

**EXAMPLE COMMODITIES COVERED BY THE
PERSIHABLE AGRICULTURAL COMMODITIES ACT (PACA)**

The PACA covers fresh and frozen fruits and vegetables. The legal authority for determining what is covered under PACA can be found in the statute at 7 USC 449a(4) and in the PACA regulations at 7 CFR 46.2(u). The following list is being provided in response to numerous requests from our customers for information about what types of items are covered by the PACA. The following list of commodities are covered by the PACA when they are fresh or frozen (not dry, canned or cooked). Please note that it is likely that there are additional items not included on this list that are nevertheless covered by the PACA. Given the international scope of today's produce industry there are undoubtedly some items that have inadvertently been left off this list and that omission should not be interpreted to mean that the item is not covered. If you have a question about an item not on this list, please call the PACA Division at 800-495-7222, Option 2.
