## UNT Traditions

### Green and White

One of the earliest official references to our school colors of green and white appears in the 1907 *Yucca* yearbook, although a former student recalled that they were selected in 1902-03 when

someone suggested Mother Nature would be kind to those using her

colors. Today, green is a way of life at UNT, where our sustainability programs and environmental research have brought us national recognition. We Mean Green!

Click [here](#) for more UNT Traditions, which will be spotlighted each week.
