

Dick Moore

Dick has more than 40 years' experience in the energy industry including jobs in both regulated and unregulated segments of this industry. He has held senior management positions in oil and gas production companies, interstate and intrastate natural gas pipelines, gas and electric utilities as well as natural gas gathering, processing and marketing companies.

About The Instructor

Dick teaches courses including "Midstream - Oil, Condensate & NGLs," "Midstream - Gas Operations & Contracts," "Natural Gas From Prospect to Pipeline," "Intro to Midstream," "Intro to Midstream/Downstream," and "Gas Contracts & Tariffs."

Professional Background

Dick's business career commenced with Skelly Oil Company in Tulsa, Oklahoma. After assignments in the Controller's Department and following 30 months of active duty with the U.S. Army, he transferred to the natural gas liquids supply organization wherein he held positions involving the purchase, sale and exchange of Skelly's natural gas processing plant production and refinery supplies of natural gas liquids.

In 1980 he was named Vice President Marketing of Home Petroleum Corporation. His responsibilities included crude oil and NGL marketing, truck and rail fleet operations, and operation of an underground LPG storage facility. In 1983 he joined Tejas Gas Corporation in Houston. As Vice President of Marketing for this natural gas gatherer and intrastate pipeline company, he was responsible for natural gas sales to industrial and Local Distribution Company customers.

In 1985 Mr. Moore joined Arkla Energy Resources (AER), Arkla Inc.'s interstate natural gas pipeline entity, as Vice President Market Development. He later became Senior Vice President Marketing of AER and Senior Vice President and General Manager of Arkla Energy Marketing Company. Following Arkla's acquisition of ENTEX, a natural gas local distribution company, he became Executive Vice President of ENTEX.

He joined PG&E Resources Company, an independent oil and gas exploration and production subsidiary of Pacific Gas and Electric Company, as Vice President Marketing in 1991. His responsibilities included marketing PG&E's oil and gas production. PG&E was acquired by Enserch Corporation in 1995. In 1995 he was named Vice President Business Development at Enserch's intrastate natural gas pipeline, Lone Star Pipeline Company, and in 1996 he became President of Enserch Processing, Inc. Following the merger of Enserch into Texas Utilities, Enserch Processing was renamed TXU Processing Company and he was made Senior Vice President of TXU Processing. He previously served on the Board of Directors of the Gas Processors Association and also serves as faculty for the Utility Executive Course at the University of Idaho.

Educational Background

Dick received his BBA and MBA degrees from the University of Oklahoma.
