*Indebtedness of Czechoslovakia has been funded under the agreement of October 13, 1925, but the original obligations have not been exchanged for one and of Government awards is an estimate based upon best information available at this time. When Mixed Claims Commission has completed its duties, a more accurate division may be made. Awards generally bear interest at 5 per cent per annum. Bonds do not bear interest, but the aggregate face amount thereof will be sufficient to cover payment of the principal and interest due on the total awards inally entered by the Mixed Claims Commission. Bonds for private awards are held in trust, the proceeds thereof when received at maturity to be distributed by the Treasury to the claimants. Bonds mature on March 31 and September 30 of each year in the principal amount of R.M. 20,400,000 each. No payments are to be made on Government awards until all private awards are paid in full.
