC was able to determine what our remaining costs should approximate for this category. Thus, we assumed any E&G Funds that were unallocated or unencumbered would be expended as M&O; and 2) during the FY2012 Strategic Budget Process, expenditures which should have been categorized as M&O were improperly included in Wages & Benefits category. The variance is due to proper recording of expenditures in the M&O category.
12-	Scholarships & Financial Aid	During the FY2012 Strategic Budget Process, the original board approved budget recorded Scholarship & Financial Aid expenditures as Other. However, due to a change in report format, expenditures are no longer being recorded in the Other category. All expenditures are now being reported under Scholarships and Financial Aid.
13-	Other (Set-asides)	During the FY2012 Strategic Budget Process, the original board approved budget recorded Scholarship & Financial Aid expenditures as Other. However, due to a change in report format, expenditures are no longer being recorded in the Other category. All expenditures are now being reported under Scholarships and Financial Aid.

Explanations of FY2013 Variances		
#	Item	Notes
14-	General Revenue	Increase is due to funding from Supplemental Appropriation-HB4 and HEGI appropriation.
15-	Tuition	Increase estimate due to enrollment growth.
16-	Fees	Increase in Fees is related to an HSC change in budget methodology, which will now include the reporting of all student and incidental fees.
17-	Contracts and Grants	Decrease based off of National Institutes of Health (NIH) guidelines and salary cap reduction and lower than anticipated grant awards to Faculty. Impact estimated at 15% reduction of HSC's estimated budget for FY12.
18-	Sales & Services	Increase is related to revenue generated from parking fees.
19-	Intrasystem Transfers	Increased assessments for HSC to support UNT System Services, the BSC, System HR and Information Technology Shared Services (ITSS) which represents an increase of approximately \$3.2M.
20-	Other Operating Income	The variance is due to UNTHHealth clinical activities being lower than anticipated.
21-	Other Non-Operating Income	This increase is due to transfer of Reserves to support UNTH clinic operations.
22-	Faculty Salaries	Decrease is due to attrition and retirement.
23-	Staff Salaries	Decrease due to positions, which were previously budgeted by the HSC, and have now been transferred to BSC, ITSS and System HR.
24-	Wages	During the FY2013 Budget Process, departments allocated funds to this category to fund new positions throughout the course of the fiscal year.
25-	Benefits	During the FY2012 Strategic Budget Process, expenditures which should have been categorized as M&O were improperly included in Wages & Benefits category. The variance is due to proper recording of expenditures in the M&O category.
26-	Maintenance & Operations	Increase in Fees is related to an HSC change in budget methodology, which will now include the reporting of all student and incidental fees, which are primarily used to fund M&O expenditures.
27-	Scholarships & Financial Aid	During the FY2012 Strategic Budget Process, the original board approved budget recorded Scholarship & Financial Aid expenditures as Other. However, due to a change in report format, expenditures are no longer being recorded in the Other category. All expenditures are now being reported under Scholarships and Financial Aid.
28-	Other (Set-asides)	During the FY2012 Strategic Budget Process, the original board approved budget recorded Scholarship & Financial Aid expenditures as Other. However, due to a change in report format, expenditures are no longer being recorded in the Other category. All expenditures are now being reported under Scholarships and Financial Aid.

## NOTES - FY2012 AND FY2013 VARIANCES

Explanations of FY2012 Variances		
#	Item	Notes
1-	General Revenue	Increased state paid benefits from ITSS salaries transferred to UNT System.
2-	Fees	Reallocated Construction revenue to 'Sales and Services' and Rental Income to 'Other Operating Income' (Auxiliaries).
3-	Sales and Services	(See Note 2). Reallocated Construction revenue from 'Fees.'
4-	Investment Income	Investment Income lower than anticipated. Implementing Long Term Pool will favorably impact this variance in future years.
5-	Intrasystem Transfers	Projection includes December 1, 2011 IT Shared Services (ITSS) migration to UNT System Administration. The estimated transfer for ITSS from System institutions for FY 12 is \$13.6M.
6-	Other Operating Income	All intrasystem transfers budgeted under 'Other Operating Income,' \$1.75M, were reallocated to 'Intrasystem Transfers'.
7-	Staff Salaries	Increase due to ITSS positions transferred to UNT System Administration.
8-	Wages	ITSS wages expenditures and adjustment to initial estimate.
9-	Benefits	Related benefits from ITSS positions transferred to UNT System Administration
10-	Maintenance & Operations	Variance resulting from unrealized law school expenditures and lower expenditure projections through ITSS.
11-	Capital Outlay	Variance resulting from unrealized law school capital expenditures.

Explanations of FY2013 Variances		
#	Item	Notes
12-	General Revenue	Increased state paid benefits from ITSS salaries transferred to UNT System.
13-	Fees	Reallocated Construction revenue to 'Sales and Services' and Rental Income to 'Other Operating Income' (Auxiliaries).
14-	Sales and Services	Reallocated Construction revenue from 'Fees'.
15-	Investment Income	Long-term Investment Pool is expected to bring higher yields compared to historical returns.
16-	Intrasystem Transfers	Reallocation of \$1.75M from 'Other Operating Income' to 'Intrasystem Transfers' and estimated ITSS fund transfers at \$18.5M.
17-	Other Operating Income	Reallocation of \$1.75M from 'Other Operating Income' to 'Intrasystem Transfers.' Rental Income of \$552k moved from 'Fees.' Estimated rental income estimated to increase approximately \$150k.
18-	Staff Salaries	Increase is due to estimated ITSS employee salaries at \$12M.
19-	Wages	Increase is due to addition of ITSS estimated wages at \$532K.
