

# Steps to Reducing Worker Exposure to COVID-19 in Fish and Seafood Processing and Packaging Facilities

Keep you and the people working around you safe.  
Take these steps even if you have no symptoms of COVID-19.

- Stay home if you are sick.

- Maintain at least six feet physical distance between co-workers, where possible.

- Avoid group gatherings during work breaks onshore and offshore.

- Use partitions installed along the production line to achieve physical distance, where social distancing is not possible.

- Avoid sharing equipment and tools. Regularly clean tools and equipment that must be shared.

- Wash your hands with soap and water or alcohol-based hand rubs containing at least 60% alcohol.

- Wear protective equipment for general safety and to limit the spread of the virus.

- Report any safety and health concerns to your supervisor, or to OSHA.

- Limit the number of workers in shared living quarters onboard vessels.

Stay current on public health recommendations. For more information, visit [www.osha.gov/coronavirus](http://www.osha.gov/coronavirus) or call 1-800-321-OSHA (6742).
