Review of Current CoA and Mapping to New Chart Fields

Objective of this training:

At the end of this training, you should be able to describe the meaning of each chartfield, and have a broad understanding of the changes made, and differences between 9.0 and 9.2

What today's training is not:

You are **NOT** expected to know the specific chartfields for your job from this training.

How will I find the chartfields used for my job?

You will have quick reference/crosswalk reports (e.g. “What are my FoaPs?”), cheat sheets, etc., to use at your desk.

The chartfields and their usage will be reinforced within the various training modules offered pre and post go-live: ePro, ePar, ABA, etc...

You will work with your FIT/UNT Leads/CoA Trainers, and departmental business managers/budget officers to identify the chartfields you use on a regular basis.

The EIS (PeopleSoft) system has a lookup feature to help find chartfields.

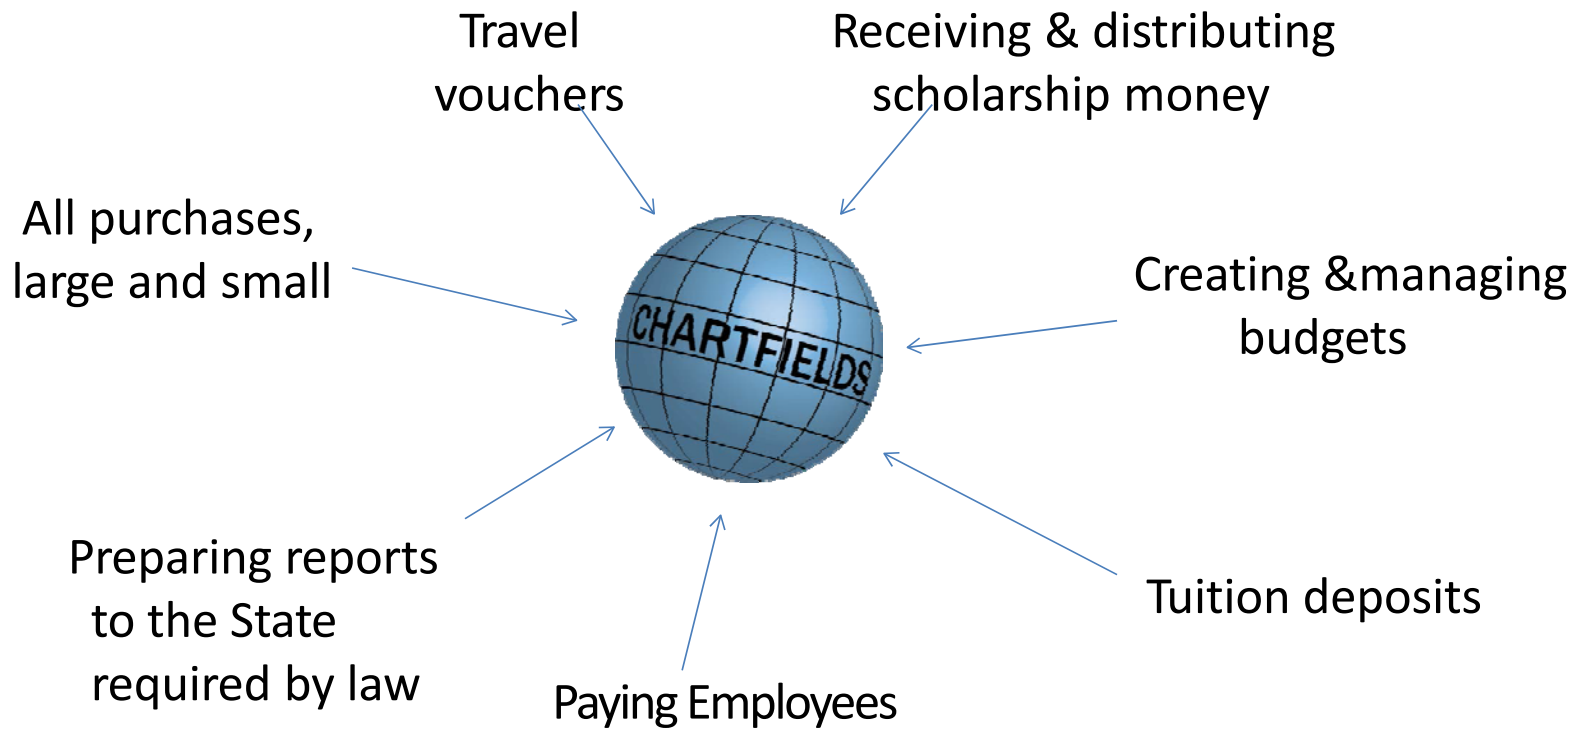

Why are the Chart of Accounts (CoA) so important?

Why are we changing the CoA?
