

Table of contents

1. INTRODUCTION TO THE PETROLEUM INDUSTRY.....	1
Chemistry and measurement	2
History of the U.S. petroleum industry	4
The Industrial Revolution: The growth of ‘Big Oil’	5
The 1920s and 1930s: Demand, supply and regulation.....	5
World War II: Defense and growth.....	6
The 1950s and 1960s: Imported oil and the formation of OPEC	6
The 1970s: Embargo and price controls	7
The 1980s: Boom and bust.....	8
The 1990s: Advent of the modern market.....	8
The 2000s: Global economic decline	10
The new millennium: Unprecedented and unconventional	11
Current state of the industry.....	12
2. PETROLEUM OPERATIONS AND ECONOMICS.....	15
U.S. oil and gas in the global economy.....	16
Supply and demand	17
Production evolution	17
Shale revolution.....	18
Increased consumption.....	19
Role of OPEC	20
Global reserves.....	20
Political and regulatory risks	20
Oil and gas value chain	22
Upstream.....	22
Midstream	23
Downstream	24
Service companies.....	25
Operational risks	25
E&P organizations	26
Integrated oil companies.....	26
National oil companies.....	26
Independent oil companies.....	27
Performance and economics	27
Recent industry performance.....	27
Project economics and evaluation	28
3. ORGANIZATIONAL STRUCTURES OF E&P COMPANIES	31
Considerations for structural decisions.....	32
Aligning to strategic intent.....	33

Aligning to competitive advantage and culture.....	34
Optimizing the organizational structure.....	34
Key functions in independent E&P companies	37
Exploration department.....	38
Drilling, development and production department.....	39
Marketing department.....	40
Administrative department.....	40
Organization of the accounting function	40
Integrated E&P companies.....	41
Independent E&P companies.....	41
Information systems	43
Ownership complexities.....	43
Information for agile business decisions.....	43
Internal controls.....	44
COSO Framework.....	44
Sarbanes-Oxley Act	45
Considerations for restructuring.....	46
Outside professional organizations	47
4. ACCOUNTING PRINCIPLES FOR OIL AND GAS PRODUCTION	49
History of accounting methods	50
Evolution of regulation.....	50
FASB codification.....	51
Overview of accounting methods.....	53
Capitalized costs under successful efforts	53
Capitalized costs under full cost.....	53
Classification of costs	56
Acquisition costs.....	56
Exploration costs.....	56
Development costs	57
Production costs	57
Successful efforts method	57
Successful efforts amortization.....	58
Successful efforts accounts.....	58
Full cost method.....	63
Cost centers.....	63
Costs to be capitalized.....	63
Full cost accounts	64
5. GEOLOGICAL AND GEOPHYSICAL EXPLORATION.....	65
Nature of exploration costs	66
Geology and geophysics.....	66

Geologic setting for oil and gas accumulations	67
Geologic conditions for oil and gas accumulations	68
Hydrocarbon traps	70
Structural traps.....	70
Stratigraphic traps.....	72
Combination traps.....	74
Unconventional reservoirs.....	75
Exploration methods	76
Surface mapping.....	77
Surveying.....	77
Existing well data	77
Seismic shooting.....	77
Evaluating well logs.....	79
6. ACCOUNTING FOR EXPLORATION COSTS	81
Accounting treatment.....	82
Accounting procedures	83
General ledger accounts	83
Work-in-progress.....	84
Authorization for expenditure	84
Accounting challenges	86
Determining sufficient progress	86
Exploration permits	87
Acreage selection options.....	88
Test well contributions.....	88
Exploration performed in return for acreage	89
Subsequent events.....	90
Additional considerations.....	91
Purchased G&G library.....	91
Seismic surveys.....	92
Support facilities and overhead costs.....	92
7. UNPROVED PROPERTY ACQUISITION, RETENTION AND SURRENDER.....	93
Overview of mineral rights.....	94
Lease contracts	95
Lease bonus.....	95
Primary term.....	96
Royalty provisions	96
Shut-in royalties	96
Rights to free use of resources	96
Pooling provisions.....	97
Delay rentals.....	97

Drilling obligation.....	97
Held by production.....	97
Offset clause	98
Right to assign interest.....	98
Lack of standard form	98
Miscellaneous provisions of leases.....	104
Types of mineral interests.....	105
Unproved leasehold acquisitions	105
Bonus payments	105
Incidental lease acquisition costs	105
Option to acquire leasehold	106
Acquisition of fee interests	107
Maintenance and carrying costs	108
Delay rentals.....	108
Property taxes	108
Other carrying costs.....	109
Unproved impairment and abandonment	109
Individually significant properties	109
Individually insignificant properties	111
Full cost accounting considerations	116
Evaluating subsequent events	116
Top leases and lease renewals.....	116
8. DRILLING AND DEVELOPMENT.....	117
Regulatory requirements	118
Onshore regulatory requirements.....	118
Drilling on federal lands.....	119
Offshore regulatory requirements.....	119
Environmental and safety requirements.....	120
Energy Policy Act of 2005	121
Drilling contracts	122
Footage rate contracts.....	122
Day rate contracts.....	122
Turnkey contracts.....	123
Other arrangements	123
Drilling preparations	123
Staking the well.....	123
Preparing the location	124
Drilling rig components	124
Derrick.....	124
Hoisting system	126

Power system.....	127
Rotary system	127
Mud system.....	127
Blowout preventer	128
Rotary drilling	130
Offshore drilling	131
Offshore rig types.....	131
Offshore considerations	131
Drilling activities.....	133
Drilling crews	136
Directional and horizontal drilling	136
Drilling challenges	138
Completing the well.....	139
Onshore completion.....	139
Completion equipment.....	140
Placing wells on production	143
Dry holes	143
Reservoir development	144
9. ACCOUNTING FOR DRILLING COSTS.....	147
Development costs.....	148
AFEs for drilling and development	150
AFE procedures.....	151
Supplemental AFE.....	153
Interest capitalization	153
Capitalization period and qualifying costs	153
Immaterial activity	156
Accounting challenges	157
Deeper drilling beyond producing horizons	157
Plug back and completion at shallower depths	157
Costs of abandoned portion of a well	158
Adoption of ASC 842.....	158
Definition of a lease	159
Embedded leases.....	161
Joint operating agreements	163
Lease and nonlease components	164
Rights of way and easements	165
10. ACCOUNTING FOR JOINT OPERATIONS.....	167
Legal forms of joint activities.....	168
Joint ventures of undivided interests	169
Legal partnerships.....	169

Jointly owned corporations	170
Other considerations	170
Joint ventures	170
Joint venture agreements.....	172
Joint operating agreements	172
Accounting procedure exhibits	176
Recording joint interest transactions.....	178
Records of operators	178
Records of nonoperators	180
Material transfers.....	185
Transfers from wholly owned warehouse to jointly owned lease	186
Transfers from wholly owned lease to jointly owned lease	186
Transfers between jointly owned leases.....	187
Asset removal.....	188
Joint interest audits	188
Electronic data interchange.....	190
11. PRODUCTION AND VOLUME MEASUREMENT	193
Bringing production online	194
Gas injection.....	197
Pressure maintenance in oil reservoirs.....	197
Artificial gas lift	198
Pressure maintenance in gas condensate reservoirs.....	198
Measuring oil volumes.....	199
Oil volumes produced and sold	199
Computing the volume run.....	204
Oil storage	205
Oil prices	210
Measuring gas volumes	210
Gas volumes produced and sold	211
Allocating gas sales.....	213
Gas storage.....	216
Measuring NGL volumes	217
NGL volumes produced and sold	217
NGL storage	218
Gas processing	218
Types of processing	218
Types of plants	219
Fractionation	219
12. ACCOUNTING FOR OIL, GAS AND NGL SALES.....	221
Adoption of ASC 606.....	222

Five-step model.....	223
Scope exceptions.....	223
Principal versus agent.....	224
Taxes	225
Arrangements between working interest owners.....	225
Commodity sales.....	226
Allocating the transaction price.....	226
Information and accounting systems	229
Accounting complexities	229
Division orders.....	230
Distribution accounting	232
Revenues held in suspense.....	232
Royalty reporting.....	233
Production taxes	233
Ad valorem taxes.....	235
Exchanges.....	236
Revenue accounting department	236
Revenue accountant responsibilities.....	236
Volume verification	237
Ownership interests.....	238
Oil sales	238
Accrual method	239
Oil inventory	241
Natural gas sales.....	241
Value determination.....	241
Recording natural gas sales.....	244
Residue gas and NGL sales	244
Gas purchase arrangements.....	245
Gas processing service arrangements.....	245
Embedded derivatives.....	246
Common royalty provisions.....	246
Shut-in royalties	247
Guaranteed minimum royalties	247
Enhanced recovery	247
Injection costs	247
Recognition of reserves.....	248
Reinjected gas.....	249
13. GAS IMBALANCES.....	251
Producer gas imbalances.....	252
Gas balancing agreements.....	252

Calculating producer gas imbalances.....	253
Settling producer gas imbalances.....	253
Accounting for producer gas imbalances	254
Pipeline gas imbalances.....	254
Roles of operators and nonoperators	254
Nominations	254
Allocations.....	255
Settling pipeline gas imbalances.....	255
Accounting for pipeline gas imbalances	256
14. PRODUCTION COSTS	257
Accounting for production costs.....	258
Use of subaccounts	259
Other apportionment accounts	260
Direct production costs	261
Salaries and wages	261
Employee benefits.....	261
Contract pumping services	261
Repairs and maintenance of surface equipment	262
Ad valorem, production and severance taxes.....	262
Indirect production costs	262
Well services and workovers	263
Saltwater disposal	264
Lease operating statements.....	264
15. OIL AND GAS RESERVES.....	267
SEC reserves definitions	268
SEC proved reserves.....	268
Developed and undeveloped reserves.....	271
Subcategories of proved developed reserves.....	272
Probable and possible reserves	273
Industry reserves definitions.....	274
Proved reserves.....	276
Unproved reserves	277
Reserves estimation	278
Common estimation methods.....	278
Supporting data.....	282
Reserves schedules	282
Reserves reports	284
SPE standards.....	285
16. DEPRECIATION, DEPLETION AND AMORTIZATION	287

Unit-of-production method	288
Aggregation of properties.....	289
Computing amortization expense	291
Well and development costs	291
Significant development projects.....	293
Dismantlement, restoration and abandonment costs	295
Equivalent unit-of-production.....	295
Unit-of-production equation.....	297
Revisions of estimates	299
Special considerations	300
Nonoperating interests amortization	300
Other allowable methods	302
Support equipment and facilities	302
17. IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS	303
Impairment indicators.....	304
Adjustments to asset carrying amounts.....	304
Deferred income taxes	305
ARO liabilities	305
VPP deferred revenue	305
Assessing and measuring impairment	305
Application issues	307
Impairment under unit-of-production amortization.....	308
Asset groupings	308
Step 1: Determining expected undiscounted future cash flows	309
Step 2: Determining fair value	311
Assets held for sale	312
Discontinued operations	313
18. FULL COST ACCOUNTING	315
Cost center definition	316
Capitalized costs.....	318
Qualifying costs.....	318
Interest capitalization	319
Amortization of capitalized costs	319
Costs subject to amortization	319
Costs excluded from amortization	320
Calculating amortization expense.....	323
Gross revenue method of amortization.....	325
Other considerations for amortization.....	325
Full cost ceiling.....	327
Ceiling calculation	327

Income tax effect calculations.....	330
Net book basis to be recovered	334
ASC 410 considerations.....	334
Purchased proved property.....	336
Subsequent events.....	336
Sales and abandonments.....	337
Multiple divestitures	339
Other conveyance types	339
Held for sale considerations.....	340
Discontinued operations	340
ARO settlements	341
Adjustment to full cost pool	341
Gain or loss recorded on settlement.....	341
Other special considerations.....	342
Equipment costs	342
Goodwill	342
Management fees.....	343
Statement of cash flows.....	343
Limitations under IFRS.....	343
Exploration and evaluation assets	344
Development and production assets	345
Impairment	345
Other amendments.....	345
19. ASSET RETIREMENT OBLIGATIONS	347
Regulatory and operational environment	348
Permitting	348
Abandonment techniques	349
Scope of accounting guidance	350
Recognition and measurement	351
Recognition	352
Initial measurement	352
Subsequent measurement	354
Revisions	354
Retirement.....	357
Application issues	357
Asset impairment	357
Estimated useful lives.....	358
Capitalized interest.....	358
ASC 932-235 disclosures.....	358
Contractual arrangements.....	358

Offsetting amounts	359
Conditional AROs	359
Environmental remediation	360
20. CONVEYANCES	361
Accounting principles	362
Sales and subleases of unproved properties	363
Sale of an entire WI in unproved properties	363
Sale of a share of a WI in unproved properties	364
Sale of a nonoperating interest in unproved properties	365
Sale of a WI with a retained nonoperating interest	366
Sales of proved properties	369
Sale of an entire proved property	369
Sale of an undivided portion of a proved property	369
Sale of a divided portion of a proved property	370
Sale treated as a normal retirement	371
Retirements of proved properties	372
Abandonments	372
Catastrophic events	373
ORRI conveyances	374
Sale of an override	374
Conveying an override to a key employee	376
Retaining an override when conveying a WI	376
Term overrides	377
Nonmonetary exchanges	377
21. PRODUCTION PAYMENTS AND NET PROFITS INTERESTS	379
Attributes of ownership	380
Production payments	381
Conveyed production payments	381
Production loans	382
Guaranteed recoupable exploration advances	383
Production payments conveyed as security for loan repayments	383
Conveyed production payments payable in product	384
Prepaid price swaps	387
Conveyed production payment examples	387
Retained production payments	388
Retained payments carved from proved properties	389
Retained payments carved from unproved properties	392
Net profits interests	393
Accounting for an NPI conveyance	393
Industry use of NPIs	394

Term NPIs	395
Accounting for other property conveyances	395
22. FARMOUTS, CARRIED INTERESTS AND UNITIZATIONS	397
Farmouts	398
Free wells	399
Carried interests	401
Promoted versus promoting	407
Unitizations	407
Equalizations	408
Unitization on federal lands	413
Creation of joint ventures	415
23. ACCOUNTING FOR PARTNERSHIP INTERESTS.....	417
Overview of partnerships	418
Organizing the partnership	418
Accounting complexities	419
Accounting and reporting considerations	419
Consolidation	419
Equity method	426
Proportionate consolidation	429
Illustrative examples.....	429
Impact to combined financial information.....	432
Fair value	432
Partner and partnership transactions.....	433
Management and service fees	433
General and administrative reimbursement	436
Similar legal entities.....	437
24. INTERNATIONAL OPERATIONS.....	439
Risks of international E&P operations	440
Political instability.....	441
Sanctity of contract.....	441
Fraud and corruption.....	441
Accounting and compliance.....	441
Societal pressures	442
Concessions.....	442
Joint ventures.....	442
Production sharing contracts	443
Principal concepts.....	444
Common terms.....	444
Accounting considerations.....	446

Disclosures	447
Service contracts.....	448
Additional considerations.....	448
Local accounting requirements	448
Dismantling obligations	448
Lifting imbalances	449
Transfer pricing.....	449
Accounting for ownership interests.....	449
Reserves.....	450
Host government audits.....	450
25. OFFSHORE OPERATIONS AND ENHANCED RECOVERY	451
Offshore operations.....	452
Offshore leasing	452
Exploration and evaluation.....	453
Drilling rigs.....	453
Operations and production	455
Plugging and abandonment.....	456
Accounting complexities	457
Unproved properties	457
Geological and geophysical costs	458
Exploration costs.....	458
Development costs	459
Production costs	459
Depreciation, depletion and amortization	459
Support facilities.....	460
Shared facilities	460
Removal and restoration	460
Enhanced recovery.....	460
Enhanced recovery methods	461
Enhanced recovery accounting issues.....	464
26. BASIC E&P INCOME TAX RULES	465
Oil and gas taxes in the U.S.	466
Definition of an oil and gas property	466
Economic interests.....	467
Leasehold basis	468
Geological and geophysical costs	469
Development costs	469
Tangible drilling costs.....	473
Other considerations.....	474
Tax depletion methods	474

Cost depletion	475
Percentage depletion	475
Tax depletion calculations	476
Sharing arrangements	477
Tax implications of organizational structures	479
Joint ventures	479
Partnerships	480
Corporations.....	481
S Corporations	481
Limited liability companies	481
Loss limitations.....	482
At-risk rules	482
Passive loss rules	482
Income tax credits and deductions	483
Enhanced oil recovery credit.....	483
Marginal well credit	484
Research activities credit	484
Interest expense limitation	484
Passthrough deduction	484
International taxes	485
State income taxes.....	485
Intangible drilling costs	485
Percentage depletion modifications.....	485
Bonus depreciation	486
State apportionment	486
Additional state income tax considerations	487
Sourcing oil and natural gas sales	487
27. MIDSTREAM OPERATIONS.....	489
Natural gas measurement	490
Natural gas processing.....	491
Processing plants.....	491
Residue gas.....	492
Gas plant settlement and allocation.....	492
NGL processing.....	494
Fractionation plants.....	494
Allocations to producers	494
Variations.....	496
Pricing	496
Crude oil pricing	497
Natural gas pricing	498

Effect of commodity prices	499
Transportation	499
Federal Energy Regulatory Commission	499
Crude oil pipelines.....	500
Natural gas pipelines.....	500
Pipeline operations.....	501
Crude oil pipeline operations	501
Natural gas pipeline operations.....	502
Tariffs	503
Crude oil marketing	504
Crude oil market factors.....	504
Crude oil marketing contracts.....	505
Natural gas marketing	506
Natural gas market factors.....	507
Natural gas marketing contracts.....	509
NGL marketing	510
NGL market factors.....	510
NGL marketing contracts.....	511
Storage facilities.....	512
Crude oil storage.....	512
Natural gas storage.....	512
NGL storage.....	513
Owners and operators of storage facilities	514
Seasonality.....	514
28. ACCOUNTING FOR MIDSTREAM OPERATIONS	517
Contractual arrangements.....	518
Fee-based contract.....	518
Acreage dedication contract.....	519
Minimum volume commitment.....	519
Wellhead purchase.....	520
Percentage of index	520
Percentage of proceeds.....	521
Percentage of liquids.....	522
Keep-whole	523
Product loss allowance	523
Inventory.....	524
Accounting methods	524
Balance sheet and cash flow classification.....	525
Imbalance settlement clauses.....	526
Exchanges.....	526

NPNS exception	527
Storage contracts.....	528
Storage contract terms	528
Storage contract gains and losses.....	529
Liquefied natural gas	529
Regulatory accounting	530
Group and composite depreciation.....	532
Contributions in aid of construction	534
29. MASTER LIMITED PARTNERSHIPS	535
History of MLPs.....	536
Common MLP terms	536
Benefits of an MLP	538
Unitholder benefits	539
Sponsor benefits	539
Additional benefits.....	540
Tax considerations	540
Structuring an MLP	543
Limited partnerships.....	544
Limited liability companies.....	545
Operating companies.....	546
Contribution of assets	547
Nonqualifying income.....	548
Qualifying income.....	548
Private letter rulings.....	549
Other MLP considerations	550
Minimum quarterly distributions.....	550
Growing the MLP.....	552
Governance	552
Board of directors	553
General partner	553
Limited partners	553
Audit committee	553
Conflicts committee	553
Omnibus agreement.....	554
Accounting and reporting considerations	554
Common control transactions.....	554
Partnership equity accounts	555
Allocation of earnings.....	555
Allocation of shared costs.....	557
Spin-offs and carve outs	558

30. FINANCIAL STATEMENT DISCLOSURES	559
Disclosure requirements.....	560
Publicly traded companies.....	560
Overview of required disclosures	562
Accounting for costs incurred and disposals.....	563
Capitalized exploratory well costs evaluation	563
Reserves quantity information.....	564
Capitalized costs.....	567
Acquisition, exploration and development costs	570
Results of operations	572
Full cost considerations	575
Amortization	575
Unproved property costs	575
Ceiling test.....	575
SEC disclosure requirements	576
Common SEC comment letter focus areas.....	577
Commodity price impacts	578
PUD reserves conversion.....	579
Standardized measure	581
31. STANDARDIZED MEASURE OF OIL AND GAS RESERVES.....	583
SMOG disclosure requirements	584
Disclosures as of year-end.....	586
Special considerations	587
Disclosures of changes in SMOG	587
SMOG computation example.....	588
Future income taxes.....	590
Future net cash flows	591
Present value.....	591
Statement of standardized measure	592
Computing SMOG changes	593
Accretion of discount	595
Sale of oil and gas produced, net of production costs	596
Net change in prices and production costs	596
Revisions of quantity estimates	598
Changes in estimated future development costs.....	599
Change in estimated future income taxes.....	600
Changes due to timing and other factors.....	601
Extensions and discoveries.....	603
Reserves acquired.....	605
Reserves sold.....	607

Combined disclosure	610
32. BUSINESS COMBINATIONS.....	613
Definition of a business	614
Application of the screen.....	616
Business combination framework	618
Outputs are not present	620
Outputs are present.....	621
Conforming accounting policies	622
Assets acquired, liabilities assumed and NCI	622
Oil and gas properties	623
Financial derivative instruments	623
Asset retirement obligations.....	624
Intangible assets	625
Noncontrolling interests	625
Goodwill and bargain purchases.....	626
Goodwill	627
Bargain purchases.....	628
Income taxes	629
33. VALUATION OF ENERGY ASSETS AND ENTITIES.....	631
Common uses for valuation methods	632
Income approach	634
Forecasts.....	634
Discount rate	635
Tax depletion benefit	638
Market approach	641
Cost approach.....	642
Concepts specific to oil and gas properties.....	642
Income approach considerations.....	643
Market approach considerations	645
Other considerations.....	647
SPEE survey of parameters.....	647
Valuation variables by sector.....	648
Midstream considerations.....	649
Income approach for midstream companies	649
Market approach for midstream companies	650
Other valuation considerations.....	651
34. RISK MANAGEMENT ACTIVITIES	653
Risks and uncertainties	654
Risk management definition.....	654

COSO Framework	654
Common industry risks	654
Upstream considerations	655
Risk management programs	656
Derivative instruments.....	657
Dodd-Frank Act.....	657
Commonly used derivative instrument types	658
Futures	658
Forward contracts	659
Swaps.....	659
Option contracts.....	662
Other contract types	662
Risks of derivative instruments	664
Price risk.....	664
Credit risk	664
Liquidity risk	664
Correlation risk	664
Basis difference.....	664
Accounting guidance.....	665
Definition of a derivative.....	665
Exclusions	666
Embedded derivatives.....	667
Continued improvements	668
Hedge accounting	668
Fair value hedge	668
Cash flow hedge	669
Foreign currency hedge	669
Documentation considerations	669
Evaluating effectiveness.....	670
Discontinuation.....	671
Presentation and disclosure	671
Gross versus net presentation	672
Fair value measurements	672
35. SEC REPORTING CONSIDERATIONS	673
Definition of a business	674
Requirements for an acquired business.....	674
Recent SEC amendments.....	675
Measuring significance.....	675
Financial statement periods required.....	677
Aggregate effect of acquisitions.....	678

Pro forma financial statements.....	678
Pro forma requirements.....	678
Pro forma adjustment categories.....	679
Abbreviated financial statements.....	680
Supplemental disclosures.....	681
Supplemental disclosures in pro forma financial statements.....	681
Supplemental disclosures in abbreviated financial statements.....	682
Common control transactions.....	683
APPENDIX I.....	1-1
APPENDIX II.....	2-1
APPENDIX III.....	3-1
APPENDIX IV.....	4-1
GLOSSARY.....	G-1
INDEX.....	I-1
