<sup>1</sup> Redeemable at the option of the United States on and after dates indicated, except where otherwise stated. In case of Treasury bonds now outstanding, such bonds may be redeemed only on interest dates, and 4 months' notice of redemption must be given.

<sup>2</sup> Treasury bills are non-interest-bearing and are sold on a discount basis with competitive bids for each issue. The average sale price of these series gives an approximate yield on a bank discount basis (360 days a year) as above indicated. This yield differs slightly from the yield on a true discount basis (365 days a year) which is shown in the summary on page 5.

Arranged according to earliest call dates.

A Redeemable, at par and accrued interest, to date of payment, at any time upon the death of the owner at the option of the duly constituted representative of the deceased owner's estate, provided entire proceeds of redemption are applied to payment of Federal estate taxes due from deceased owner's estate.

The face value of United States savings bonds and Treasury Notes Savings series of any yearly series maturing from month to month which are not currently presented for retirement will continue to be reflected as interest-bearing debt until all the bonds or notes of the series have matured. Thereafter, the total amount outstanding is reflected as matured debt upon which interest has ceased.

<sup>6</sup> Approximate yield if held to maturity.

<sup>7</sup> Redeemable in payment of Federal income, estate, or gift taxes after one full calendar month has elapsed between month notes were purchased and month in which tendered for taxes. Notes of Series C are redeemable for cash at the option of owner during and after the sixth calendar month and notes of Series D during and after the fourth calendar month after the month of issue, as shown on the face of each note.

<sup>8</sup> Interest is payable with principal at time of redemption. No interest is payable if note is inscribed in the name of a bank that accepts demand deposits, unless note is acquired by such bank through forfeiture of a loan.

Amounts issued and retired for Series C to F, inclusive, include accrued discount; amounts outstanding are stated at current redemption values. Amounts issued, retired, and outstanding for Series G are stated at par value.

<sup>10</sup> Excess of redemptions, not yet classified by series, deduct.

<sup>11</sup> Issued pursuant to the provisions of the Bretton Woods Agreements Act, approved July 31, 1945, and under the authority of and subject to the provisions of the Second Liberty Bond Act, as amended. The notes are non-negotiable, bear no interest, and are payable on demand.

Issued under the authority of and subject to the provisions of the Second Liberty Bond Act, as amended, and Sections 780 to 783, inclusive, of the Internal Revenue Code, as amended. Issued in series depending upon the tax years for which credits are available and in amounts certified to the Secretary of the Treasury by the Commissioner of Internal Revenue. Bear no interest and mature at yearly intervals after the cessation of hostilities in the present war, as provided by Section 780 (e) of the Internal Revenue Code, as amended, and are redeemable at the option of the owner on or after January 1, 1946.

AUTHORIZING ACTS:

a Sept. 24, 1917, as amended.

b Aug. 5, 1909, Feb. 4, 1910, and Mar. 2, 1911.

c June 25, 1910.

TAX STATUS:

d Any income derived from Treasury bills of this issue, whether interest or gain from their sale or other disposition does not have any exemp-

tion, as such, and loss from the sale or other disposition of any such bills does not have any special treatment, as such, under the Internal Revenue Code or laws amendatory or supplementary thereto. The bills are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority. For purposes of taxation the amount of discount at which the bills are originally sold by the United States is to be considered to be interest.

e Income derived from these securities is subject to all taxes now or hereafter imposed under the Internal Revenue Code or laws amendatory or supplementary thereto. The securities are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority. The following is applicable to savings bonds only: For the purposes of taxation any increment in value of savings bonds represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest.

Attention is invited to Treasury Decision 4550 ruling that bonds, notes, bills, and certificates of indebtedness of the Federal Government or its agencies, and the interest thereon, are not exempt from the gift tax.

f Exempt both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits

taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of bonds authorized by the act approved Sept. 24, 1917, as amended, the principal of which does not exceed in the aggregate \$5,000 owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above. The following is applicable to savings bonds only: For the purposes of determining taxes and tax exemptions the increment in value of savings bonds represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest.

q Exempt from the payment of all taxes or duties of the United States as well as from all taxation in any form by or under State, municipal, or local authority. (The Supreme Court has held that this exemption does not extend to estate or inheritance taxes, imposed by Federal or State authority.)

h Interest on these bonds is subject to all taxes now or hereafter imposed under the Internal Revenue Code or laws amendatory or supplementary thereto. Principal is exempt from taxation.

i These issues being investments of various Government funds and payable only for the account of such funds have no present tax liability.

In hands of foreign holders—Applicable only to securities issued prior to Mar. 1, 1941: Bonds, notes, and certificates of indebtedness of the United States, shall, while beneficially owned by a nonresident alien individual, or a foreign corporation, partnership, or association, not engaged in business in the United States, be exempt both as to principal and interest from any and all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority.
