

R&SS Website

You can find a wide range of research-related resources including the following.

- Short-course Class Notes
- Sample Programs
- Links to Free Software
- Answers to Frequently Asked Questions

The website features a web-based bulletin board that allows threaded discussions and keyword searches on statistics and applications.

***NOTE:** Users need to have the application source code in order to take advantage of the HPC cluster. The R software is currently the only R&SS-supported application on the computer cluster.

Research and Statistical Support
University of North Texas

Sage Hall, Room 336

- third floor – next door to the elevator -

1155 Union Circle #310709

Denton, TX 76203-5017

“If we knew what it was we were doing, it would not be called research, would it?”

ALBERT EINSTEIN

“I have not failed; I’ve just found 10,000 ways that won’t work!”

THOMAS EDISON

R&SS Mission

Our mission is to assist researchers at the UNT main campus in carrying out their research projects and faculty members in their research-related classes.

R&SS Office

The Research and Statistical Support Office is a division of the Research Information Technology and University Information Technology.

Research and Statistical Support

SERVICES

Data Support

As members of a number of data consortia, R&SS provide UNT faculty and students with unlimited access to a huge collection of data sets including the following sources.

- Inter-university Consortium for Political and Social Research
- Center for Research in Security Prices
- Compustat, Standard and Poor's

NOTE: Faculty members and students can access data sets from these consortia through the R&SS website.

www.unt.edu/rss

Application Support

FACULTY: Here you will find free statistical software for full-time, benefits-eligible faculty members. Home use of statistical packages available include Matlab, SPSS and SAS.

STUDENTS: Student versions of certain statistical titles are available at educational discounts.

Consulting and support services are available from R&SS for the following applications.

Statistical Packages:

SAS	R	Eviews	Matlab
SPSS	Stata	LISREL	NVivo

Survey questionnaire design:

TELEform – scan-able forms
QSurvey on Zope – zope.unt.edu

Instructional Support

FACULTY AND STUDENTS: Application training materials are available online.

www.unt.edu/rss/Instructional.htm

Online Guides

Computer Tools for Research & Data Analysis
Introduction to SAS
Introductions to SPSS
Introduction to R
Introduction to Stata
New Technologies for Survey Research
LaTeX for Beginners

Rusty or out of touch with emerging methodological trends? Methodological wisdom evolves, so must the basic pedagogical practices that communicate those evolving methods. **Call R&SS!**

Consultations

You can access R&SS services by making an appointment. Please read the information online, www.unt.edu/rss, to

- 1) determine the best time in your project to make an appointment for a consultation,
- 2) read the FAQs and
- 3) learn how to make an appointment.

Two research consultants are available to help and guide you.

New Technology

You will find a number of operating systems and environments.

Windows Mac OS UNIX Linux

FACULTY AND GRADUATE

STUDENTS: High-performance computing resources are dedicated to faculty and graduate-student research. A batch system interface is supported that is particularly appropriate for jobs requiring many CPU hours or days to complete. *See note on other side.

The UNT Talon 2, features the following.

- A 248-node cluster
- 2078 CPU cores
- More than 8.5 TB of RAM
- 200 TB of high-performance disk storage
