SUBJECT: San Diego Correctional Facility Detention Review Summary Report.

The Detention Management Division, Detention Standards Compliance Branch, performed a Headquarters Detention Review of the San Diego Correctional Facility in San Diego, California from August 31 through September 2, 2004. This is a Contract Detention Facility (CDF) operated by the Corrections Corporation of America (CCA). The review was performed under the guidance of [b6, b7c], Reviewer-In-Charge. Team members included [b6, b7c], HQDRO, [b6, b7c], El Paso DRO, [b6, b7c], Dallas DRO and [b6, b7c], El Centro DIHS.

Type of Review

This review is a scheduled Headquarters Review, which is performed to determine overall compliance with the Immigration Customs Enforcement (ICE) Detention Standards. The facility received a previous rating of "Good" during the August 2003 review.

Review Summary

The American Correctional Association (ACA) accredited the San Diego Correctional Facility in January 2002. The facility is currently scheduled for ACA re-accreditation. The facility also received accreditation by the National Commission on Correctional Health Care (NCCHC) in July 2002 and the Joint Commission on Accreditation of Health Organizations (JCAHO) in August 2004.

Standards Compliance

The following information is a summary of the standards that were reviewed and overall compliance that was determined as a result of the 2003 and 2004 detention reviews:

2003 Review

Compliant	32
Deficient	4
Repeat Deficiency	4

2004 Review

Compliant	32
Deficient	5
Repeat Deficiency	3

Detainee Classification System - Repeat Deficiency

- The facility was found to be deficient for not using color-coded wristbands or uniforms to categorize the detainees' custody levels.
- The facility conducts classification at intake. Reclassification between 45 and 60 days after arrival is not conducted. Subsequent reassessments are not conducted every 60 and 90 days.

Detainee Telephone Access - Repeat Deficiency

- Detainee telephones are located in an area immediately below the housing unit television set. This location is deficient because it does not allow detainees a *reasonable degree* of privacy during telephone conversations. The facility could remedy this deficiency by moving the unit television and by providing privacy panels.
 - Telephone stations do not provide the standard requirement of unimpeded privacy during use.

Access to Medical Care - Deficient

- Detainee interviews conducted by the PHS reviewer yielded several complaints from detainees who claimed they had to submit multiple sick call requests before being seen in the clinic.
- The San Diego facility experienced a sudden rise in population in early July (from an average of approximately 1250 daily to approximately 1600 daily). All resources of the detention facility, including DIHS, have been challenged to deal with this increased demand for services.
- Patient care areas of the clinic are adequate in terms of space. However, the population growth and expanded volume of services have rendered obsolete the original space provision of certain non-patient care areas such as the pharmacy (which doubled in staff).
 - The opening of a new detention facility adjacent to the ICE detention facility that offers higher hourly wages contributed to a net loss of seven nurses in a short time period.

Detention Files - Repeat Deficiency

- Detention files are prepared at intake. Copies of grievances, complaints, disciplinary and segregation forms are not maintained within these files for record keeping.

Staff-Detainee Communications Standard-Deficient

The Staff-Detainee Communications components are in place in order to allow for formal and informal contact between ICE staff and detainees. Neither the facility nor the ICE office maintain an effective monitoring tool to demonstrate that this standard is effectively being implemented. The facility does not maintain copies of detainee request form responses. Response copies should be maintained for a period of at least three years.

Significant Observations and Best Practices

Access to Legal Material - Best Practice

The law library is maintained and well equipped with computers and typewriters to enable detainees to prepare their cases. The law librarian, Officer [b6, b7c] is very knowledgeable in the library operation and in the requirement of access to legal material by special management detainees. The librarian maintained security consciousness and he advised that periodic searches of the library are performed to prevent items from being transferred between units via the library.

Food Service - Significant Observation

The kitchen was reviewed immediately after breakfast was served. During clean up, kitchen workers assured reviewers that safety was observed. Floors were kept mopped and free of food waste to prevent injury. Surface areas on walls and floors were well kept and clean. Food tray carts did not show signs of grit building up near the wheel area of the cart. The kitchen is supervised by a Food Service Administrator who has a broad and well-experienced background. Satellite feeding was observed and food temperatures were maintained effectively. Workers practiced cleanliness by wearing plastic gloves and hairnets.

Staff Appearance - Significant Observation

ICE and contract security staff dressed appropriately and presented a neat appearance. They seemed very knowledgeable about their individual post assignments. Staff was also very thorough in conducting searches of incoming personnel to prevent contraband from entering the facility via the main entrance.

RIC Observations

During the last two reviews, the same deficiencies have been identified. CCA and the ICE Field Office have failed to rectify the deficiencies, as there may be contractual issues that are involved. A new contract is scheduled to be awarded January 1, 2005. The Warden of the facility, the ICE Officer-In-Charge and their entire staff were very supportive of the review team and assured the team unimpeded access to the facility throughout the review. This facility is well managed.

RIC Issues and Concerns:

The facility recently commenced supporting the Arizona Border Initiative by providing bed space for approximately 250 detainees. This added support has made it a challenge for ICE staff and the medical unit, to manage these cases and to provide daily medical service. Staffing the medical unit to meet the volume of health care at this facility should be a priority.

Recommended Rating and Justification:

The Reviewer-In-Charge recommended that the facility receive a rating of "Acceptable." The facility complies with 32-of-37 applicable ICE Detention Standards. The facility should respond to all findings and initiate a Plan of Action in response to the deficiencies.

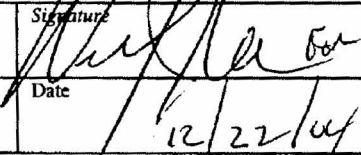

RIC Assurance Statement:

The findings of compliance and noncompliance are documented on the G-324a Inspection form and are supported by documentation in the review file.

CLASSIFICATION SYSTEM

Policy: All facilities will develop and implement a system according to which ICE detainees are classified. The classification system will ensure that each detainee is placed in the appropriate category, physically separated from detainees in other categories

Components	Yes	No	NA	Remarks

Opinions and unsubstantiated/ unconfirmed reports may be filed but are not used to score detainees classifications.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Housing assignments are based on classification-level.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

The classification system includes standard procedures for processing new arrivals' appeals. Only a designated supervisor or classification specialist has the authority to reduce a classification-level on appeal.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Classification appeals are resolved within five business days and detainees are notified of the outcome within 10 business days.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Detainee receives copy within 72 hours.
Classification designations may be appealed to a higher authority such as the Officer in Charge or equivalent.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
The Detainee Handbook or equivalent for IGSA's explains the classification levels, with the conditions and restrictions applicable to each.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Page 13 doesn't explain conditions and restrictions applicable to each.

The facility is still not using color-coded uniforms or wristbands. ICE detainees are issued a green or pink clip-on ID card depending on gender, which can be easily removed.

Classification Officer b6, b7c also stated that no re-classification is being done between 45 and 60 days after arrival. He stated that once detainees are classified, "it's pretty much a done deal unless new information regarding the detainee is received."

Advisory

The handbook was updated to reflect previously missing information, specifically information regarding the law library and pro bono organizations. The handbook still does not contain all the information required by the DMCP Standard. However, the G-324A Worksheet was updated and the facility was unaware of the changes and thus had no way of knowing what new information was required to be contained in the handbook, specifically question # 9 on page 13 of the worksheet.

The grievance section doesn't explain the appeals process. It only addresses the time frame.

The handbook doesn't address the procedure for filing an appeal with ICE or a grievance with DOJ.

The handbook doesn't address staff/detainee availability to help during the appeal process.

The handbook doesn't address the issue of guarantees against retaliation from staff for filing a grievance.

It also fails to address the following:

There was nothing found within the handbook regarding contraband policy. Only the search policy was addressed.

The disciplinary policy and procedures don't specify time limits in the Discipline Information Section. It is only referred to in the Offense Categories Appendix in the back of the handbook. Facility stated that they will make reference to time limits in the Discipline Information Section.

Advisory

Per interview with housing unit supervisor, written justification is not always placed in the detainee's file when removed from a work detail. This is usually the standard practice when a detainee quits a work detail. DMCP Standard states that there must be written justification from the OIC placed in the detainee's file whenever they are removed from a work detail.

Advisory - Recommend that documentation of training during orientation as well as annually have its own category and the training outline be readily accessible. You might want to consider joint training sessions since ICE, Medical and CCA all need this training. However due to the size of this facility this may not be feasible.

ACCESS TO MEDICAL CARE

Policy: Every facility will establish and maintain an accredited/accreditation-worthy health program for the general well-being of ICE detainees.

Components	Yes	No	NA	Remarks
IGSA facilities operate a health care facility in compliance with State and Local laws and guidelines.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
The facility's in-processing procedures of arriving detainees include medical screening.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	The screenig area is cramped and a long way away from the x-ray machine. There is privacy but it does not allow for timely processing of new screenings
All detainees have access to and receive medical care.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	There is not enough staff to handle the volume at this facility & therefore they are are not seen in sick call soon enough. Many detainees told me that they have submitted 3 and 4 sick call slips and have not been seen yet. One detainee told me he had stomach pain for two weeks & had not put in a sick call slip because he did not know the procedure.
For IGSA's, the district has access to a Managed Health Care Coordinator.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
The medical staff large enough to provide examine and treat the facility's detainee population.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Recently there has been an increase in the detainee population by 250. There is also a high detainee turn over rate. This coupled with the fact that recently 7 nurses have resigned makes staffing dangerously low
The facility has sufficient space and equipment to afford each detainee privacy when receiving health care.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Again the design of the clinic is not conducive to handling the large numbers of detainees now at this facility. They need a new fetal heart monitor.
The medical facility has its own restricted-access area. The restricted access area is located within the confines of the secure perimeter.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Detainees in the holding/waiting room have access to a toilet and a drinking fountain.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Medical records are kept apart from other files. They are: <ul style="list-style-type: none"> Secured in a locked area within the medical unit. With physical access restricted to authorized medical staff. Procedurally, no copies made and placed in detainee files. 	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	They have an excellent medical records department.
Pharmaceuticals are stored in a secure area.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Medical screening includes a Tuberculosis (TB) test. <ul style="list-style-type: none"> Every arriving detainee receives a TB test. During the admission process. ***Remarks:** (Record significant facts, observations, other sources used, etc.)

The medical care given here is very good, however, the structure of the building & clinic space is not conducive to the number of detainees that they service. I concur with the advisory of the previous survey that the size of the Pharmacy is substandard. Due to the nature of the mixed male & female population as well as other security factors, it is necessary to conduct 7 counts a day & this slows down clinic flow. They start their sick call at 0500 in order to attempt to accommodate the numbers that they need to see.

This facility is almost at risk due to low number of medical staff.
