Dear Mr. Zimmerman and Steering Committee Members,

We are writing to express our interest in and formally apply for membership within the Implementation Steering Committee (Committee) of the Lower Colorado River MSCP (MSCP). The Lower Colorado River Resource Conservation & Development Council (RC&D) is a 501(c)3 non-profit organization dedicated to fostering resource conservation in the lower Colorado River Region. The RC&D works in voluntary partnership with local governments, irrigation districts, and non-profit organizations and is in part supported by the USDA Natural Resource Conservation Service. The health and quality of the lower Colorado River and its restoration through the MSCP is vitally important to the RC&D.

Under section 7.3.1 of the Financial and Management Agreement (FMA) of the MSCP, our organization would be a member under 7.3.2.F Conservation Participant Group.

The point of contact for our organization would be Matthew Spriggs, AICP, President
