Government.
e Indebtedness of Czechoslovakia has been funded under the agreement of Oct. 13, 1925, but the original obligations have not been exchanged for the new bonds of that Government.

Differences between principal here stated and face amount of obligations provided for in funding agreements represent deferred payments for which, under the funding agreements, gold bonds of the respective debtor governments have been or will be delivered to the Treasury.

Original amount ($66, 560, 560, 560, 43) included bonds aggregating $21,970,560.43 representing interest accruing and remaining unpaid during first 14 years, payment of which under the Funding Agreement, is extended over the last 48 years.

Division of German bonds between private awards and Government awards is an estimate based upon best information available at this time. When Mixed Claims Commission has completed its duties, a more accurate division may be made. Awards generally bear interest at 5 percent per annum. Bonds do not bear interest, but the aggregative face amount thereof will be sufficient to cover payment of the principal and interest due on the total awards finally entered by the Mixed Claims Commission. Bonds for private awards are held in trust, the proceeds thereof when received at maturity to be distributed by the Treasury to the claimants. Bonds mature on Mar. 31 and Sept. 30 of each year in the principal amount of RM20,400,000 each. No payments are to be made on Government awards until all private awards are paid in full.
