

Distance Learning and Telemedicine Grants – 2016

| State | Recipient | Award | Project Description |
|--------|---|-----------|--|
| AK | Dena' Nena' Henash dba Tanana Chiefs Conference | \$375,000 | To expand the telemedicine program (<i>Foundations and Innovations in Telehealth</i> project.) |
| AK | Copper River School District | \$488,558 | To provide distance learning services to five primary schools in extremely remote Alaskan villages. The schools will share curriculum and professional development, mentorship. Three of the sites are on Native Alaskan trust lands. |
| AK | Hope Community Resources, Inc. | \$279,820 | To purchase video conferencing equipment to provide mental health and disability counseling and training and support services to individuals and their families. |
| AK | Arctic Slope Native Association, Ltd. | \$287,198 | To purchase a tele-pharmacy remote dispensing system. Currently, medication can only be flown into the remote five clinics. |
| AL | Alabama Southern Community College | \$339,419 | To establish a distance learning partnership between Alabama Southern Community College and three rural and economically depressed high school and StrikeForce zones in Alabama. |
| AL | Alabama Fire College and Personnel Standards Commission | \$115,282 | To provide distance learning paramedic, advanced paramedic and EMT courses to firefighters and first responders in rural Alabama. |
| AL, MS | East Central Mississippi Health Network, Inc. | \$123,577 | To install interactive audio/video equipment to connect a central hub and 15 end-user sites in Mississippi and 3 end-user sites in Alabama |
| AR | Arkansas Children's Hospital | \$371,923 | To install real-time telemedicine mobile carts and peripherals in 25 rural Arkansas schools in Strike-Force areas. This will enable students at each location to receive health care services from physicians at Arkansas Children's Hospital. |
| AR | Arkansas Children's Hospital | \$270,210 | To establish a school-based telemedicine project serving 17 schools in Strike-Force areas. This project will bring needed health services to medically isolated and needy young people. |
| AR | St. Bernard's Development Foundation | \$370,000 | To expand a telemedicine network to connect five rural end-user clinics with medical specialists (heart disease, diabetes, obesity) at five hub sites. |
| AR | Baxter County Regional Hospital, Inc. | \$320,538 | To provide a comprehensive telehealth care management program that will include remote patient monitoring and a free, 24-hour nurse help line. These enhancements will improve patient case management and health outcomes, and reduce unnecessary hospitalizations and visits to the emergency room. |
| AZ | Canyonlands Community Health Care | \$205,052 | To provide telemedicine to development and implement a telehealth program to minimize the effects of respiratory and pulmonary impairments in local coal miners at health center sites. |
| CA | College of the Siskiyous | \$235,225 | To provide video conferencing equipment at five teaching classrooms at the college and four high schools. |
| CA | Karuk Tribe | \$116,677 | To provide video conferencing equipment to support the delivery of specialty care, primary care, and behavioral healthcare services from hub sites in Sacramento and Redding to end-user sites in Happy Camp, Orleans and Yreka. |
| CA | California Telehealth Network | \$405,917 | To deliver telemedicine to improve access to specialty health, including psychiatry, endocrinology, dermatology, nephrology, and cardiology as well as health care education to isolated patients with chronic health conditions. |
| CA | Sierra Nevada Memorial Hospital Foundation | \$285,129 | To purchase telemedicine carts with accessories for seven healthcare clinics in rural California. |
| CA | Colusa County Office of Education | \$493,054 | To add interactive videoconferencing and audio-visual equipment into four school district offices, seven preschools and child care centers, and seven K-12 schools. |
| CA | Lassen Community College | \$313,593 | To provide increased access to higher education by establishing video conferencing connections between Lassen Community College and six high schools, including a teen center on the Susanville Indian Rancheria. |
| CA | Landon Pediatric Foundation | \$221,230 | To equip rural hospitals and clinics with telemedical carts that will connect them with specialists throughout the state. This project will also create a distance learning certification program to train nurses, physician's assistants and doctors. |
| CO | South Central BOCES | \$183,597 | To develop a distance learning and tele-therapy network between SC-BOCES, 12 elementary, junior and senior high schools, and 2 county admin. offices. This project will directly impact approx. 3500 students/year by providing expanded learning opportunities and mental health services ensuring students are adequately prepared for postsecondary and workforce readiness in rural areas. |
| GA | Community Health Care Systems, Inc. | \$419,886 | To improve EMS service and access to primary and specialty healthcare, improve health outcomes, reduce non-emergency emergency department visits and reduce health care expenses. |
| GA | HealthIE Georgia Corporation | \$121,989 | To expand telemedicine into additional communities. |
| GA | The Morehouse School of Medicine, Inc. | \$216,462 | To connect the Morehouse School of Medicine in Georgia with six rural clinics. |
| GA | Young Harris College | \$104,382 | To purchase video conferencing equipment for a project titled <i>Reach MOWR (Move On When Ready) Students in Northern Georgia</i> . |
| GA | Abraham Baldwin Agricultural College | \$444,851 | To provide educational programming for rural healthcare workers and community members by creating a distance learning network between the college and remote hospitals. This will enable rural nurses to access BSN programs without leaving their jobs or communities. |
| GA | West Georgia Technical College | \$225,511 | To purchase video conferencing equipment for health science distance learning, including GED preparation, health science credit coursework, peer-to-peer learning, tutoring, dual enrollment, virtual field trips, career preparation, and health care exploration and preparation. |
| IL | Bushnell-Prairie City District #170 | \$303,670 | To establish a distance learning network between two offices of the Boone-Winnebago Regional Office of Education in Illinois and 17 elementary schools in Illinois, Wisconsin, and Tennessee. |

Distance Learning and Telemedicine Grants – 2016

| State | Recipient | Award | Project Description |
|---------------|---|-----------|---|
| IL | Bushnell-Prairie City District #170 | \$313,572 | To establish a distance learning network between the Boone-Winnebago Regional Office of Education in Illinois and 14 middle and high schools in Illinois, Tennessee and Wisconsin. The project will enhance the educational opportunities for students in rural areas. |
| IN | Southern Hills Counseling Center, Inc. | \$73,348 | To implement a telemedicine system that will enhance the availability of mental health services in remote, rural areas of Indiana. |
| KY | Baptist Health Foundation Corbin, Inc. | \$377,121 | To establish a telemedicine network that connects clinical specialists at the Baptist Health Corbin and Grace CHC Pineville clinics to 10 school-based health centers as well as two Baptist Health primary care sites in rural Kentucky. |
| KY | Mountain Comprehensive Health Corporation | \$343,600 | To provide a telemedicine network for greater access to primary care services, behavioral health, and other specialty services. |
| LA | Louisiana Primary Care Association, Inc. | \$305,841 | To deploy a video teleconferencing network to connect 14 rural health centers with medical professionals specializing in psychiatry, psychology, nephrology, cardiology, immunology and infectious diseases. |
| LA | Biomedical Research Foundation of Northwest Louisiana | \$485,237 | To establish the University Health Telemedicine network for live tele-consults between specialists at University Health Shreveport. |
| MA | Collaborative for Educational Services, Inc. | \$337,356 | To purchase video conferencing equipment for a hub site in Hampshire, 22 end-user sites, and one Tribal end-user site. |
| MA, NY and SC | Town of North Brookfield | \$299,263 | To obtain a bridge and video infrastructure package at Mt. Wachusett Community College and connect it to three other hub/end-user sites in Massachusetts, New York and South Carolina. This project will benefit at least 4,000 students, 160 teachers and 450 residents. It will include access to college and career preparatory curricula, professional development and cultural diversity training. |
| ME | Regional School Unit 13 | \$327,466 | To purchase video-telepresence equipment to enable real-time distance learning among Regional School Unit #13, the Chewonki Foundation, the Center for Maine Contemporary Art, the Catawba Indian Nation, the Monhegan Island School and AOS 93 to provide rural students, educators and adult learners with access to science, technology, engineering, art and math classes. |
| ME | Regional School Unit 87/Maine School Administrative District 23 | \$312,744 | To purchase video-telepresence equipment. |
| ME | Regional School Unit 80/Maine School Administrative District 4 | \$239,235 | To establish a distance learning network connecting instructors at the Maine Tri-County Technology Center to students in 10 rural schools in Maine and three rural schools in New Hampshire and one end user site in the Indian Township of Passamaquoddy, Maine. |
| ME | Regional School Unit 33/Maine School Administrative District 33 | \$366,459 | To purchase video-telepresence equipment that will enable real-time distance learning activities between schools in Maine School Administrative District #33 (MSDA #33) and its partners. |
| ME | MaineHealth | \$398,692 | To install telehealth videoconferencing carts at six rural medical clinics. Three telehealth videoconferencing carts will be provided to three home health agency sites to supply patient needs. |
| MI | Munson Medical Center | \$407,709 | To connect 19 medical clinics in rural Michigan to the Munson Medical Center and the Grand Valley State University. |
| MI | Central Michigan University | \$137,010 | To expand a distance learning network to 12 unserved rural clinics in Michigan. Of these 12, one (the Kbic Clinic on the Keweenaw Bay Indian Community) serves a tribal area. |
| MN | Education Innovation Partners Cooperative Center | \$365,968 | To provide for a distance learning project that will directly benefit more than 4,800 students and more than 200 teachers per year |
| MN | East Central Minnesota Educational Cable Cooperative | \$50,000 | To expand educational opportunities to students in 10 schools through video-based instruction. |
| MN | Bois Forte Band of Chippewa | \$91,821 | To provide telemedicine, tele-pharmacy and distance learning to serve the patients at all Boise Forte Health and Human Services sites. |
| MN | Grand Meadow Independent School District 495 | \$115,692 | To replace telecommunications equipment to enhance academic services available to rural students. More than 2,700 students are expected to benefit from this interactive video conferencing project. |
| MS | Delta Health Alliance, Inc. | \$396,530 | The Delta Health Alliance will partner with five rural health clinics to purchase electronic equipment and provide training for personnel. The equipment will expand the health records system to offer new services, enhance care coordination, increase access to timely medical information and improve reimbursement rates in the Mississippi Delta region. |
| MT | Kalispell Regional Medical Center, Inc. | \$373,658 | To purchase telemedicine-enabled toolkits for three Critical Access Hospitals and one Primary/Urgent Care Center. |
| MT | University of Montana | \$195,312 | To establish video conference equipment for public schools in five counties in grades K-12 as well as for adult/non-traditional students. |
| MT | Flathead Valley Community College | \$83,270 | To purchase video conferencing equipment that will allow rural students to access remote health care instruction, build relationships with local clinics through internships and meet the need for nurses in their communities. |
| NC | Montgomery County Schools | \$265,576 | To establish a distance learning network connecting instructors at Montgomery Community College and the school district central office to students at six elementary schools, two middle schools and two high schools in rural North Carolina. |
| NC | College of the Albemarle | \$288,492 | To provide video conferencing equipment to support the delivery of educational content from one hub location to students at three high schools and three college campuses. |

Distance Learning and Telemedicine Grants – 2016

| State | Recipient | Award | Project Description |
|-----------|--|-----------|---|
| NC | Beaufort County Board of Education | \$60,864 | To replace/upgrade 10-year-old distance learning equipment at three rural high schools in Beaufort County, a USDA-designated Strike Force county. |
| NC | North Carolina Central University | \$480,000 | To purchase video conferencing equipment for 11 end-user sites (consisting of libraries and church centers) providing rural residents with the ability to educate themselves on a wide variety of legal issues. |
| NC | Rockingham County Schools | \$162,698 | To provide high-definition videoconferencing infrastructure and network capabilities for interactive educational programming. The network will provide learning opportunities for students in six rural schools. |
| NE | Mid-Plains Community College | \$100,144 | To purchase video conferencing equipment that will deliver courses to four extended campuses and a rural college. |
| NE | Rural Health Partners, Inc. dba Heartland Health Alliance | \$209,663 | To purchase telemedicine carts for 11 rural hospitals. These carts will assist patients by providing access to tele-emergency, tele-mental health triage, tele-hospitalist, and tele-specialist consulting services. |
| NM | New Mexico Department of Health | \$287,926 | To place videoconferencing equipment at 18 public health offices in New Mexico. The project will focus on medical practice transformation, which will lead to expanded access, improved health outcomes, and enhanced patient satisfaction. |
| NM | Santa Fe Indian School, Inc. | \$318,093 | To provide video conferencing equipment at 16 end-user sites to support the maintenance of the native languages of the 19 Pueblos in New Mexico. Santa Fe's new DLT facility will act as the hub to and from the Pueblo libraries, creating a digital pipeline that connects native students and teachers, elders, community leaders and mentors. |
| NV | Board of Regents Nevada System of Higher Education | \$493,351 | To provide video conferencing equipment to 13 USDA StrikeForce counties with 30 end-point users. This project will expand the availability of courses to students in rural colleges, work with cooperative extension agencies to assist in sharing trainings, classes and workshops for the community. |
| NV | Renown Health | \$436,936 | To provide acute and preventive health care specialists, currently not available, at 21 sites in Nevada and California. This program will be located in USDA Strike Force counties. |
| NV | Elko County School District | \$431,255 | To provide a telecommunications network from four hub sites in Elko and Clark counties to 13 end-user sites in Elko and White Pine counties. |
| NY | Erie2-Chautauqua-Cattaraugus Board of Cooperative Educational Services | \$221,780 | To provide enhanced video conferencing capabilities and expanded higher education distance learning course offerings to almost 3400 students in western NY. This project will support one hub, one hub/end-user site and seven end-user sites. |
| OH | Marietta Memorial Hospital | \$185,791 | To provide telemedicine services in southeastern Ohio and in northwestern West Virginia. Marietta Memorial Hospital will provide services to 14 hospitals and clinics creating the first ever telemedicine system in the region. |
| OH | Ohio Christian University | \$206,095 | To provide a fixed-site distance learning initiative connecting Ohio Christian University's main campus to four rural Ohio educational facilities, one of which is in a StrikeForce zone. The goal is to provide access to college education opportunities. |
| OK | Epic Charter School (K-8) | \$208,617 | To purchase video conferencing equipment for eight schools and six libraries. Services provided include literacy intervention and enrichment, teacher professional development, parent outreach programs, foreign language instruction, and virtual field trips. |
| OK | Epic Charter School (9-12) | \$209,277 | To purchase video conferencing equipment for five schools, four libraries, and the Wyandotte Nation. Services provided include literacy intervention and enrichment, teacher professional development, EOI and ACT test preparation, parent outreach programs, foreign language instruction, and virtual field trips. |
| OK | Choctaw Nation of Oklahoma | \$263,384 | To purchase video conferencing equipment for educational initiatives in 30 schools in a project named "Holbvt toba Aianumpuli" (Talking TV). |
| OK | Murray State College | \$369,751 | To purchase video conference equipment for one small rural community college and 13 public high schools located in Tribal jurisdictions, a StrikeForce area, and a Promise zone of south-central Oklahoma. |
| OK | Southwestern Oklahoma State University | \$485,498 | To deploy interactive video teleconferencing equipment at one hub, one hub/end-user and 11 end-user sites. This project will deliver college classes to all of the end-user sites; provide opportunities for interaction with students in other rural schools; and reduce the shortage of certified teachers in the districts. |
| OR | Lake Health District dba Lake District Hospital | \$98,713 | To provide video conferencing equipment at a hub and 4 end-user sites to improve public health. This project will address the needs of the communities by establishing video conferencing equipment and the supporting network technologies. |
| PA | Titusville Area School District | \$421,925 | To establish a distance learning network connecting instructors at Edinboro University to students in 11 rural K-12 schools in northwest Pennsylvania as well as the cultural center on the Catawba Indian Reservation (Tribal Area) in South Carolina. |
| PA | Universal Health Services, Inc. | \$430,939 | To offer remote cardiology and healthcare to patients in three rural communities in northern Nevada and northern California. This teleconferencing project's goal is to reduce the incidence of health disease, stroke, and other chronic diseases which are a major cause of death in these communities. |
| PA | Butler Healthcare Providers dba Butler Memorial Hospital | \$137,755 | To purchase telemedicine equipment. The benefits to rural patients include specialty care, diabetes, self-management education, health education, post-op follow-up care, and behavioral and mental health care. |
| PA and NY | Charles Cole Memorial Hospital | \$50,336 | To deploy a telemedicine project connecting nine rural health clinics and wellness centers in Pennsylvania and two orthopedica centers in New York. This project will result in improved access to clinical education, health care services, care coordination programs and community health education for residents in six rural counties. |

Distance Learning and Telemedicine Grants – 2016

| State | Recipient | Award | Project Description |
|-------|---|--------------|---|
| SC | Florence County Commission on Alcohol & Drug Abuse | \$318,218 | To provide video conferencing equipment to connect geographically distant health clinics to Behavioral Health Care Association hub sites. |
| SC | Dillon School District Four | \$378,329 | To install videoconferencing equipment at seven schools in the Dillon school district and equipment at the district office. Dillon County is a Strike Force County. |
| SC | Palmetto Care Connections | \$158,214 | To establish a telemedicine network connecting medical practitioners at the Medical University of South Carolina (MUSC) and Low Country Health Care System to 19 school-based health centers in rural South Carolina. |
| SC | McLeod Regional Medical Center of the Pee Dee, Inc. | \$420,092 | To establish a telemedicine network that will connect doctors at McLeod Regional Medical Center with seven other regional McLeod centers throughout South Carolina This network will provide primary and mental health care, occupational health services and continuing medical education. |
| SD | Avera Health | \$494,518 | To integrate 18 rural, under-staffed hospitals with Avera's ePharmacy network. A pharmacist will provide prescription review and pharmacy support 24 hours a day. |
| SD | Mount Marty College, Inc. | \$116,445 | To purchase video conferencing equipment to provide Master's in Education curriculum to Tribal colleges. This project will help train current and future teachers as well as provide professional development through distance learning. |
| TN | Chattanooga Hamilton County Hospital Authority | \$269,905 | To establish a telemedicine network in rural Grundy County. The county currently only has one pediatric clinic. This project will expand the availability of pediatric services county-wide by installing telemedicine equipment in 7 county schools. |
| TN | Tennessee Rural Education Association | \$281,079 | To establish a distance learning network with the Tennessee Rural Education Association, Tennessee College of Applied Technology at Jacksboro, and Tennessee College of Applied Technology at Morristown. Advanced courses will be provided to 17 high schools and middle schools in five counties. |
| TN | Carey Counseling Center, Inc. | \$67,572 | To establish a telemedicine network connecting board-certified psychiatrists at the Carey Counseling Centers in Paris to three rural counseling centers in Northwest Tennessee. |
| TN | Tennessee Rural Education Association | \$312,892 | To establish a distance learning network connecting instructors at Lincoln Memorial University to students at 25 rural K-12 schools in five county school districts. |
| TN | Mountain States Health Alliance | \$133,659 | To establish a telemedicine network connecting doctors at Johnson City Medical Center to three hospitals in rural Tennessee and three hospitals in rural Virginia. |
| TX | Texas Tech University Health Sciences Center | \$430,780 | To install video conferencing infrastructure and equipment at 10 sites in west Texas to deliver health education to rural communities. The network will also provide access to Continuing Nursing Education to these rural areas. |
| UT | Snow College | \$304,132 | To purchase interactive video conferencing equipment for three high schools and three charter schools. This project will shorten time for college degree completion and implement an easier transition to college coursework. |
| VA | The Rector and Visitors of the University of Virginia | \$153,082 | To invest in an advanced telepresence system at the U-VA Center for Telehealth to provide 11 community health centers with access to specialty care. |
| VA | Carilion Medical Center | \$434,182 | To provide mental health and other physician services in 12 rural counties in southwest Virginia. |
| WA | Wenatchee Valley College | \$457,028 | To connect the Wenatchee Valley College campus in Wenatchee with 19 rural hub/end-user sites bringing distance learning programs that will be inclusive of dual enrollment for high school students, professional development programs for K-12 teachers and workforce development programs including health care and continuing education. |
| WI | Cooperative Educational Service Agency 10 | \$134,348 | To extend distance learning capabilities to students at 12 rural K-12 schools in west central Wisconsin. |
| WI | Lakeshore Technical College | \$412,748 | To upgrade distance learning capabilities at five college campuses and 30 rural high schools in east central Wisconsin. |
| WI | Riverdale School District | \$91,089 | To improve academic achievements in 7 school districts in Wisconsin. This distance learning project will link teachers and students at fixed end-user locations via the use of video conferencing equipment. |
| WI | Ministry Health Care, Inc. | \$432,258 | To expand the advanced practice nurse practitioners telemedicine program to clinics in western and eastern Wisconsin. This project will allow nurse practitioners to communicate with physicians through one hub and 15 end-user sites. |
| WV | CAMC Health Education and Research Institute, Inc. | \$188,206 | To establish a telemedicine network connecting clinical specialists at CAMC Memorial Hospital to 9 rural hospitals in central and southern WV. This project will allow all participating rural hospitals to have access to medical specialists and critical care experts in neurology by remote tele-stroke consultations. |
| WV | Roane County School District | \$499,951 | To provide video conferencing equipment to 19 schools. Benefits will: 1) increase academic achievement, 2) ensure college/career readiness, 3) address professional development, 4) aid special needs children, and 5) improve student's social, emotional, and physical health. |
| WV | Pocahontas County Board of Education | \$499,951 | To place video conferencing equipment at 12 end user sites (consisting of schools and a preschool), at the Pocahontas County Free Library and at the Pocahontas County Public School District office. |
| 98 | | \$27,848,191 | |

Mailing Address: Foust 251, Mount Pleasant, Michigan 48859-000

Email Address: Middl1r@cmich.edu

Telephone: 989-774-7716

Project Description: Rural Development funds will be used to expand an existing distance learning network to an additional 12 currently unserved rural clinics in Michigan. Of these 12 one (the Kbic Clinic on the Keweenaw Bay Indian Community) serves a tribal area. The project will enable CMU College of Medicine to offer community based training in rural areas to its medical students. This will help increase the number of physicians practicing in rural areas of Michigan of which there is a shortage. In addition, the project will allow existing rural physicians to take continuing medical education courses from the

PROJECT SELECTION NOTICE

Rural Development has approved a grant of \$304,132

Program: Distance Learning and Telemedicine Grant

State: Utah

County: Sanpete, Sevier, Juab, Box Elder, Piute

Congressman, District: Rob Bishop, 1st; Chris Stewart, 2nd; and Mia Love, 4th

Senators: Orrin Hatch, Mike Lee

Recipient: Snow College

Recipient Contact: Emily D. Peterson

Mailing Address: 150 College Ave. Ephraim, UT 84627

Email Address: emily.peterson@snow.edu

Telephone: (435) 283-7072

Project Description: Rural Development funds will be used to purchase interactive video conferencing equipment for 3 high schools and 3 charter schools. This project will help rural students by providing a shorten time for college degree completion and implement an easier transition to college coursework. Benefits include delivering concurrent enrollment courses for both high school and college credits as well as improving quality, through certified instructors, and availability, by guaranteeing no cancellation due to low enrollment, of the courses delivered. Snow College has three sites that fall within Juab County, which has been designated as a Strike Force County:

Other Funding: \$191,529

Total Project Cost: \$495,661

PROJECT SELECTION NOTICE

Rural Development has approved a grant of \$235,225

Program: Distance Learning and Telemedicine Grant

State: California

County: Siskiyou and Modoc

Congressman, District: LaMalfa, 1

Senators: Feinstein and Boxer

Recipient: College of the Siskiyous

Recipient Contact: Karen Tedsen

Mailing Address: 800 College Ave
Weed, CA 96094-2899

Email Address: tedsen@siskiyous.edu

Telephone: 530-938-5827

Project Description: Rural Development funds will be used to provide video conferencing equipment at five teaching classrooms at the college and four high schools. The college will provide college level course content to the high schools allowing day and evening classes to students and adults. High school students will be provided the opportunity of dual enrollment to help both high-achieving students as well as those at risk of dropping out. College of the Siskiyous has one end-user site of Happy Camp, California, which is home to the Karuk Tribe.

If for some reason you can see this message, you need to either shorten your text to make it one page, or use a two-page layout template.

Other Funding: \$244,826

Suite 100
Milwaukee, Wisconsin 53224-3000

Email Address: ejanzen@affinityhealth.org

Telephone: (920) 831-1425

Project Description: Rural Development funds will be used to expand Ministry Health Care's Advanced Practice Nurse Practitioners (APNP) telemedicine program to clinics in Wisconsin's western and eastern regions. Due to a shortage of Family Practice and General Internal Medicine physicians in the rural hospitals and clinic sites, this telemedicine project will allow APNPs in rural areas to communicate directly with physicians in other rural areas who will consult on cases and provide direction when needed. This telemedicine project will support 1 hub and 15 end-user sites. As the program evolves over the next 3 years, Ministry Health Care envisions being able to add therapeutic

County: Missoula, Chouteau, Hill, Sanders, Gallatin, Blaine

Congressman, District: Zinke, At Large

Senators: Tester & Daines

Recipient: University of Montana "Project Access"

Recipient Contact: Ms. Terri Coslet

Mailing Address: 32 Campus Drive, 4104, Missoula, MT 59812

Email Address: Terri.coslet@umontana.edu

Telephone: (406) 243-4777

Project Description: Rural Development funds will be used to establish video conference equipment for public schools in five counties grades K-12 as well as adult/non-traditional students. Their goal is to: overcome geographic isolation and rural poverty through access to advanced coursework at the high school, college, and career level; to study within the home community and build sustainability for careers focused on health and human services; and to provide supervised telehealth health and human services such as that of speech and language assessment and intervention for individuals with related deficits. Project Access will provide services to three different Native American tribes and their reservations: the Chippewa-Cree and the Gros Ventre and Assiniboine on the Fort Belknap Reservation.

Other Funding: \$60,600

Total Project Cost: \$255,912

Program: Distance Learning and Telemedicine Grant

State: Indiana

Counties: Dubois, Perry, Orange, Spencer, and Crawford

Congressman, District: Larry Bucshon (R) – 8th district; Todd Young (R) – 9th district

Senators: Joe Donnelly (D) and Dan Coats (R)

Recipient: Southern Hills Counseling Center, Inc.

Recipient Contact: Mr. Rich Whitaker

Mailing Address: 480 Eversman Drive
Jasper, Indiana 47546-3548

Email Address: rwhitaker@southernhills.org

Telephone: 812-771-6880

Project Description: Rural Development funds will be used to implement a telemedicine system that will enhance the availability of mental health services in remote, rural areas of Indiana. The proposed network will allow healthcare professionals the ability to connect through video conferencing in real-time with mental health specialists and diagnosticians in far-off urban centers, dramatically enhancing the level of care able to be provided at these rural, isolated locations. SHCC will be able to connect to both rural hospitals that serve our isolated community, providing psychiatric diagnosis and support to individuals in crisis seeking help in the emergency room.

Senators: Graham and Scott

Recipient: Florence County Commission on Alcohol & Drug Abuse dba Circle Park Behavioral Health Services

Recipient Contact: Randall Cole

Mailing Address: 601 Gregg Ave
Florence, SC 29502-6196

Email Address: rcole@circlepark.com

Telephone: 843-664-3925

Project Description: Rural Development funds will be used to provide video conferencing equipment to connect geographically distant health clinics to Behavioral Health Care Association hub sites. BHSA provides comprehensive prevention, intervention and treatment to citizens in need of alcohol, tobacco and other drug abuse services. Each of the 9 primary Hub provider sites were chosen as hubs because they have shown interest in providing Medication Assisted Treatment which is our grant proposal treatment focus.

If for some reason you can see this message, you need to either shorten your text to make it one page, or use a two-page layout template.

These sites would have a greater capability of having or contracting with a physician to serve their specific sub-region. The connectivity in this grant will allow a county where the physicians are at their limit for prescribing Medication Assisted Treatment to be able to access services from a physician at their primary Hub provider site, or one of the other 8 Hub provider sites, in our system who is not at their limit. This project has multiple Strike Force counties.

Recipient: Canyonlands Community Health Care

Recipient Contact: Mr. Christopher J. Hansen, CEO

Mailing Address: 827 Vista Avenue, P.O. Box 1625
Page, Arizona 86040-1625

Email Address: c.hansen@cchcaz.org

Telephone: 928-645-6600

Project Description: Rural Development funds will be used to fill a gap in healthcare in a very remote area of Arizona by way of telemedicine. The proposed project will allow Canyonlands Community Health Care (CCHC) to development and implement a telehealth program to minimize the effects of respiratory and pulmonary impairments in local coal miners at health center sites. Not only will healthcare delivery be enhanced for medically-underserved populations, but it will increase access to much-needed specialty services while decreasing healthcare costs. Put simply, this program will save lives and save thousands of dollars in expenses to the patient as well as expenses to CCHC. There are 8 sites in this project with the Chilchinbeto Clinic is located both on tribal land (Navajo Nation) and within a Strike Force County (Navajo County).

Email Address: kristen.welker@mtmc.edu

Telephone: (605) 668-1577

Project Description: Rural Development funds will be used to purchase video conferencing equipment to provide Master in Education curriculum to tribal colleges. This project will help train current and future teachers as well as provide professional development through distance learning instruction and assistance. The need for this project is underscored by the geographic location of the tribal schools as well as the need for qualified teachers in the region and the state.

If for some reason you can see this message, you need to either shorten your text to make it one page, or use a two-page layout template.

Furthermore, these areas lack adequate resources to train future teachers or to provide professional development and training to current teachers. The end-user sites are at tribal colleges located on three different reservations in South Dakota.

Obligation Date: July 6, 2016

PROJECT SELECTION NOTICE

Rural Development has approved a grant of \$185,791

Program: Distance Learning and Telemedicine Grant

State: Ohio, West Virginia

County: Washington, Tyler, Pleasants, Wood, Noble

Congressman, District: [(Ohio) Johnson-6th], [(West Virginia) Mckinley -1st]

Senators: [(Ohio) Brown, Portman], [(West Virginia), Manchin III, Capito]

Recipient: Marietta Memorial Hospital

Recipient Contact: Ms. Daneka Hedges, Executive Director

Mailing Address: 401 Matthew Street, Marietta Ohio 45750-1699

Email Address: dhedges@mhsystem.org

Telephone: 740-374-4914

Project Description: Rural Development funds will be used to establish the Ohio River Telemedicine Project. The project will provide telemedicine services to rural areas in southeastern Ohio and in northwestern West Virginia. Marietta Memorial Hospital located in Marietta, Ohio, will provide services to 14 hospitals and clinics; creating the first ever telemedicine system in the region. The St. Mary's Diagnostic clinic is located in the Strike Force county of Pleasants. The region has endemic poverty, healthcare provider shortages, and high rates of heart disease, chronic disease, and lung cancer. The telemedicine
