Memorandum

To: Service Directorate

From: Director

Subject: Adoption of the Digital Line Graph Data Standards

The Digital Line Graph Data Standards have successfully completed the formal national review process for proposed data standards and are hereby formally adopted. A number of thoughtful comments were received and have been incorporated into the standards whenever possible. Please distribute this memorandum and the attachments to all Regional and Field Offices so they will be aware of the standards and the requirement to apply them Servicewide where appropriate.

The final standards may be viewed on the Service Internal Internet at <http://sii.fws.gov/r9data/>. These standards are:

- Hydrography Data Layer (DLG) (reviewed as Hydrology Data Layer)
- Hypsography Data Layer (DLG)
- Political Boundaries Data Layer (DLG)
- Public Land Survey System Data Layer (DLG)
- Transportation Data Layer (DLG)

Printed copies of the standards may be requested from Deb Southworth, National Geographic Information Systems Coordinator via e-mail or by phone at (303) 274-3574.
