# Charities and Other Tax-Exempif Organizationss 

 1989by Cecelia Hilgert and Paul Arnsberger

$T$he revenue and assets of nonprofit charitable organizations exempt from Federal taxation under Internal Revenue Code section 501(c)(3), excluding private foundations and most religious organizations, showed continued increases for 1989. Total revenue rose by 12 percent to $\$ 398.6$ billion, of which the organizations' program service activities provided more than two-thirds ( $\$ 272.1$ billion) of the total. Total assets also grew, by 12 percent, to $\$ 655.4$ billion. There were 133,157 returns filed for 1989, which represented a $7-$ percent increase from 1988. These statistics are based on data from Form 990, Return of Organization Exempt from Income Tax, and Form 990EZ, the short form of the return. This latter form was introduced for 1989 for smaller organizations, those with gross receipts of less than $\$ 100,000$ and end-of-year assets less than $\$ 250,000$. Data on organizations that are exempt under Code sections 501 (c)(4) through (9) are also presented in the second part of this article. For 1989 , there were 96,438 returns filed by these organizations, reporting $\$ 101.7$ billion of total revenue, and $\$ 126.7$ billion of total assets.

## Organizations Eremprt Umoler Section 501(c)(3)

Internal Revenue Code section 501(c) classifies nonprofit organizations into 25 categories, each of which is dealt with in a separate subsection. Some of the organizations may be eligible for tax-deductible donations under section 170 of the Code. Those nonprofit charitable organizations exempt under section 501 (c)(3) receive the largest part of tax-deductible donations and services. They are organizations whose purposes are religious, charitable, educational, scientific, or related to public safety testing. Their activities are restricted in that they must further one or more of these exempt purposes. Examples of these organizations include nonprofit hospitals, nonprofit universities and schools, youth organizations, community fundraising campaigns, public charities, and environmental support groups. In addition, the organizations must serve the "public good," as opposed to private interests, and thus may not distribute their net earnings to a private shareholder or individual. They are also restricted from activities that can influence legislation, and they cannot participate in any political campaign on behalf of, or in opposition to, any candidate for political office.

Only 133,157 of the 394,953 active nonprofit charitable organizations exempt under section 501 (c)(3) were required to file information returns on Forms 990 or 990 EZ for 1989 [1]. The remainder were either religious organi-

[^0]zations, which are not required to file; or small organizations with annual gross receipts of less than $\$ 25,000$, the filing threshold. Selected data from Form 990EZ are shown separately because the line items on the form are not the same as on the longer Form 990. (Where possible Form 990 data and Form 990EZ data are combined, such as in Figure A.)

The number of returns filed showed a larger increase (7 percent) for 1989 than had been registered for 1988, when there was a 2-percent increase over the previous year [2]. This overall increase for 1989 was evident for both the smallest-size organizations, those with assets of less than $\$ 500,000$, and for the largest ones, those with assets of $\$ 10$ million or more. Both of these size categories showed a gain of 7 percent in the number of returns filed for 1989 over 1988. Organizations with assets of less than $\$ 500,000$ accounted for more than two-thirds of all the returns filed for 1989, while the largest organizations accounted for 5 percent [3].

The total assets held by nonprofit charitable organizations increased by 12 percent for 1989 to $\$ 655.4$ billion [3]. This was greater than the 10 -percent increase registered in total assets from 1987 to 1988. In constant dollars, assets increased by 34 percent since 1985 , which is twice as great an increase as that of the real gross domestic product over the same period. Organizations with asset holdings of $\$ 50$ million or more accounted for 70 percent of the assets in 1989 (Figure B). This size class registered a gain of 15 percent in total assets from 1988. For small organizations, with assets of less than $\$ 500,000$, total asset holdings increased by 8 percent from their 1988 level. Liabilities of all nonprofit charitable organizations registered $\$ 293.8$ billion, up from $\$ 257.6$

NOTES: Nonprofit charitable organizations exclude private foundations and most religious organizations. Detail may not add to totals because of rounding
billion for 1988. The balance sheet of a tax-exempt organization does not have an owner's equity section; instead, earnings accrue to a "net worth/fund balance" account. The total fund balance for nonprofit charitable organizations was $\$ 361.6$ billion, up from $\$ 329.5$ billion for 1988.

In terms of revenue, program service revenue--the fees collected by organizations for the programs operated in support of their tax-exempt purposes--represented more than two-thirds of the total. Contributions, gifts, and grants accounted for another 19 percent of revenue. The largest asset-size class, $\$ 50$ million or more, accounted for the largest proportion of total revenue, 61 percent; organizations in this size class reported total revenue of $\$ 243.8$ billion, 15 percent more than 1988. Program service revenue was the largest proportion of the total revenue of the larger organizations, those with total assets of $\$ 10$ million or more, accounting for about three-quarters of the total reported by these organizations (Figure C). In contrast, contributions, gifts, and grants comprised onehalf of the revenue reported by the smaller organizations, those with assets under $\$ 1$ million. In constant dollars, program service revenue grew by 41 percent after 1985, and contributions, gifts, and grants, by 20 percent. For the 1988-1989 period, these two items grew by 14 percent and 11 percent, respectively, using current dollars.

## Types of Nonprofit Charitable Organizations

Figures D, E, and F present information on the types of nonprofit charitable organizations exempt under section 501 (c)(3) that filed Form 990 or Form 990EZ (short form) for 1989. The information was based on responses to a question on the return forms identifying the reason why the organization was not classified as a private foundation. In contrast to a nonprofit charitable organization, a private
foundation is narrowly supported and controlled, usually by an individual, family, or corporation, as opposed to an organization receiving broad support from a large number of sources within the general public [4].

Hospitals were the leading category of nonprofit charitable organization in terms of assets and revenue. Their assets totaled $\$ 189.7$ billion and their revenue, $\$ 179.2$ billion, which represented increases of 11 percent and 14 percent, respectively, over 1988. Hospitals accounted for 29 percent of the assets and 45 percent of the revenue totals reported for nonprofit charitable organizations. Nearly all of their revenue, 93 percent, was program service revenue.

Educational institutions were the second leading type of nonprofit charitable organization in terms of assets, with $\$ 156.3$ billion, reporting one-quarter of the total, and third leading type of organization in terms of revenue, with $\$ 69.5$ billion, 17 percent of the total. Included in this category were primary and secondary schools (both public and private), colleges and universities, professional and trade schools, and other organizations with educational activities of instruction.
"Publicly-supported organizations" were the third leading type of nonprofit organization in terms of assets, with $\$ 144.2$ billion, and second in terms of revenue, with $\$ 107.5$ billion, accounting for 22 percent and 27 percent of the respective totals. This category was comprised of organizations which normally receive a substantial part of support from a governmental unit, or from the general public in the form of contributions or revenue from their exempt function services and products (program service revenue). Types of organizations that generally qualify include organizations such as the American Red Cross or United Way and their affiliated agencies; voluntary health agencies such as the American Cancer Society and the

[Money amounts are in millions of dollars]

American Heart Association; organizations engaged in educational or sports activities for youth; performing arts societies (such as ballet companies, symphony orchestras); nursing homes or homes for the aged that provide
health care or domiciliary services to residents in the facilities; membership organizations that produce magazines and other educational material for their members; organizations that provide various forms of counseling; and other organizations providing a direct service to the general public. While program service revenue accounted for 60 percent of the revenue of educational institutions, it was less than one-half of the total revenue of publiclysupported organizations. Instead, these organizations received nearly two-thirds of their 1989 total through contributions, gifts, and grants.

A fourth type of nonprofit charitable organization, one that supports other charitable organizations, reported $\$ 142.8$ billion in assets and $\$ 32.5$ billion in revenue. When this type of organization is combined with the three mentioned above, the results represented 97 percent of both total assets and total revenue of all nonprofit charitable organizations for 1989. The other types of organizations, as shown in Figure D, represented the remaining 3 percent [5].

## Charities and Other Tax-Exempt Organizations, 1989

## Financial Characteristics of Nonprofit Charitable Organizations Filing Form 990

There were 114,724 organizations that filed the long Form 990 for 1989 (Table 1). While those with assets of $\$ 50$ million or more represented fewer than 2 percent of the number of these returns, they accounted for 70 percent of the assets of nonprofit charitable organizations and 61 percent of the revenue. Organizations with assets of $\$ 1$ million or more accounted for one-quarter of the number of returns, and they reported 97 percent of the assets and 90 percent of revenue. Figures G and H show revenue and asset data for the ten largest 501(c)(3) organizations.

major components of assets included investments in securities, $\$ 203.2$ billion; and land, buildings, and equipment, $\$ 199.0$ billion, representing 31 percent and 30 percent, respectively, of total assets. Investments in securities registered a gain of 16 percent for 1989. Liabilities were $\$ 293.7$ for 1989 , with mortgages and other notes payable accounting for 41 percent.

While investments in securities was the largest asset holding for all organizations filing Form 990, representing nearly one-third of the total, the types of asset holdings varied by the size of nonprofit charitable organization. For the smaller organizations, with assets of less than $\$ 500,000$, cash and savings was the largest single component, accounting for 42 percent of their total assets. In

## Charities and Other Tax-Exempt Organizations, 1989

contrast, for the organizations with assets of between \$1 million and $\$ 10$ million, land, buildings, and equipment was the largest asset type, 38 percent of the total. For the larger organizations, those with assets of $\$ 10$ million or more, investments in securities represented the largest single type of holding, accounting for one-third of the assets of these organizations.

## Revenue and Expenses

Program service revenue, which is generated through programs operated by nonprofit charitable organizations in support of their tax-exempt purposes, provided the largest source of revenue for these organizations. Program service revenue for 1989 was $\$ 271.9$ billion, or 68 percent of total revenue. Some examples of program service revenue include tuition and fees at educational institutions, hospital patient care charges (including Medicare and Medicaid payments), admission fees collected by museums or community performing arts groups, YMCA/YWCA activity fees, and payments received for insurance and retirement coverage by selected pension and annuity funds. Program service revenue accounted for three-quarters of the total revenue reported by organizations with asset holdings of $\$ 10$ million or more, while for organizations with asset holdings of between $\$ 1$ million and $\$ 10$ million, it was one-half of total revenue.

Nonprofit charitable organizations reported \$76.5 billion in contributions, gifts, and grants, representing 19 percent of the total revenue for long form filers (Figure I).

The total was comprised of $\$ 35.8$ billion received in direct public support, $\$ 33.7$ billion from Government grants, and $\$ 7.0$ billion from indirect public support. This last category includes revenue received through solicitation campaigns conducted by federated fundraising agencies. Contributions, gifts, and grants as a percentage of total revenue varied depending on the size of the organization. Organizations with assets of $\$ 10$ million or more depended on this source for just 13 percent of their total revenue. In contrast, organizations with assets of less than $\$ 1$ million depended on contributions, gifts, and grants for 52 percent of their total revenue.

Nonprofit charitable organizations report their detailed expenses on Form 990 by "functional categories" (salaries and wages, pension plan contributions and other employee benefits, legal fees, supplies, and the like) which are then combined into broad categories on Form 990: program services, management and general, and fundraising (Table 2). Total expenses reported were $\$ 370.7$ billion for 1989. For all organizations, those expenses relating to specific program services accounted for 85 percent of the total, with salaries and wages the largest single component. Management and general expenses, which supported the overall organization rather than specific programs, amounted to $\$ 50.0$ billion. Fundraising expenses and payments to affiliates together comprised only 1 percent of total expenses. (Payments to affiliates are payments to organizations closely related to the reporting organizations, such as support and dues payments by local chapters to State and national agencies.)

## Charities and Other Tax-Exempt Organizations, 1989

## Financial Characteristics of Nonprofit Charitable Organizations Filing Form 990EZ

In 1989, Form 990EZ was introduced for tax-exempt organizations with gross receipts of less than $\$ 100,000$ and assets of less than $\$ 250,000$ for the year [6]. (Table 5 presents detailed data on Form 990EZ filers.) There were 18,433 Form 990 EZ returns filed by nonprofit charitable organizations (Figure J). They accounted for 14 percent of the total number of returns filed by nonprofit charitable organizations that were exempt under Code section 501(c)(3). Most of the Form 990EZ filers, 86 percent, were organizations with assets of less than $\$ 100,000$; the remainder had assets of $\$ 100,000$ to \$250,000.

Organizations filing Form 990EZ reported total revenue of $\$ 926$ million, one-half of which was derived from contributions, gifts, and grants. Program service revenue amounted to $\$ 232$ million, one-quarter of the total. Expenses were $\$ 829$ million. Of the asset total of \$794 million, nearly two-thirds was in cash, savings, and investments. Total revenue and assets reported on Form 990 EZ represented only 0.2 percent and 0.1 percent, respectively, of the totals for all nonprofit charitable organizations exempt under Code section 501(c)(3). Three-quarters of Form 990EZ filers were publiclysupported organizations.

## Organizations Exempt under Sections 501(c)(4) through (9)

The statistics presented in this section are based on the 96,438 Forms 990 and 990EZ filed by organizations taxexempt under Internal Revenue Code sections 501(c)(4) through (9). Figure $K$ provides general descriptions of the organizations included under these sections. Unlike the nonprofit charitable organizations tax-exempt under Code section 501 (c)(3), most of these organizations are not eligible for tax-deductible contributions. Financial data for organizations covered by these six Code sections are presented in Tables 3, 4, and 5. Figure L compares selected data for 1988 with 1989. Most organizations exempt under these sections reported modest increases for most items for 1989, although some showed more significant changes. Business leagues, chambers of commerce, and real estate boards, all exempt under section 501(c)(6), for example, reported a 23.4 percent increase in the total liabilities recorded on their balance sheets.

For 1989., business leagues, chambers of commerce, and real estate boards filed the largest number of returns $(21,545)$ of organizations exempt under sections 501(c)(4) through (9). Civic leagues and social welfare organizations (section 501(c)(4)), and labor, agricultural, and horticultural organizations (section $501(\mathrm{c})(5)$ ) were close behind (Figure L). The number of returns filed by

[^2]
## Charities and Other Tax-Exempt Organizations, 1989

organizations exempt under sections 501 (c)(4) and 501 (c)(6) increased by 10.1 and 8.4 percent, respectively, from 1988, while organizations exempt under section 501 (c)(5) showed a slight decrease ( 0.2 percent).

With the exception of voluntary employees' beneficiary associations (section 501 (c)(9)), more than 80 percent of the returns filed under each Code section represented organizations with assets of less than $\$ 500,000$, while less than 0.5 percent represented organizations with assets of $\$ 50$ million or more (Figure M). Thus, in comparison to nonprofit charitable organizations, organizations filing under these six sections tended to be smaller (two-thirds of the total returns filed by nonprofit charitable organizations reported assets less than $\$ 500,000$ ). Voluntary employees' beneficiary associations reporting asset holdings of less than $\$ 500,000$ represented just over 60 percent of all returns filed by these organizations. Those with assets of $\$ 10$ million or more filed over 5 percent of the returns under section 501(c)(9), a greater proportion than the number filed under any of the other five Code sections.

## Revenue and Expenses

In terms of revenue, voluntary employees' beneficiary associations (section 501(c)(9)) reported considerably more revenue for 1989 than that reported by any of those filing under the other five Code sections (Figure N). The
$\$ 45.3$ billion reported by these associations represented a 12.1 percent increase from 1988 and was nearly triple the next highest amount for the six Code sections. Most of the revenue (over 82 percent) for these organizations was in the form of program service revenue, which in this case took the form of payments for health and welfare benefits coverage. Voluntary employees' beneficiary associations also reported by far the highest level of expenses, $\$ 44.3$ billion (of which over 84 percent was for health and welfare benefits paid to their members).

Civic leagues and social welfare organizations (section 501(c)(4)), which ranked second in terms of total revenue with $\$ 16.5$ billion, also received the majority ( $\$ 10.8$ billion) of their revenue from program services, as did fraternal beneficiary associations (section 501(c)(8)), though on a much smaller scale ( $\$ 5.0$ billion out of the $\$ 6.3$ billion). For 1989 , this latter group reported decreases in total revenue and total assets of 1.3 percent and 3.9 percent, respectively.

Membership dues and assessments were the principal source of revenue for three types of organizations: labor, agricultural, and horticultural organizations (section $501(\mathrm{c})(5)--\$ 7.6$ billion); business leagues, chambers of commerce, and real estate boards (section 501(c)(6)--\$6.8 billion); and social and recreational clubs (section 501(c)(7)-- $\$ 3.2$ billion). For each of these categories, total expenses grew at a rate higher than that for total

|  | 45,304 | 2,543 | 37,411 | 2,308 | 1,841 | 1.201 |

'Includes: "Income from savings and temporary cash investments," "Dividends and interest from securities," and "Gross rents" from the Form 990; "Investment income" from the Form 890EZ. NOTE: Detail may not add to totais because of rounding.
revenue, from 1988 to 1989. Organizations exempt under Code section 501(c)(6), for example, reported a 19.8 percent increase in total expenses to $\$ 16.0$ billion for 1989 , slightly more than the $\$ 15.9$ billion generated from an 11.7 percent increase in total revenue. Revenue of organizations with assets of less than $\$ 500,000$ under each of these Code sections accounted for greater percentages of total revenue than the revenue of nonprofit charitable organizations (section 501(c)(3)) of a similar size. These percentages ranged from 10.5 percent for civic leagues and social welfare organizations (section 501(c)(4)) to . 24.9 percent for labor, agricultural, and horticultural organizations (section 501(c)(S)) (Figure O). Fraternal beneficiary associations (section 501(c)(8)) were the only organizations covered under these code sections for which organizations with assets $\$ 50$ million or more predominated in terms of total revenue ( 75.4 percent).

## Assets and Liabilities

Figure $P$ shows that for 1989 civic leagues and social welfare organizations (section 501(c)(4)) reported the largest asset holdings, $\$ 33.0$ billion; those with assets of $\$ 10$ million or more accounted for 78.4 percent of the total assets reported by these organizations. Voluntary employees' beneficiary associations (section 501(c)(9)) and fraternal beneficiary associations (section 501(c)(8)) ranked second and third with $\$ 29.4$ billion and $\$ 25.2$ billion in assets, respectively. (Organizations with assets of $\$ 10$ million or more accounted for 87.7 percent of the total assets held by fraternal beneficiary associations; 70.2 percent, for those held by voluntary employees' beneficiary associations.) While most types of organizations exempt under these six Code sections reported
modest increases in total assets ( 6.9 percent), business leagues, chambers of commerce and real estate boards (section 501(c)(6)), and social and recreational clubs (section 501 (c)(7)) showed more significant increases of 13.8 percent and 10.0 percent, respectively.

The types of assets held by the various organizations varied considerably by Code section (Figure Q). (Detailed data on the components of assets are limited to those organizations that filed the longer Form 990; as mentioned earlier, only condensed balance sheets were filed for the smaller-size organizations that filed the shorter Form 990EZ.) Investments in securities was the largest single component of assets reported by labor, agricultural, and horticultural organizations (section 501 (c)(5)); fraternal beneficiary associations (section 501(c)(8)); and voluntary employees' beneficiary associations (section 501(c)(9)). On the other hand, most of the assets for social and recreational clubs (section 501 (c)(7)) were in the form of land, buildings, and equipment, while only 2 percent were in securities.

Shown in Figure $R$ are the net worth/fund balance totals for organizations under the six Code sections. This account varied as a percentage of total assets depending on the type of organization, and ranged from 20.1 percent for fraternal beneficiary associations (section 501(c)(8)) to 83.5 percent for labor, agricultural, and horticultural organizations (section 501(c)(5)).

## Sections 501(c)(4)-(9) Organizations Filing Form 990EZ

As mentioned above, the Form 990EZ was introduced in 1989 for organizations exempt under Internal Revenue Code section 501 (c) with annual gross receipts of less

than $\$ 100,000$ and assets under $\$ 250,000$. Use of the new form varied significantly among the types of organizations. There were 17,652 Forms 990EZ filed for 1989 by organizations tax-exempt under sections 501(c)(4)-(9). Figure $S$ shows that 5,049 Forms 990EZ were filed by civic leagues and social welfare organizations (section $501(\mathrm{c})(4)$ ), representing 23.8 percent of their total returns. On the other hand, voluntary employees' beneficiary associations (section 501(c)(9)) filed only 481 Forms 990EZ, 5.0 percent of the total. Cash, savings, and investments was the principal asset account reported by the Form 990 EZ filers, except for social and recreational clubs (section 501 (c)(7)) which reported 57.9 percent of their assets in the form of land and buildings. Fraternal

beneficiary organizations (section $501(\mathrm{c})(8)$ ) and voluntary employees' beneficiary organizations (section 501(c)(9)) filing Form 990EZ reported program service revenue as the primary source of income. Organizations tax-exempt under the other four Code sections that filed the shorter form ranked membership dues and assessments as the top source of revenue. (Table 5 presents detailed data on Form 990EZ filers.)

## Sumomary

For 1989, nonprofit charitable organizations tax-exempt under section 501 (c)(3) continued to report increased growth. Revenue increased to $\$ 398.6$ billion, up from $\$ 354.6$ billion for 1988 , a gain of 12 percent; assets were $\$ 655.4$ billion, up from $\$ 583.6$ billion for 1988 , also an increase of 12 percent. Hospitals as a group led all other types of organizations in both revenues and assets. The number of returns filed by nonprofit charitable organizations was 133,157 , which included both the longer Form $990(114,724)$ and the shorter Form $990 \mathrm{EZ}(18,433)$. This latter form was introduced for 1989 for organizations with gross receipts of less than $\$ 100,000$ and assets of less than \$250,000.

Program service revenue, the fees received for the programs conducted in support of the purposes for which the tax exemptions under section 501(c)(3) were granted, was \$272.1 billion, or two-thirds of the revenue for 1989. Contributions increased to $\$ 77.0$ billion from $\$ 69.1$ billion. This source of revenue accounted for more than one-half of the revenue for organizations with asset holdings of less than $\$ 1$ million, but for a much smaller share for larger organizations. Expenses continued to rise, to $\$ 371.5$ billion, of which 85 percent was in support of the organizations' program services.

Organizations exempt under Internal Revenue Code sections 501 (c)(4) through (9) are diverse in both their function and financial characteristics. Three types of organizations exempt under these sections,business leagues, chambers of commerce, and real estate boards (section 501 (c)(6)); civic leagues and social welfare organizations (section 501(c)(4)); and labor, agricultural, and horticultural organizations (section 501(c)(5)), each filed over 20,000 Forms 990 and 990EZ. In terms of total assets, civic leagues and social welfare organizations (section 501 (c)(4)) reported the most, followed by voluntary employees' beneficiary associations (section 501 (c)(9)) and fraternal beneficiary associations (section 501(c)(8)). For each of the six Code sections, smaller organizations (assets less than $\$ 500,000$ ) accounted for a greater share of total assets than similar sized nonprofit charitable organizations exempt under section 501(c)(3).

Civic leagues and social welfare organizations (section 501(c)(4)); fraternal beneficiary associations (section 501 (c)(8)); and voluntary employees' beneficiary associations (section 501(c)(9)) reported program service revenue as their primary source of revenue. Labor, agricultural, and horticultural organizations (section 501(c)(5)); business leagues, chambers of commerce and real estate boards (section 501 (c)(6)); and social and recreational clubs (section $501(\mathrm{c})(7)$ ), on the other hand, each reported membership dues and assessments as their principal source of revenue.

## Data Sources and Limitations

The statistics in this article are based on a sample of the 1989 Form 990, Return of Organization Exempt from Income Tax, and Form 990EZ, the short form. Organizations used the 1989 Form 990 when their accounting periods ended during the time period, December 31, 1989, through November 30,1990 . The sample did not include private foundations, which were required to file on a separate return form. The sample included only those returns with receipts of more than $\$ 25,000$, the filing threshold. The sample design was split into two parts: the first included returns of organizations exempt under section 501(c)(3), and the second part included organizations exempt under sections 501(c)(4) through (9). Returns of organizations exempt under other sections were not included in the study.

Each part of the sample was classified into sample strata based on size of total assets, with each stratum sampled at a different rate. For section 501(c)(3) organizations, a sample of 11,401 returns was selected from a
population of 135,472 . All returns with assets of $\$ 10$ million or more were included. Lower sampling rates were used in the smaller asset classes. For organizations filing under sections 501(c)(4) through (9), a sample of 10,800 returns was selected from a population of 97,301 . Sampling rates ranged from 2.35 percent to 100 percent.

The data presented were obtained from returns as originally filed. In most cases, changes made to the original return as a result of either administrative processing or a taxpayer amendment were not incorporated into the data base. A discussion of the reliability of estimates based on samples and methods for evaluating both the magnitude of sampling and nonsampling error and the precision of sample estimates can be found in the general Appendix in this issue.

## Notes and References

[1] Data presented in this article are from 1989 Forms 990 and 990EZ. Organizations used the 1989 Form 990 when their accounting periods ended during the time period, of December 31, 1989, through November 30, 1990. The total number of nonprofit charitable organizations, including those not required to file Form 990 or Form 990EZ, was obtained from the Internal Revenue Service Exempt Organizations Business Master File, as reported in Monthly Exempt Organizations Statistical Summary, and does not include private foundations filing Form 990-PF.
[2] Data for previous years were published in Internal Revenue Service, Statistics of Income, Compendium of Studies of Tax-Exempt Organizations, 1974-1987, and Compendium of Studies of Tax-Exempt Organizations, 1986-1992, Volume 2. See also Hilgert, Cecelia and Arnsberger, Paul, "Charities and Other

Tax-Exempt Organizations, 1988," Statistics of Income Bulletin, Summer 1992, Volume 12, Number 1, pp. 60-78; Hilgert, Cecelia and Mahler, Susan J., "Nonprofit Charitable Organizations, 1986 and 1987," Statistics of Income Bulletin, Fall 1991, Volume 11, Number 2, pp. 63-76; Hilgert, Cecelia and Mahler, Susan J. Includes returns with zero assets or assets not reported. Estimates in this column should be used with caution because of the small number of sample returns on which they are based.
Includes organizations with end-of-year total assets less than $\$ 250,000$ and gross receipts less than $\$ 100,000$ not filing a Form 990 EZ.
NOTES: Nonprofit charitable organizations exclude private foundations and most religious organizations. Detail may not add to totals because of rounding and processing tolerances.

${ }^{1}$ Excludes private foundations and most religious organizations.
NOTE: Detail may not add to totals because of rounding and processing tolerances.

[^0]:    Cecelia Hilgert and Paul Arnsberger are economists with the Foreign Special Projects Section. This article was prepared under the direction of Michael Alexander, Chief.

[^1]:    Churches and other religious-aftiliated organizations are not required to file a Form 990 or Form $990 E Z$ Most of the organizations in this category either filed voluntarily or misreported their type of organization. The estimate is, therefore, not inclusive of the majority of religious organizations.

    NOTES: Nonprofit charitable organizations exclude private foundations and most religious-affiliated organizations (see footnote 1). Detail may not add to totals because of rounding.

[^2]:    NOTE: Detail may not add to totals because of rounding.

[^3]:    Includes retums with zero assets or assets not reported

[^4]:    ${ }^{1}$ Inctudes returns with zero assets or assets not reportec

[^5]:    Footnotes at end of table.

[^6]:    Footnotes at end of table

[^7]:    'Excludes private foundations and most religious organizations.
    NOTE: Detail may not add to totals because of rounding and processing tolerances.
