The Service's Legacy of Conserving Migratory Waterfowl Habitat

For more than 80 years, the Migratory Bird Conservation Program and the Federal Duck Stamp Program have helped secure key habitats to sustain migratory bird populations. These programs protect wetlands, which help dissipate storm water runoff, purify water supplies, and store flood water. As we look forward to the continuing conservation of these critical resources, we find inspiration in these programs' extraordinary history of success.

At the turn of the 20th century, overeager hunters and the commercial demand for meat and feathers had decimated waterfowl populations. At the same time, periodic droughts caused wetlands and other valuable waterfowl habitat to disappear. In the late 1920s, conservationists, hunters, and government officials worked together to create the Migratory Bird Conservation Act, which Congress passed in 1929. This landmark legislation authorized the Federal government to acquire and permanently protect wetlands for waterfowl. It also created the Migratory Bird Conservation Commission—composed of Federal and State officials—to consider and approve proposals for land acquisition to conserve migratory waterfowl habitat.

Although the Act gave the Federal Government authority to create migratory bird refuges, it did not provide a permanent source of acquisition funding. This problem was addressed in the 1930s when President Franklin D. Roosevelt appointed Jay N. “Ding” Darling, a nationally known wildlife conservationist and political cartoonist, to serve as the Chief of the Bureau of Biological Survey. Darling was instrumental in the creation of a stamp, to be purchased by all waterfowl hunters, that would generate funds to pay for the acquisition of waterfowl habitat. In 1934, Congress passed the Migratory Bird Hunting and Conservation Stamp Act, which requires all hunters older than 16 to purchase and possess a Federal Duck Stamp while hunting waterfowl.

Revenues from Duck Stamp sales are deposited into the Migratory Bird Conservation Fund. The Fund also includes import duties collected on arms

and ammunition, and any appropriations from the Wetlands Loan Act, which Congress authorized in 1961 as an advance of funds against future revenues from the sale of Duck Stamps. The Fund is further supplemented by the proceeds from the sale of products and from rights-of-way granted across national wildlife refuges, disposals of refuge land, and reverted Federal Aid funds.

Since 1934, the Service has spent more than 1.3 billion Migratory Bird Conservation Fund dollars to permanently protect more than 5.7 million acres of important waterfowl habitat, including more than three million acres of Waterfowl Production Areas (WPAs) in the U.S. Prairie Pothole Region. In fiscal year 2015 alone, the Service used more than \$55 million from the Migratory Bird Conservation Fund to protect more than 7,000 acres of waterfowl habitat at migratory bird refuges and more than 41,000 acres in the Prairie Pothole Region, by fee purchase, lease, or easement.

Today, as in the past, the Migratory Bird Conservation Program and the Federal Duck Stamp Program depend on the support of people who understand and connect with our natural world—people who understand the importance of our wildlife resources and take action. What can you do? Buy a Federal Duck Stamp. Tell people how important Federal Duck Stamps are to ensuring healthy populations of all migratory birds and other wildlife. For more information, visit our Federal Duck Stamp Web site <www.fws.gov/duckstamps/> or our Division of Realty Web site <www.fws.gov/refuges/realty/>.

The Migratory Bird Conservation Commission

Section 2 of the Migratory Bird Conservation Act of 1929 established the Migratory Bird Conservation Commission. It reads as follows:

Section 2, as amended. A commission to be known as the Migratory Bird Conservation Commission, consisting of the Secretary of the Interior, as chairman, the Administrator of the Environmental Protection Agency, the Secretary of Agriculture, and two Members of the Senate, to be selected by the President of the Senate, and two Members of the House of Representatives to be selected by the Speaker; is created and authorized to consider and pass upon any area of land, water, or land and water that may be recommended by the Secretary of the Interior for purchase or rental under this subchapter; and to fix the price or prices at which such area may be purchased or rented; and no purchase or rental shall be made of any such area until it has been duly approved for purchase or rental by said commission. Any Member of the House of Representatives who is a

member of the commission, if reelected to the succeeding Congress, may serve on the commission notwithstanding the expiration of a Congress. Any vacancy on the commission shall be filled in the same manner as the original appointment. The ranking officer of the branch or department of a State to which is committed the administration of its game laws, or his authorized representative, and in a State having no such branch or department, the governor thereof, or his authorized representative, shall be a member ex officio of said commission for the purpose of considering and voting on all questions relating to the acquisition, under this subchapter, of areas in his State. For purposes of this subchapter, the purchase or rental of any area of land, water, or land and water includes the purchase or rental of any interest in any such area of land, water, or land and water.

Additional Responsibility: In 1989, the Commission acquired the additional responsibility of approving project funding under the North American Wetlands Conservation Act. This Act provides Federal funding to encourage partnerships to protect, enhance, restore,

and manage wetlands and other habitats for migratory birds and other fish and wildlife. The North American Wetlands Conservation Council, which was created by the legislation, submits project recommendations to the Commission for funding approval.

The Migratory Bird Conservation Fund

The Migratory Bird Hunting and Conservation Stamp Act of March 18, 1934 (Duck Stamp Act), created the Migratory Bird Conservation Fund (MBCF) to provide the Department of the Interior with monies to acquire migratory bird habitat.

There are three major sources of funds deposited into the MBCF account. The most well-known source is the revenue received from the sale of Migratory Bird Hunting and Conservation Stamps, commonly known as Duck Stamps, as provided for under the Duck Stamp Act. The other two major sources include appropriations authorized by the Wetlands Loan Act of October 4, 1961, as amended, and import duties collected on arms and ammunition, as provided for under the Emergency Wetlands Resources Act of 1986. The MBCF is further supplemented by the proceeds from the sale of products and from rights-of-way granted across national wildlife refuges, disposals of refuge land, and reverted Federal Aid funds.

The MBCF finances two Fish and Wildlife Service land acquisition programs that are administered by the Division of Realty. The first program acquires waterfowl habitat in major migratory bird conservation areas under the authority of the Migratory Bird Conservation Act of 1929 (MBCA). The second program acquires small natural wetlands, grasslands, and interests in wetlands and grasslands, known as Waterfowl Production Areas (WPAs), under the authority of the Duck Stamp Act. WPAs are located primarily in the Prairie Pothole Region of the upper Midwest region of the United States.

In accordance with the Federal Duck Stamp Act of 2014 (Pub. L. 113-264), which amended the Duck Stamp Act, all amounts in excess of \$15 received from the sale of each Duck Stamp are deposited into a MBCF subaccount that can only be used for conservation easement acquisition. This Act also established reporting requirements for MBCF expenditures, and requires the Service to identify areas open and closed to hunting and fishing.

Fiscal year 2015 collections totaled \$75,299,617, including \$12,136,401 from fiscal year 2014 carryover and \$4,956,526 in returned fiscal year 2014 sequestration funding. Of the total, \$69,774,705 was available for obligation during fiscal year 2015, including \$69,163,990 from MBCF collections and \$610,715 in reverted Federal Aid Wildlife Restoration grant money. The remaining funds, deposited at the end of the fiscal year, will carry over for use in fiscal year 2016, along with other unobligated funds.

Fiscal year 2015 obligations for MBCF land acquisition totaled \$66,077,620. Obligations included \$15,667,245 to acquire lands at migratory bird refuges, and \$48,278,225 to acquire WPAs. Printing expenses for the Federal Duck Stamp and other overhead costs make up the remaining \$2,132,151. The unobligated balance of \$9,221,997, along with \$4,535,605 in returned sequestered fiscal year 2015 funding, will be available for obligation during fiscal year 2016.

Migratory Bird Conservation Act: MBCC Approvals for Fiscal Year 2015

The Migratory Bird Conservation Commission approved 14 Migratory Bird Conservation Act proposals recommended for funding by the Secretary of the Interior in fiscal year 2015. Commission approvals included a 96,561-acre area boundary approval, boundary addition approvals totaling 106,081 acres, and price approvals or re-approvals to purchase or lease 19,318 acres for \$15,302,179. All proposals were approved in writing by a Governor or the appropriate State agency in the State where the land is located.

San Bernard National Wildlife Refuge

Fort Bend County, Texas

Felsenthal National Wildlife Refuge

Ashley, Bradley, and Union Counties, Arkansas

On April 29, 2015, the Migratory Bird Conservation Commission approved the 96,561-acre Felsenthal National Wildlife Refuge boundary, and granted price approval for the fee title acquisition of 1,383 acres.

The Felsenthal NWR is located approximately 5 miles north of Huttig, Arkansas. The refuge encompasses bottomland hardwood forest, pine, and pine/hardwood mixed forests, shrub-scrub habitats, moist soil areas, and open

water. Thousands of waterfowl winter in the area, including mottled ducks, mallards, northern pintails, gadwalls, wigeons, northern shovelers, blue- and green-winged teals, and ruddy ducks.

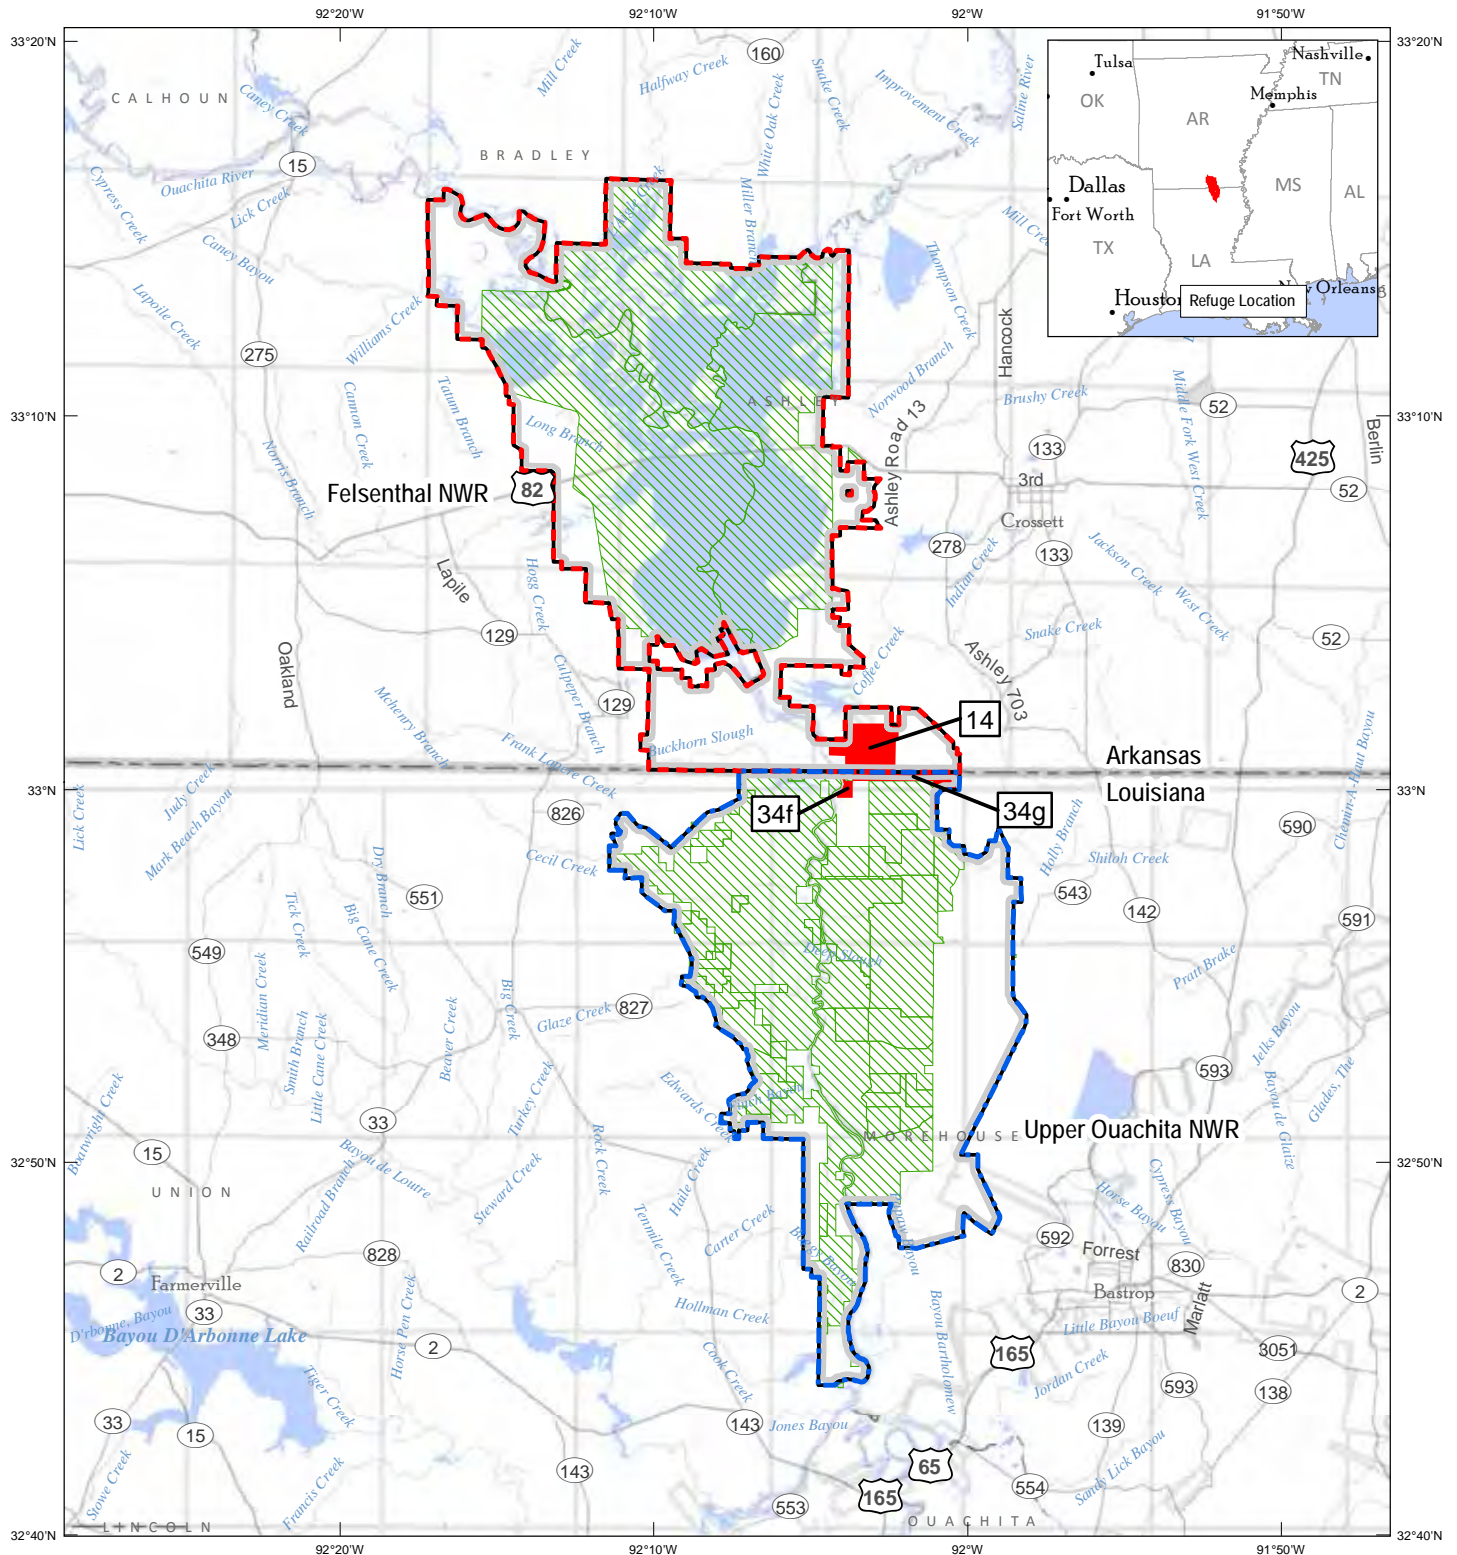

The 1,383 acres approved for acquisition consist primarily of bottomland hardwoods. The property is part of a larger 9,256-acre ownership that straddles the Arkansas-Louisiana state line. The property spans the Felsenthal NWR acquisition boundary

in Arkansas and the Upper Ouachita NWR acquisition boundary in Louisiana; acquisition connects these two refuges. Management of the property will focus on protecting habitats for waterfowl, wading birds, neo-tropical migrants, and other wildlife that depend on bottomland hardwood forests, and providing opportunities for compatible public uses, such as environmental education, interpretation, and wildlife-oriented recreation, including hunting and fishing.

Brazoria National Wildlife Refuge

Brazoria County, Texas

On September 9, 2015, the Migratory Bird Conservation Commission granted boundary approval for 525 acres at the Brazoria National Wildlife Refuge, and price approval for the fee title acquisition of 1,090 acres.

The Brazoria NWR is located in Brazoria County, Texas, northeast of Freeport. The 44,000-acre refuge includes a rich and productive Freshwater Lake and Slop Bowl tidal wetlands area,

which supports thousands of wintering waterfowl, including northern pintails, gadwalls, widgeons, northern shovelers, blue- and green-winged teals, and ruddy ducks. In addition, the area provides breeding and molting habitat for mottled ducks, black-bellied whistling ducks, and fulvous whistling ducks.

The 1,090 acres approved for acquisition consist mainly of tidal wetlands. The Service plans to restore native marsh

grasses and manage the tract as habitat for waterfowl, wading birds, neo-tropical migrants, and other wildlife that depend on cordgrass prairie and fresh and saltwater marsh. The Service also plans to offer compatible public uses such as hunting, fishing, wildlife observation, and environmental education and interpretation.

Cache River National Wildlife Refuge

Cross, Jackson, Monroe, Poinsett, Prairie, and Woodruff Counties, Arkansas

On April 29, 2015, the Migratory Bird Conservation Commission granted boundary approval for 102,000 acres at the Cache River National Wildlife Refuge, and price approval for the fee title acquisition of 909 acres.

The Cache River NWR is located in northeast Arkansas in the lower Cache River Basin, approximately 60 miles east-northeast of Little Rock. The refuge encompasses some of the largest remaining blocks of bottomland hardwood forest in the Lower Mississippi Valley, and some of the largest expanses of forested wetlands on any

tributary within the Mississippi Alluvial Valley. Designated by the RAMSAR convention as a Wetland of International Importance, the refuge supports one of the largest concentrations of mallards anywhere in North America, and also supports northern pintails, teals, Canada geese, and other migratory waterfowl species.

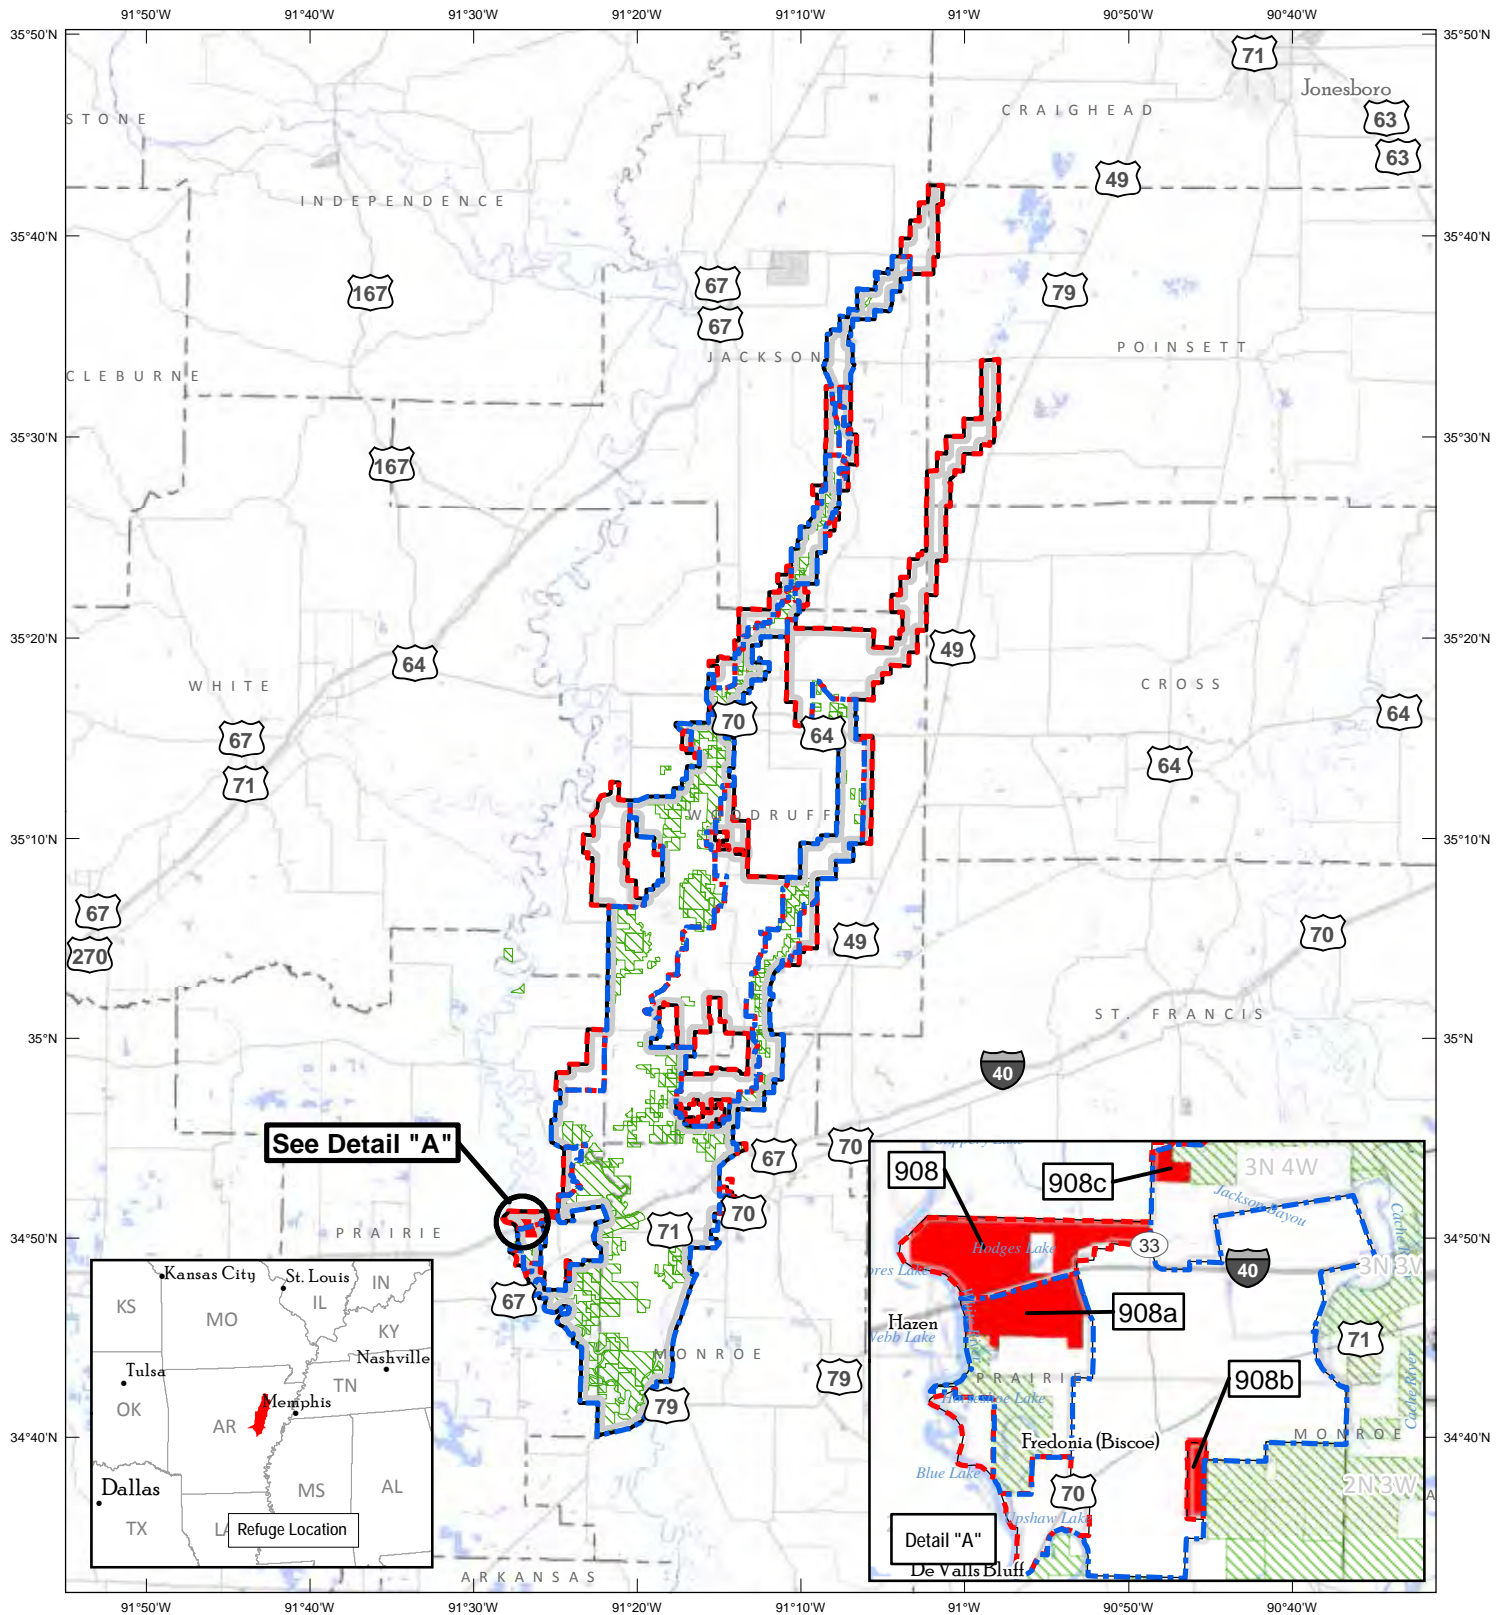

The 909 acres approved for acquisition contain a mix of mature bottomland forest habitats that flood during the winter months, providing excellent waterfowl habitat. The property also includes large fields that were recently

restored to native bottomland hardwoods and will connect to existing forest blocks. Acquisition will enhance the Service's bottomland hardwood conservation and restoration efforts by enlarging the Cache River NWR and connecting habitat blocks within the important wetland corridor of Bayou DeView. The Service will restore this property to its full wildlife and public recreational potential, creating a larger block of contiguous forestland managed for waterfowl and other migratory birds, and allowing the Service to restore important hydrologic functions in the lower Cache River watershed.

Klamath Marsh National Wildlife Refuge

Klamath County, Oregon

On September 9, 2015, the Migratory Bird Conservation Commission granted boundary approval for 60 acres at the Klamath Marsh National Wildlife Refuge, and price approval for the fee title acquisition of 400 acres.

The Klamath Marsh NWR is located in the Klamath Basin of southern Oregon, approximately 60 miles north of Klamath Falls. The refuge provides migration and nesting habitat for many waterfowl species, including mallards, pintails, gadwalls, cinnamon teals, redheads,

ruddys, Canada geese, and white-fronted geese. The refuge is also an important migration and nesting area for greater sandhill cranes and bald eagles.

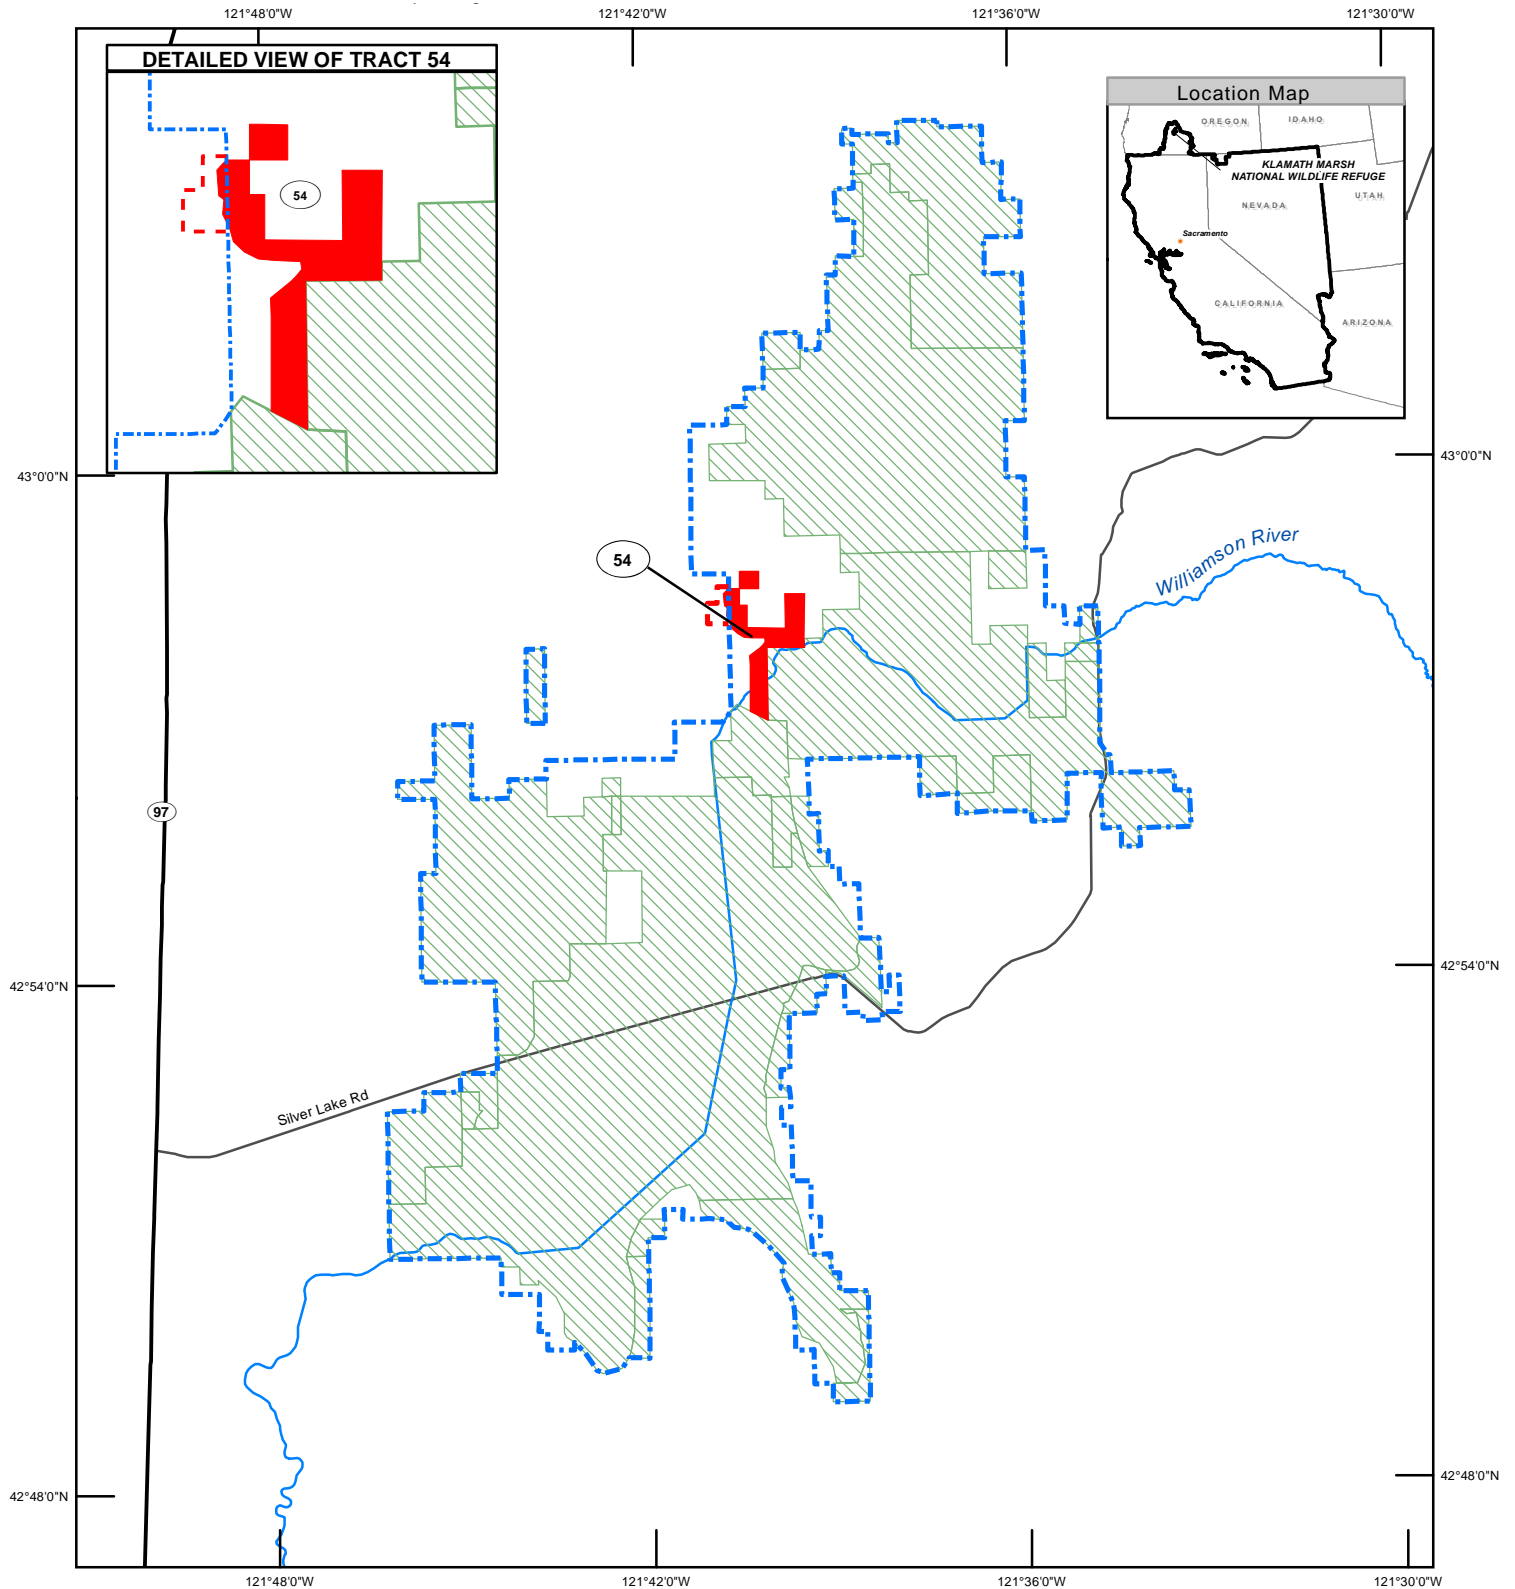

The 400 acres approved for acquisition consist primarily of permanent marsh composed of cattail and hardstem bulrush. This large natural marsh provides important nesting, feeding, and resting habitat for waterfowl. The Service will continue to work with others to preserve, restore, and enhance the natural hydrology and biological integrity

of Klamath Marsh and the associated uplands as habitat for migratory birds and other indigenous wildlife. The tract will also provide public access through abutting refuge lands.

Laguna Atascosa National Wildlife Refuge

Cameron County, Texas

On April 29, 2015, the Migratory Bird Conservation Commission granted boundary and price approval for the fee title acquisition of 1,777.8 acres at the Laguna Atascosa National Wildlife Refuge.

Located in Cameron and Willacy counties, Texas, the Laguna Atascosa NWR is part of a highly productive and valuable hyper-saline wetland complex that provides wintering, migration, and resident habitat for waterfowl, shorebirds, wading birds, neo-tropical

migratory birds, and other wetland-dependent wildlife species. The refuge supports thousands of redhead ducks, mottled ducks, northern pintails, Canada geese, American widgeons, and mallards. The redhead duck population that winters on the refuge is the largest single concentration of redhead ducks in the country.

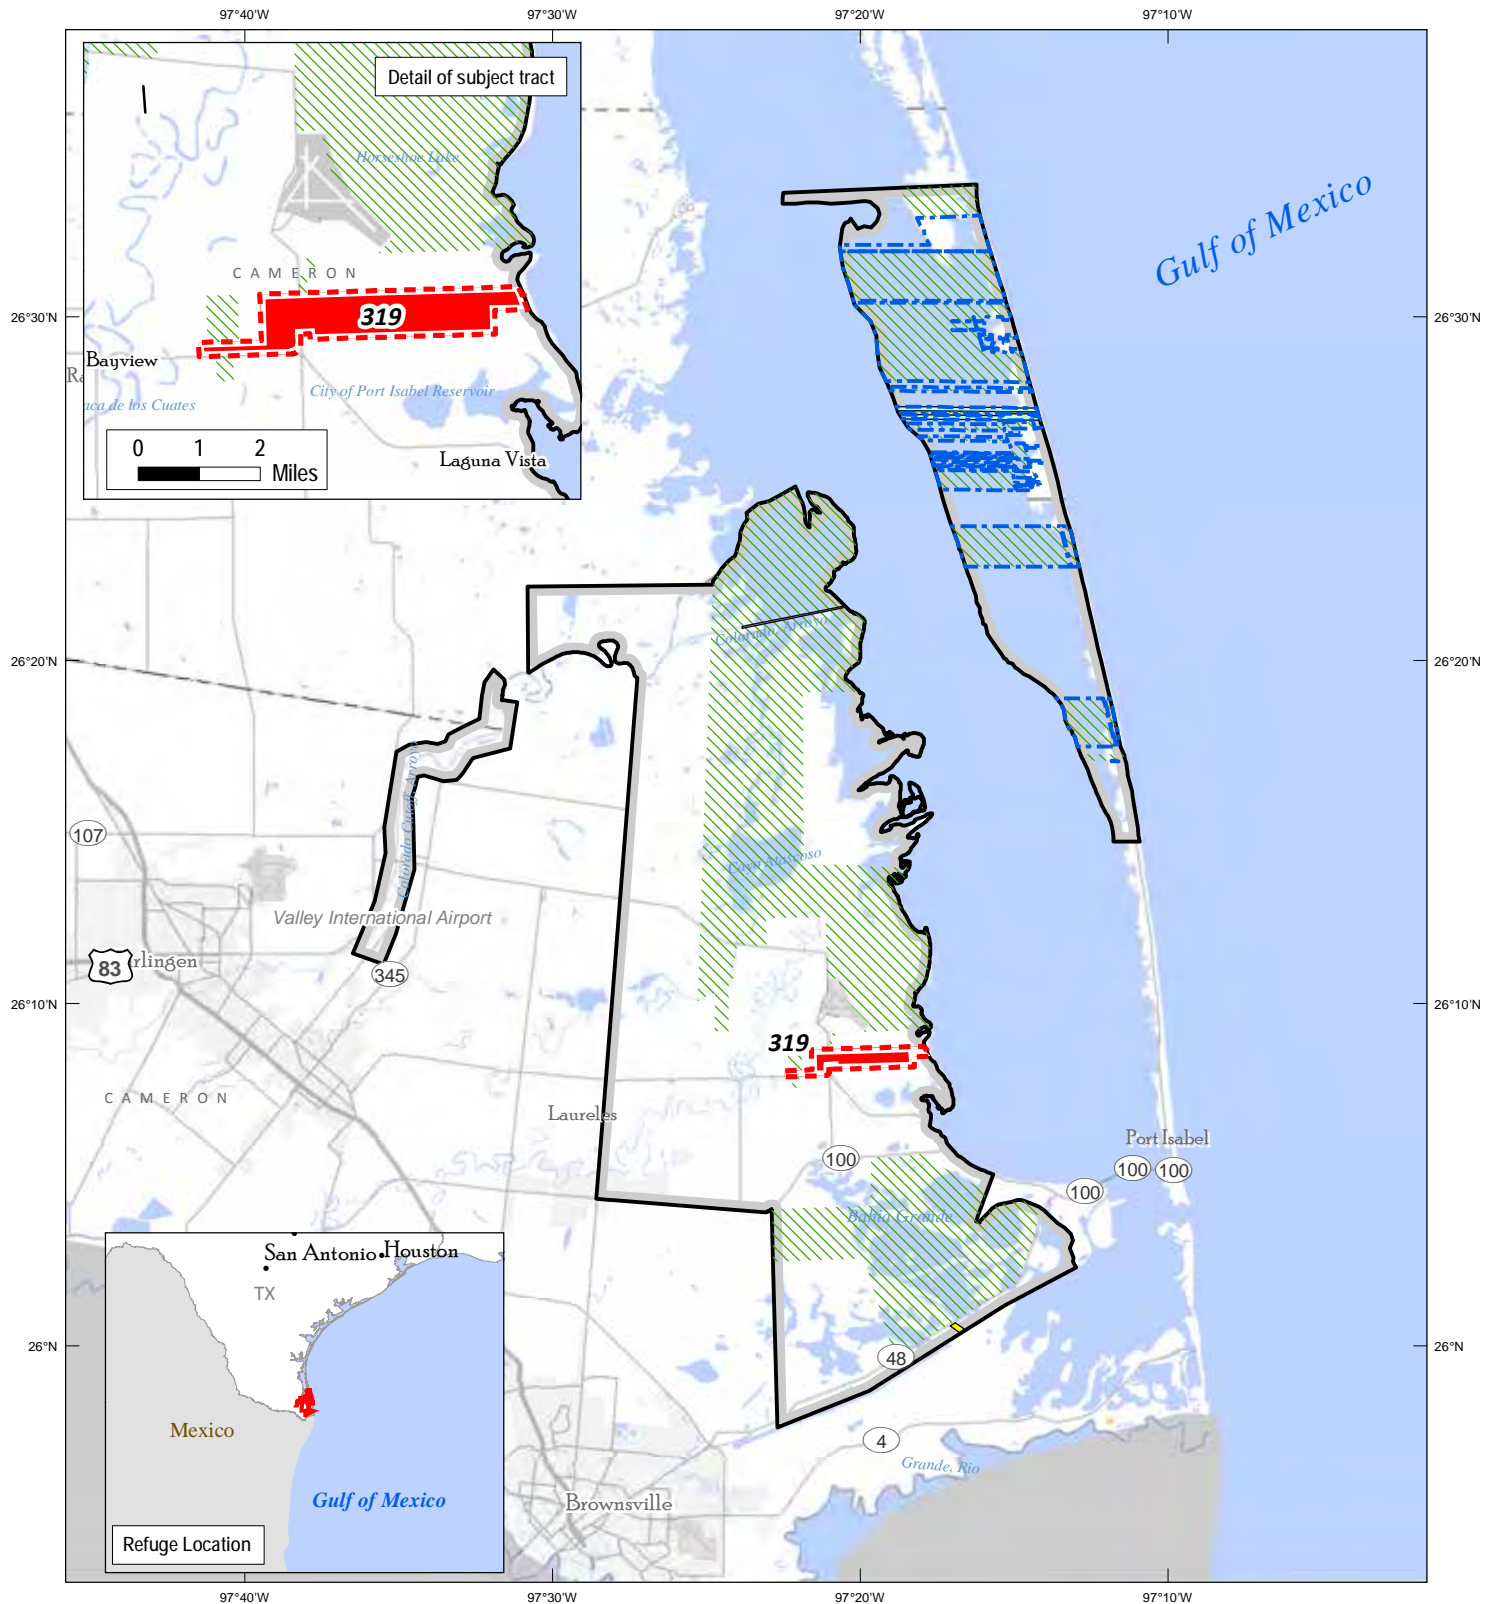

The 1,777.8 acres approved for acquisition include bay frontage along the Laguna Madre and coastal prairie wetlands. Acquisition will help create a corridor

linking the Refuge's main unit with its Bahia Grande unit. The Conservation Fund agreed to purchase the \$4,500,000 property and then sell it to the Service in a bargain sale, for \$1,000,000. The property is former pasture with public recreational opportunities, and, without this acquisition, the risk of future development would be high. The Service plans to manage most of the property for compatible, wildlife-dependent public recreational activities such as hunting, fishing, wildlife observation, and environmental education.

Mackay Island National Wildlife Refuge

Currituck County, North Carolina

On April 29, 2015, the Migratory Bird Conservation Commission granted boundary approval for 1,358 acres at the Mackay Island National Wildlife Refuge, and price approval for the fee title acquisition of 288 acres.

The Mackay Island NWR is located in the northern portion of Currituck Sound and the southern portion of Back Bay on a peninsula that juts into the Sound. Refuge habitats range from fresh and brackish marsh to upland and lowland Eastern pine hardwood forest. These

habitats support a breeding population of wood ducks, and attract concentrations of wintering waterfowl, including black ducks, Canada geese, tundra swans, pintails, green- and blue-winged teals, shovelers, gadwalls, and wigeons, as well as migrating shorebirds and wading birds.

The 288 acres approved for acquisition consist primarily of marshland that was once part of a historical hunting lodge called "The Flyway." The tract will expand the area that is heavily used by

migrating and wintering waterfowl for feeding, resting, and roosting.

Where compatible with refuge objectives, the refuge offers public recreational opportunities, including bird watching, nature photography, wildlife observation, and other wildlife-oriented recreation.

San Bernard National Wildlife Refuge

Fort Bend County, Texas

On April 29, 2015, the Migratory Bird Conservation Commission granted boundary and price approval for the fee title acquisition of 360.16 acres at the Austin's Woods Unit of the San Bernard National Wildlife Refuge.

The Austin's Woods Unit is located 50 miles south of Houston, Texas. It is a productive and valuable wetland complex that provides habitat for migrating, wintering, and resident waterfowl, wading birds, neo-tropical migratory birds, and other wetland-dependent

wildlife species. Thousands of waterfowl winter in the area, including mottled ducks, mallards, northern pintails, gadwalls, widgeons, northern shovelers, blue- and green-winged teals, black-bellied whistling ducks, and ruddy ducks.

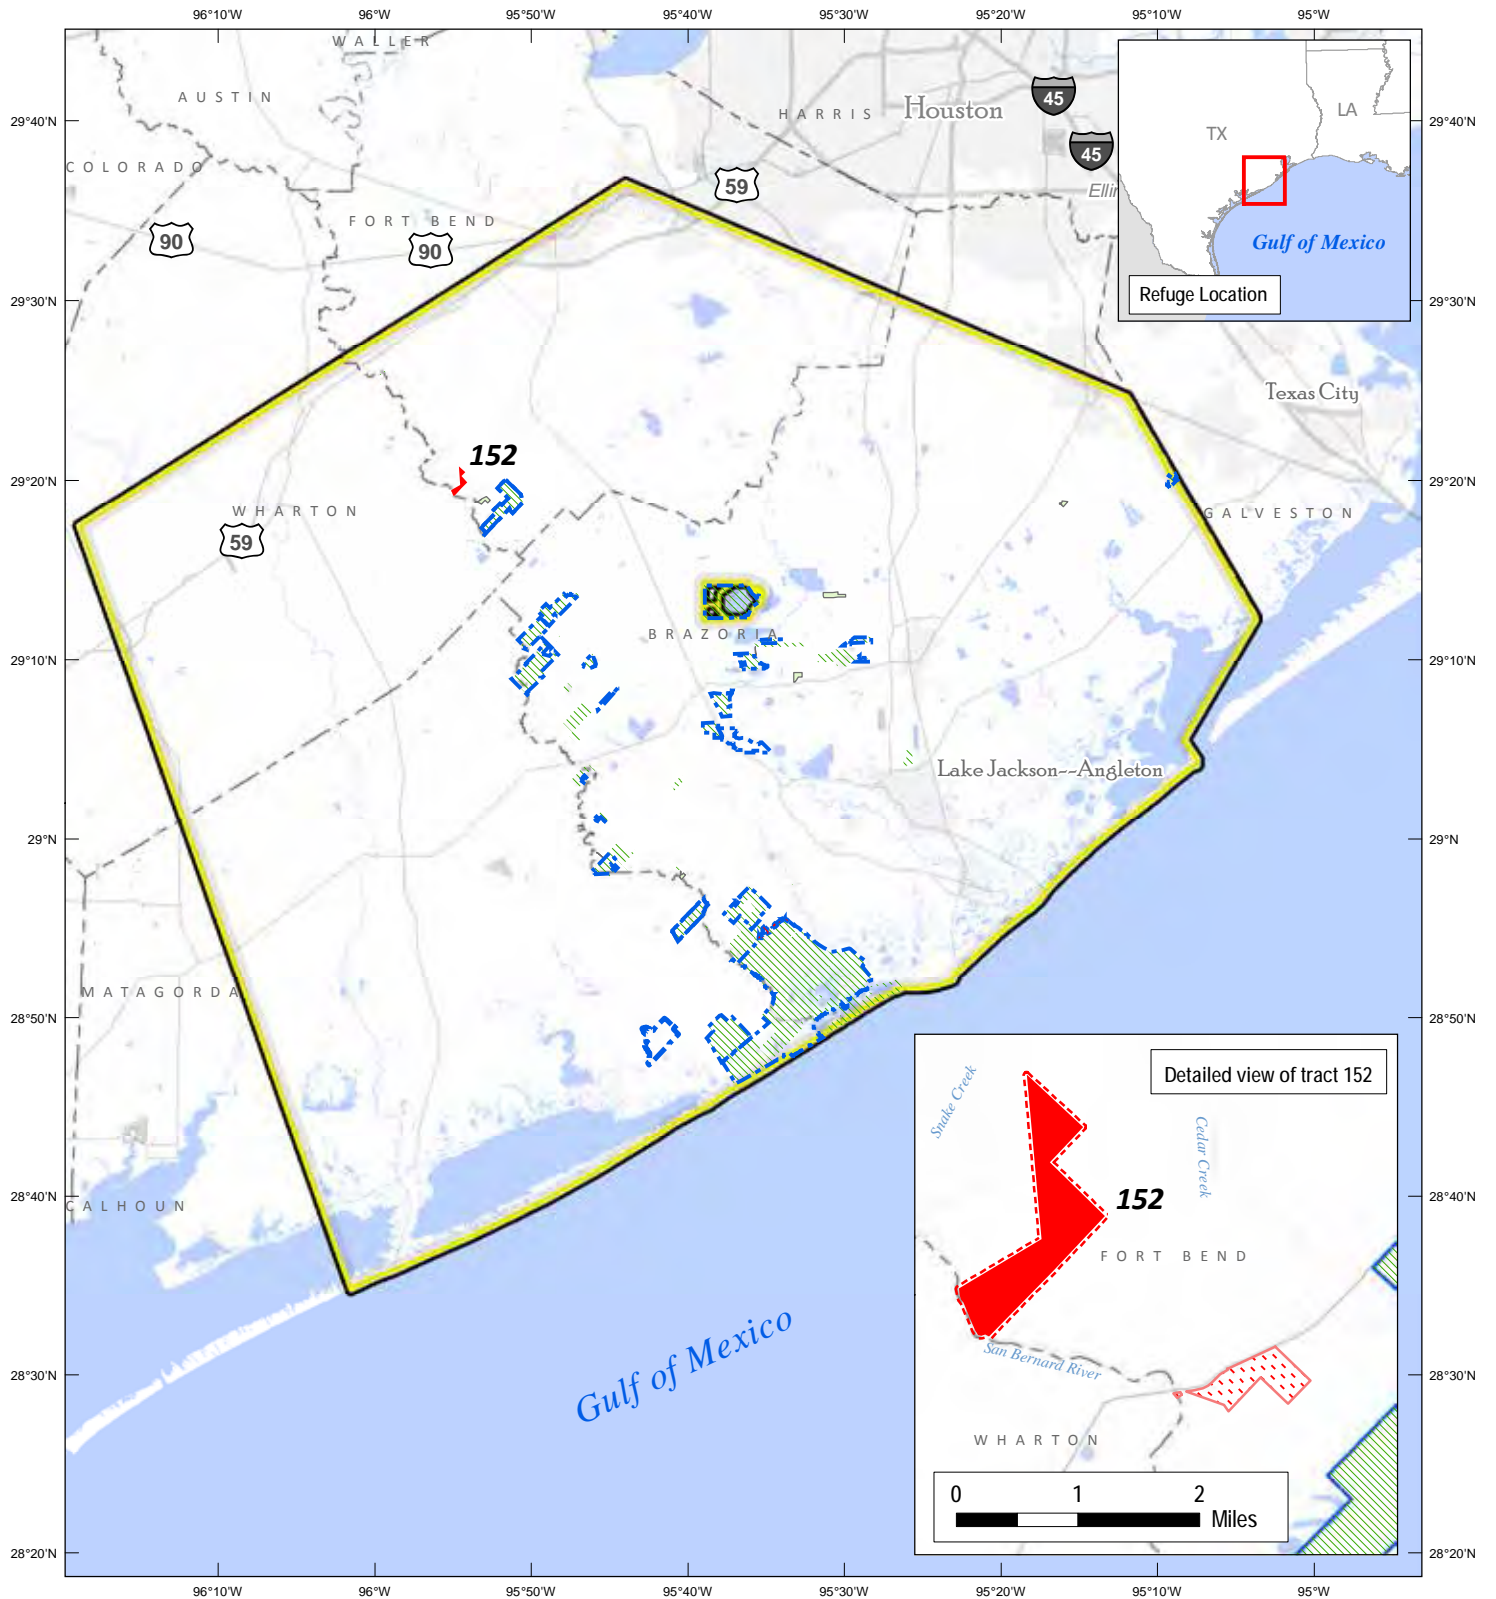

The tract approved for acquisition has river frontage on the San Bernard River. River front tracts are in high demand for development, including subdivision, which fragments habitat. The Service will manage the tract as habitat for waterfowl, wading birds, neo-tropical

migrants, and other wildlife. The Service also plans to offer compatible public uses such as hunting, fishing, wildlife observation, and environmental education and interpretation.

Status of Wetlands Conservation Projects for Migratory Bird Conservation

The information contained in these tables reflect acquisitions and dispositions of land and interests in land that were purchased with Migratory Bird Conservation Fund monies or acquired under the authority of the Migratory Bird Conservation Act. The tables also include other migratory bird areas such as those that were transferred to the Fish and Wildlife Service under the authority of the Transfer of Certain Real Property for Wildlife Conservation Purposes Act of 1948 (Pub. L. 80-537) to carry out a migratory bird management program.

Notes on Tables 1 and 2

In an ongoing effort to improve data quality, the Service has revised slightly the figures in Tables 1 and 2 from previous reports. For example, the Service may acquire a fee interest in lands in which it previously held a less-than-fee interest (lease or easement); accordingly, the number of lease or easement acres will decrease, and the number of fee acres will increase. The acreage appearing in the Approvals section of this report will not appear in Tables 1 or 2 until after the Service

expends the funds and acquires the tracts. Also, a newly approved refuge will not appear on Table 1 until the Service acquires the first tract(s).

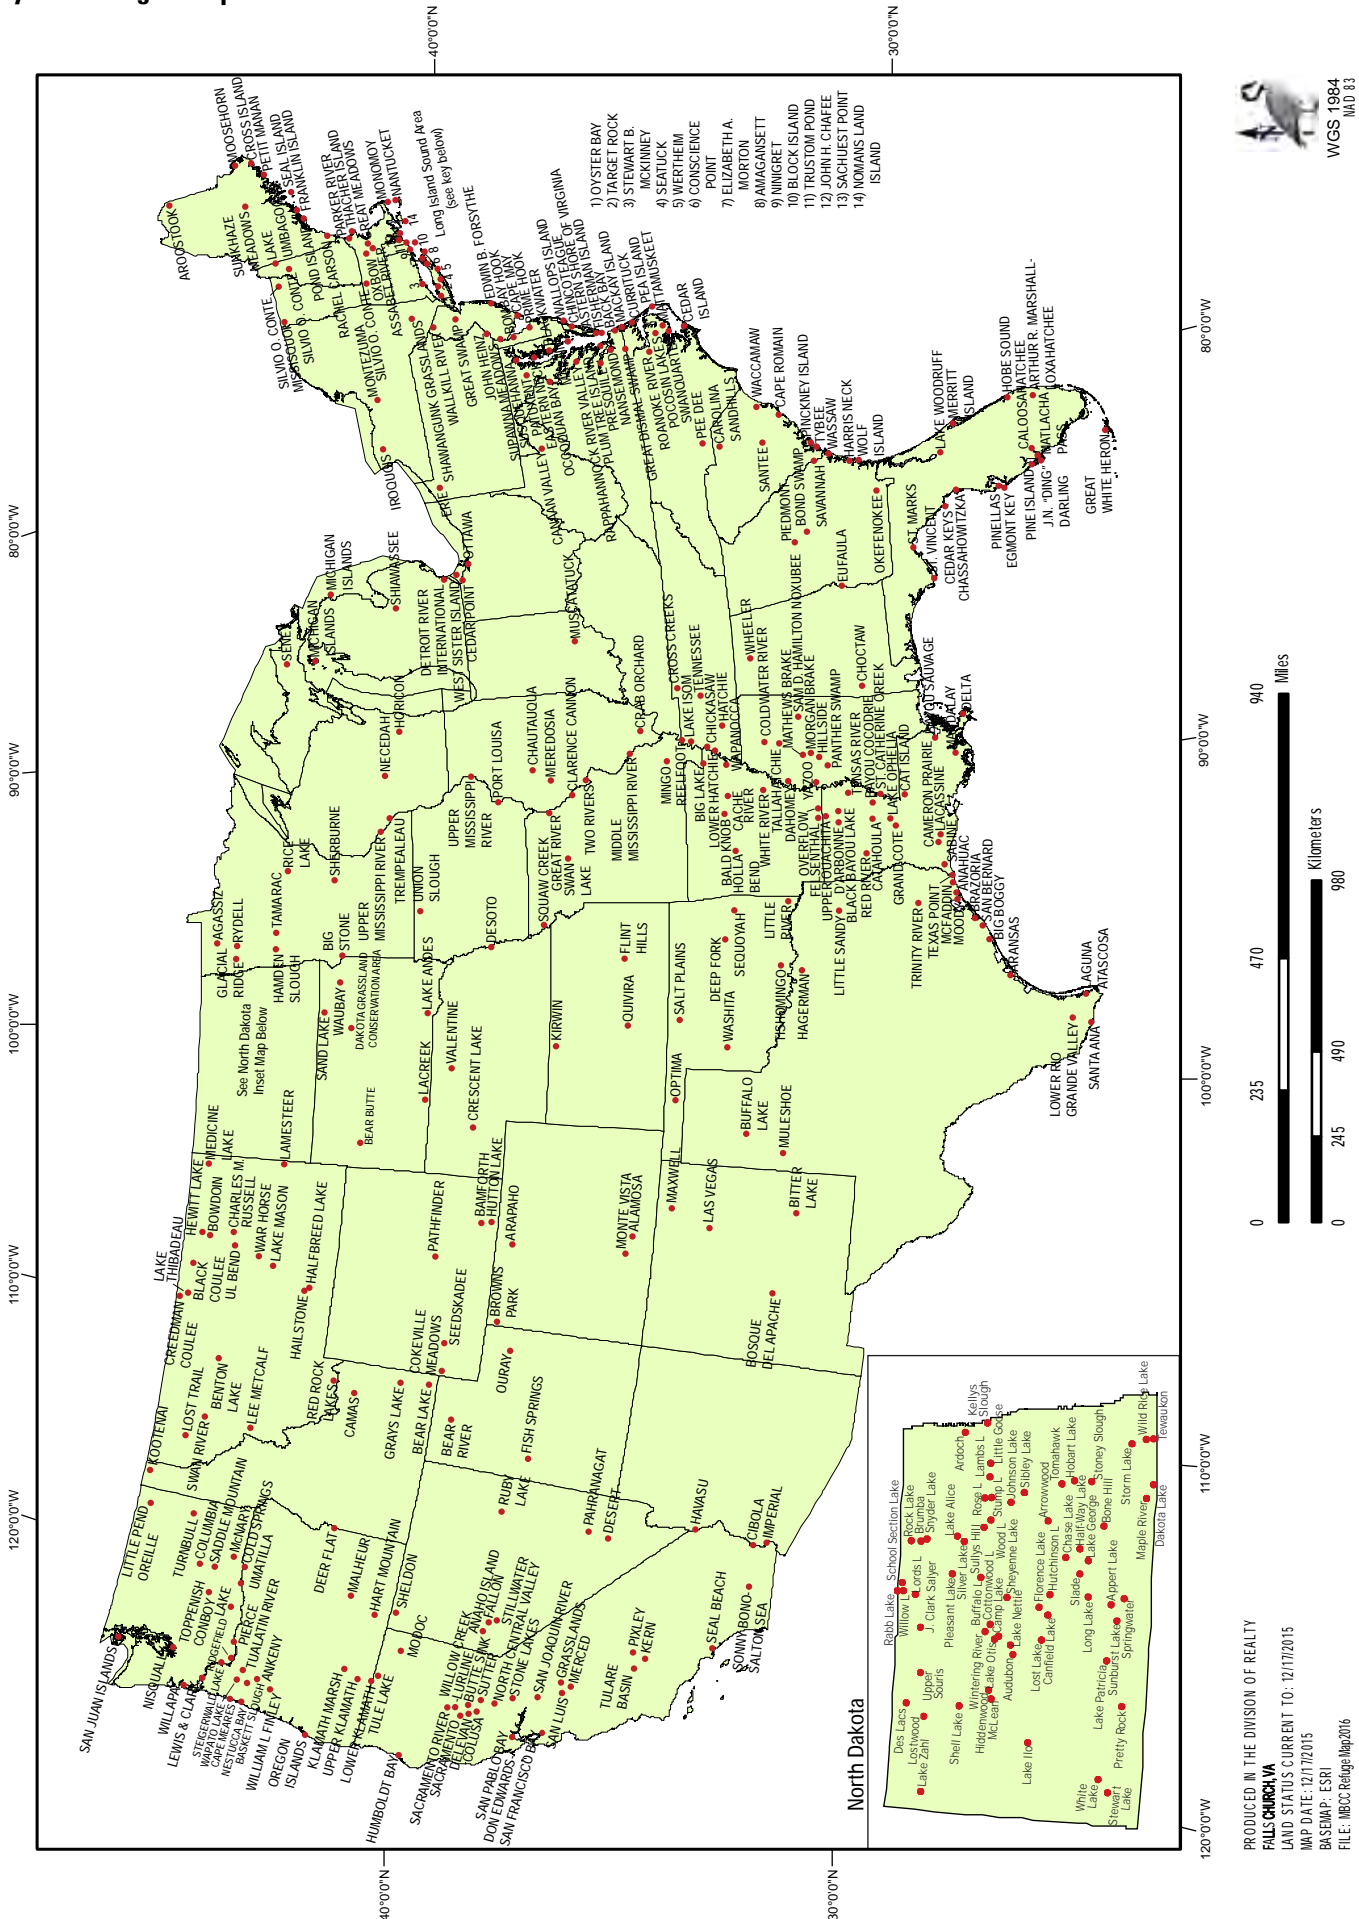

Refer to the Annual Report of Lands of the U.S. Fish and Wildlife Service for information on all lands and interests in land managed by the Service. This report is available from the U.S. Fish and Wildlife Service, Division of Realty at <www.fws.gov/refuges/realty>, or by calling 703/358-1713.

Negative numbers in the *Fiscal Year MBCF Acquisition* acreage totals reflect acres disposed through land-for-land exchanges, where the Service exchanged previously acquired refuge lands for other lands with superior wildlife habitat values. Exchanges also help to consolidate land holdings and improve land management efficiency.

FSA - Farm Service Agency (formerly Farmers Home Administration, Department of Agriculture)

Negative numbers in the *Fiscal Year MBCF Acquisition* acreage totals reflect acres disposed through land-for-land exchanges, where the Service exchanged previously acquired WPA lands for other lands with superior wildlife habitat values. Exchanges also help to consolidate land holdings and improve land management efficiency.

The National Wildlife Refuge System: Public Hunting and Fishing

The mission of the National Wildlife Refuge System is to administer a national network of lands and waters for the conservation, management, and, where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans. The Service acquires lands for the Refuge System primarily to conserve important wildlife habitat; however, the overwhelming majority of the Service's fee and lease acquisitions also provide opportunities for public wildlife-dependent recreation, such as hunting and fishing.

The Refuge System Improvement Act of 1997 (Improvement Act) amended the Refuge System Administration Act of 1966, making hunting and fishing, along with wildlife observation, photography, and environmental education and interpretation, priority public uses of the Refuge System. However, the Act also requires the Secretary of the Interior, before allowing a use such as hunting or fishing, to determine that the use is compatible with the purpose for which the refuge was established and the mission of the Refuge System. This requirement ensures that the Service maintains the biological integrity, diversity, and environmental health of the Refuge System.

In consultation with State fish and wildlife agencies, the Service develops specific management plans for a refuge prior to opening it to public hunting or fishing. In many cases, the Service develops refuge-specific regulations to ensure the compatibility of the plans with the purpose(s) for which the refuge was established and the Refuge System mission.

In addition to increasing the number of acres available for public use, land acquisitions often enhance public recreational access to existing Refuge System lands. Since the passage of the Improvement Act, the Service has opened 109 refuges to public hunting and/or fishing for the first time, and expanded hunting and fishing at 116 refuges. Expansions include adding new lands or waters, increasing the types of hunts, or increasing the kinds of species to be hunted on refuges previously open to hunting and/or fishing.

As of the end of fiscal year 2015, 336 national wildlife refuges were open for public hunting, including 85.5 million of these refuges' 89 million fee or lease acres. These refuges include 258 migratory bird refuges, in which 6.3 million of the 9.4 million fee or lease acres were open for public hunting. In waterfowl production areas, all 781,733 fee acres were open for public hunting.

As of the end of fiscal year 2015, 275 national wildlife refuges were open for public fishing. Specific acreages for public fishing are not available because States often own the lakebed, i.e., the land beneath the lake water, within refuge boundaries; public fishing is subject to State law and Federal regulations.

The Refuge System also includes nearly four million acres of conservation easements, where private landowners retain fee ownership, and, in most cases, control over public access. Many of these acres are enrolled in State programs that provide public hunting opportunities; however, the Service does not track which lands private landowners have enrolled in these programs.

	Units Open to Public Hunting and Fishing in FY 2015					Acres Open to Public Hunting			Total Refuge Acres as of FY 2015
	Fishing Authorized	Hunting Authorized	Migratory Bird Hunting	Upland Game Hunting	Big Game Hunting	Acres Open as of FY 2014	Change in FY 2015	Acres Open as of FY 2015	
Refuges	275	336	261	223	264	85,488,994	+44,299	85,533,293	146,188,767
WMDs	34	37	37	37	37	780,655	+1,078	781,733	3,830,980
Total	309	373	298	260	301	86,269,649	+45,377	86,316,026	150,019,747

Notes: Wetland Management Districts (WMDs) are complexes that manage waterfowl production areas. Total refuge acreage includes over 54 million submerged acres in refuges in marine national monuments, as well as 4 million easement acres where landowners retain fee ownership including control over public access. For a full breakout by refuge, download the FY 2015 Report, Status of Hunting and Fishing on NWRs Lands, from <http://www.fws.gov/refuges/realty/mbcc.html>.

In accordance with the Improvement Act and Federal regulations (50 CFR 32.1 and 50 CFR 32.4), the Service must publish a rule, pursuant to the Administrative Procedure Act (5 U.S.C. 553), to open national wildlife refuge lands to hunting and fishing. The Service must also publish a rule to close refuge lands to hunting and fishing once they have been opened to those uses. In contrast, fee title lands acquired as WPAs are immediately open to hunting of migratory game birds, upland game, and big game, as well as fishing, subject to State law and Federal regulations.

Openings for Fiscal Year 2015

On August 26, 2015, the Service published a rule in the *Federal Register* (80 FR 51877) that added one refuge to the list of national wildlife refuges open to public hunting, and added four refuges to the list of refuges open to public fishing.

Opened to Migratory Bird Hunting

- *Tualatin River National Wildlife Refuge (Oregon)*

Opened to Fishing

- *Ardoch National Wildlife Refuge (North Dakota)*
- *Lake Alice National Wildlife Refuge (North Dakota)*
- *Rose Lake National Wildlife Refuge (North Dakota)*
- *Silver Lake National Wildlife Refuge (North Dakota)*

Expansions for Fiscal Year 2015

The Service's August 26, 2015, rule expanded public hunting at 16 refuges, and expanded public fishing at one refuge (Patoka River NWR in Indiana).

Four of the expansions opened existing refuge lands to hunting for additional species, and the remaining 12 expansions opened additional lands to public hunting. In all, these expansions opened 44,249 more acres to public hunting, in addition to the 50 acres opened to public youth hunting at Tualatin River NWR. In waterfowl production areas, fee title acquisitions expanded the acres open to public hunting and fishing by 1,078 acres.

Table 3. National Wildlife Refuge Hunting Expansions

Unit	State(s)	Acres Opened to Hunting in 2015	Description
Bayou Cocodrie	Louisiana	14,200	Opened additional acres for upland game hunting and big game hunting, and added species for big game hunting.
Great River	Illinois, Missouri	380	Opened additional acres for upland game hunting and big game hunting.
Merritt Island	Florida	0	Existing lands opened to big game hunting. No change in acres.
Missisquoi	Vermont	457	Opened additional acres and added species for migratory bird hunting, upland game hunting, and big game hunting.
Mingo	Missouri	0	Added species for big game hunting. No change in acres.
Minnesota Valley	Minnesota	0	Added species for upland game hunting. No change in acres.
Northern Tallgrass Prairie	Iowa, Minnesota	849	Opened additional acres and added species for migratory bird hunting, upland game hunting, and big game hunting.
Patoka River	Indiana	1,334	Opened additional acres for migratory bird hunting, upland game hunting, big game hunting, and fishing.
Prime Hook	Delaware	1,495	Opened additional acres for migratory bird hunting, upland game hunting, and big game hunting, and added species for upland game hunting.
Sacramento River	California	814	Opened additional acres and added species for big game hunting.
St. Marks	Florida	20,414	Opened additional acres for migratory bird hunting and upland game hunting.
Seney	Michigan	400	Opened additional acres for migratory bird hunting, upland game hunting, and big game hunting.
Swan Lake	Missouri	1,361	Opened additional acres and added species for migratory bird hunting, upland game hunting, and big game hunting.
Two Rivers	Indiana	860	Opened additional acres for migratory bird hunting and big game hunting.
Wallkill River	New Jersey, New York	1,685	Opened refuge to upland game hunting, and opened additional acres and added species for big game hunting.
William L. Finley	Oregon	0	Added species for big game hunting. No change in acres.
Total		44,249

Lands Closed for Public Hunting and Fishing for Fiscal Year 2015

During fiscal year 2015, the Service did not close any lands or waters to public hunting or fishing that were already open to those uses.

Although no lands or waters were closed to public hunting or fishing, refuge managers have the authority to issue temporary closures, which may be for as little as one day and at most one season. Temporary closures may be necessary when unpredictable changes occur in wildlife populations, habitat conditions, or other factors affecting a refuge's wildlife resources. A refuge management action, conducted to meet a refuge-specific purpose, may also warrant a temporary closure. For example, for public safety reasons, a refuge manager may temporarily close an area of a refuge to public hunting and fishing to conduct a prescribed burn. Below is the regulation related to temporary closures:

50 CFR Part 32.1, Opening of wildlife refuge areas to hunting.

...Provided, that all forms of hunting or entry on all or any part of individual areas may be temporarily suspended by posting [with a sign] upon occasions of unusual or critical conditions of, or affecting land, water, vegetation, or wildlife populations.

There are several reasons why all or part of a refuge may not be open to public hunting or fishing. These reasons include, but are not limited to:

- The refuge is geographically inaccessible (e.g., Pacific island refuges).
- Hunting cannot be authorized due to public safety concerns (e.g., due to the proximity to development or a location within city limits where hunting is prohibited).
- The Service has limited conservation easement rights on the land; private landowners retain fee ownership and control public access.
- The refuge does not have potential hunting or fishing opportunities (e.g., Hobe Sound NWR in Florida is dedicated to sea turtle conservation and provides public fishing but no public hunting).
- The refuge is newly established, and the Service is still developing the public visitation plan. The refuge may be opened for public hunting and/or fishing once the Service completes the necessary planning.
- The refuge supports critically endangered or sensitive species that would be easily disturbed by visitation (e.g., Ozark Plateau NWR in Oklahoma is mostly a network of underground caves and tunnels for federally listed endangered and threatened Ozark cave species).
- The refuge is closed to the public for national security reasons (e.g., San Andres NWR in New Mexico is located within the boundary of the White Sands Missile Range).

Recreational Hunting

Hunter with his pointing English Springer Spaniel, Allie.

U.S. Fish and Wildlife Service Officer checking the license of a trapper.

Public hunting and fishing uses are evaluated on all land acquisitions for compatibility with refuge purposes, and, if found compatible, the lands are opened to those uses. Fee title lands acquired as waterfowl production areas are immediately open to hunting of migratory game birds, upland game, and big game, as well as fishing, subject to State law and Federal regulations.

The Service's most recent update to its hunting and fishing regulations,

published in the *Federal Register* on, and effective as of, August 26, 2015 (80 FR 51877), did not cover any fee title lands acquired during fiscal year 2015; it only covered lands acquired in prior fiscal years. Thus, the only fee lands acquired during fiscal year 2015 that were open to hunting and fishing as of September 30, 2015, were the 1,078 fee acres acquired as waterfowl production areas, including 835 acres in Minnesota, 82 acres in North Dakota, 160 acres in South Dakota, and 1.43 acres in Wisconsin.

Duck hunting at Izembek National Wildlife Refuge

North American Wetlands Conservation Act Grants: Summary of MBCC Approvals for Fiscal Year 2015

The Migratory Bird Conservation Commission approved 72 standard wetland conservation grant proposals recommended for funding in Fiscal Year 2015 by the North American Wetlands Conservation Council. A total of \$74,069,996 from the North American Wetlands Conservation Fund, together with \$139,897,067 in partner funds, support 48 standard grants in the United States, 12 in Canada, and 12 in Mexico. In addition, the Commission approved 45 United States small grant proposals, totaling \$3,012,348 from the Fund, supported by \$6,368,637 in total partner funds, affecting 38,848 acres. The following tables provide summary and detailed project information.

Fiscal Year 2015

NAWCA grants approved by the Migratory Bird Conservation Commission

<i>Country</i>	<i>Number of Proposals</i>	<i>Act Funds</i>	<i>Partner Funds</i>	<i>Acres Affected</i>
U.S.	48	\$49,684,980	\$112,518,948	210,714
Canada	12	\$21,649,183	\$21,649,183	47,530
Mexico	12	\$2,735,833	\$5,728,936	58,383
Standard Grants	72	\$74,069,996	\$139,897,067	316,627
