

Medical Procedures

- If a Camp Participant is injured, the Camp Participant should notify a Camp Staff member and/or the first aid attendant immediately.
- If a Camp Staff member is assisting a Camp Participant with an injury, notify the first aid attendant onsite immediately.
- The first aid attendant will administer first aid to the Camp Participant and determine if further medical treatment is needed. The first aid attendant will be the only person administering medical treatment while at the camp site.
- If further medical treatment is needed other than first aid, the first aid attendant will need to contact the following people immediately :
 - 911
 - Camp Director
 - Parent or guardian
 - Risk Management Services
- If the Camp Participant is transported to a medical facility, the first aid attendant or Camp Staff member must accompany the Camp Participant.
- An incident report will need to be submitted to Risk Management Services within 24 hours of the incident occurring.
