The Service's Legacy of Conserving Migratory Waterfowl Habitat

For more than 80 years, the Migratory Bird Conservation Program and the Federal Duck Stamp Program have helped secure key habitats to sustain migratory bird populations. These programs protect wetlands, which help dissipate storm water runoff, purify water supplies, and store flood water. As we look forward to the continuing conservation of these critical resources, we find inspiration in these programs' extraordinary history of success.

At the turn of the 20th century, overeager hunters and the commercial demand for meat and feathers had decimated waterfowl populations. At the same time, periodic droughts caused wetlands and other valuable waterfowl habitat to disappear. In the late 1920s, conservationists, hunters, and government officials worked together to create the Migratory Bird Conservation Act, which Congress passed in 1929. This landmark legislation authorized the Federal government to acquire and permanently protect wetlands for waterfowl. It also created the Migratory Bird Conservation Commission—composed of Federal and State officials—to consider and approve proposals for land acquisition to conserve migratory waterfowl habitat.

Although the Act gave the Federal Government authority to create migratory bird refuges, it did not provide a permanent source of acquisition funding. This problem was addressed in the 1930s when President Franklin D. Roosevelt appointed Jay N. “Ding” Darling, a nationally known wildlife conservationist and political cartoonist, to serve as the Chief of the Bureau of Biological Survey. Darling was instrumental in the creation of a stamp, to be purchased by all waterfowl hunters, that would generate funds to pay for the acquisition of waterfowl habitat. In 1934, Congress passed the Migratory Bird Hunting and Conservation Stamp Act, which requires all hunters 16 years of age or older to purchase and possess a Federal Duck Stamp while hunting waterfowl.

Revenues from Duck Stamp sales are deposited into the Migratory Bird Conservation Fund. The Fund also

includes import duties collected on arms and ammunition, and any appropriations from the Wetlands Loan Act, which Congress authorized in 1961 as an advance of funds against future revenues from the sale of Duck Stamps. The Fund is further supplemented by the proceeds from the sale of products and from rights-of-way granted across national wildlife refuges, disposals of refuge land, and reverted Federal Aid funds.

Since 1934, the Service has spent more than 1.5 billion Migratory Bird Conservation Fund dollars to permanently protect more than 5.9 million acres of important waterfowl habitat, including nearly 3.3 million acres of Waterfowl Production Areas (WPAs) in the U.S. Prairie Pothole Region. In 2018 alone, the Service used more than \$80 million from the Migratory Bird Conservation Fund to protect more than 11,000 acres of waterfowl habitat at migratory bird refuges and 60,000 acres in the Prairie Pothole Region, by fee or easement purchase.

Today, as in the past, the Migratory Bird Conservation Program and the Federal Duck Stamp Program depend on the support of people who understand and connect with our natural world—people who understand the importance of our wildlife resources and take action. What can you do? Buy a Federal Duck Stamp. Tell people how important Federal Duck Stamps are to ensuring healthy populations of all migratory birds and other wildlife. For more information, visit our Federal Duck Stamp Web site <www.fws.gov/duckstamps/> or our Division of Realty Web site <www.fws.gov/refuges/realty/>.

The Migratory Bird Conservation Commission

Section 2 of the Migratory Bird Conservation Act of 1929 established the Migratory Bird Conservation Commission. It reads as follows:

Section 2, as amended. A commission to be known as the Migratory Bird Conservation Commission, consisting of the Secretary of the Interior, as chairman, the Administrator of the Environmental Protection Agency, the Secretary of Agriculture, and two Members of the Senate, to be selected by the President of the Senate, and two Members of the House of Representatives to be selected by the Speaker, is created and authorized to consider and pass upon any area of land, water, or land and water that may be recommended by the Secretary of the Interior for purchase or rental under this subchapter, and to fix the price or prices at which such area may be purchased or rented; and no purchase or rental shall be made of any such area until it has been duly approved for purchase or rental by said commission. Any Member of the House of Representatives who is a member of the commission, if reelected to the succeeding Congress, may serve on the commission notwithstanding the expiration of a Congress. Any vacancy on the commission shall be filled in the same manner as the original appointment. The ranking officer of the branch or department of a State to which is

committed the administration of its game laws, or his authorized representative, and in a State having no such branch or department, the governor thereof, or his authorized representative, shall be a member ex officio of said commission for the purpose of considering and voting on all questions relating to the acquisition, under this subchapter, of areas in his State. For purposes of this subchapter, the purchase or rental of any area of land, water, or land and water includes the purchase or rental of any interest in any such area of land, water, or land and water.

Additional Responsibility: In 1989, the Commission acquired the additional responsibility of approving project funding under the North American Wetlands Conservation Act. This Act provides Federal funding to encourage partnerships to protect, enhance, restore, and manage wetlands and other habitats for migratory birds and other fish and wildlife. The North American Wetlands Conservation Council, which was created by the legislation, submits project recommendations to the Commission for funding approval.

The Migratory Bird Conservation Fund

The Migratory Bird Hunting and Conservation Stamp Act of March 18, 1934 (Duck Stamp Act), created the Migratory Bird Conservation Fund (MBCF) to provide the Department of the Interior with monies to acquire migratory bird habitat.

There are three major sources of funds deposited into the MBCF account. The most well-known source is the revenue received from the sale of Migratory Bird Hunting and Conservation Stamps, commonly known as Duck Stamps, as provided for under the Duck Stamp Act. The other two major sources include appropriations authorized by the Wetlands Loan Act of October 4, 1961, as amended, and import duties collected on arms and ammunition, as provided for under the Emergency Wetlands Resources Act of 1986. The MBCF is further supplemented by the proceeds from the sale of products and from rights-of-way granted across national wildlife refuges, disposals of refuge land, and reverted Federal Aid funds.

The MBCF finances two Fish and Wildlife Service land acquisition programs that are administered by the Division of Realty. The first program acquires waterfowl habitat in major migratory bird conservation areas under the authority of the Migratory Bird Conservation Act of 1929 (MBCA). The second program acquires small natural wetlands, grasslands, and interests in wetlands and grasslands, known as Waterfowl Production Areas (WPAs), under the authority of the Duck Stamp Act. WPAs are located primarily in the Prairie Pothole Region of the upper Midwest region of the United States.

In accordance with the Federal Duck Stamp Act of 2014 (Pub. L. 113-264), which amended the Duck Stamp Act, all amounts in excess of \$15 received from the sale of each Duck Stamp are deposited into a MBCF sub-account that can only be used for conservation easement acquisition. This Act also established reporting requirements for MBCF expenditures, and requires the Service to identify areas open and closed to hunting and fishing.

Fiscal year 2018 collections totaled \$95,559,572, including \$6,159,676 from fiscal year 2017 carryover and \$5,745,709 in returned fiscal year 2017 sequestration funding. Of the total, \$91,065,798 was available for obligation during fiscal year 2018, including \$82,995,772 from MBCF collections and \$8,070,026 in reverted Federal Aid Wildlife Restoration grant money. The remaining funds, deposited at the end of the fiscal year, will carry over for use in fiscal year 2019, along with other unobligated funds.

Fiscal year 2018 obligations for MBCF land acquisition totaled \$89,974,574. Obligations included \$18,434,592 to acquire fee lands, leases, and easements for migratory bird refuges, and \$69,956,393 to acquire fee lands, leases, and easements for WPAs. Printing expenses for the Federal Duck Stamp and other overhead costs make up the remaining \$1,583,590. The unobligated balance of \$5,584,998, along with \$5,341,065 in returned sequestered fiscal year 2018 funding, will be available for obligation during fiscal year 2019.

Migratory Bird Conservation Act: MBCC Approvals for Fiscal Year 2018

The Migratory Bird Conservation Commission approved 8 Migratory Bird Conservation Act proposals recommended for funding by the Secretary of the Interior in fiscal year 2018. Commission approvals included boundary addition approvals totaling 2,464 acres, and price approvals or re-approvals to purchase or lease a total of 11,431 acres for \$22,931,014. All land acquisitions were approved in writing by a Governor or the appropriate State agency in the State where the land is located.

Migratory Bird Conservation Act: New Area Boundary and Boundary Addition Approvals for Fiscal Year 2018

New Area Boundary Approval

Bayou Teche National Wildlife Refuge

St. Mary Parish, Louisiana

Boundary Addition Approvals

Erie National Wildlife Refuge

Crawford County, Pennsylvania

San Bernard National Wildlife Refuge

Brazoria County, Texas

BLUE-WINGED
TEAL

Bayou Teche National Wildlife Refuge

St. Mary Parish, Louisiana

On September 5, 2018, the Migratory Bird Conservation Commission approved a new 1,912-acre acquisition area within the Bayou Teche National Wildlife Refuge boundary, and granted price approval for the fee title acquisition of 1,912 acres.

The 9,074-acre Bayou Teche NWR is composed of bottomland hardwood forests laced with bayous and canals. The diversity and quality of habitats on the Refuge provide areas for feeding, roosting, nesting, and staging by migratory waterfowl, including three species of resident waterfowl (wood duck,

mottled duck, and black-bellied whistling duck), shorebirds, wading birds, and neotropical songbirds. The Refuge is open to the public year-round from sunrise to sunset, and can be accessed by vehicle, foot, or boat.

The 1,912 acres approved for acquisition consist of bottomland hardwood forest, riparian habitat, a section of Bayou Teche, and sugarcane cropland. The cropland portions of the property are low-lying and suitable for restoration to bottomland hardwood forest, which would benefit mallards, gadwalls, green-winged teal, and wood ducks. Much of

the property also has public road access that will improve access to adjacent refuge lands.

The Service will manage the acquisitions to protect the riparian and riverine habitats on the Bayou Teche, and work with conservation partners to restore bottomland hardwood forest on the property. Refuge management goals for the property include improving wintering waterfowl habitat and wood duck production, as well as providing public opportunities for hunting, fishing, and other wildlife-dependent recreation.

Erie National Wildlife Refuge

Crawford County, Pennsylvania

On September 5, 2018, the Migratory Bird Conservation Commission granted boundary approval for 51 acres at the Erie National Wildlife Refuge, and price approval for the fee title acquisition of 144 acres.

Erie NWR's proximity to Lake Erie makes this area in Pennsylvania a regional hot spot for bird migration. Refuge marshes and forested wetlands provide wintering and migration habitat for American black ducks, Canada geese, common goldeneyes, lesser scaup, and northern pintails, and nesting habitat for American black ducks and wood ducks.

The 144 acres approved for acquisition are the last major inholdings in the Refuge's Seneca Division, which is adjacent to State land managed by the Pennsylvania Game Commission. The property consists of freshwater forested and shrub wetland habitats, with some emergent wetlands, grasslands, and open water habitats. Acquisition will enhance public recreational access by adding 2.1 miles of road frontage.

The tracts also contain four miles of frontage on Muddy and Dead Creeks, and acquisition will enable the Service to expand public waterfowl hunting and fishing opportunities.

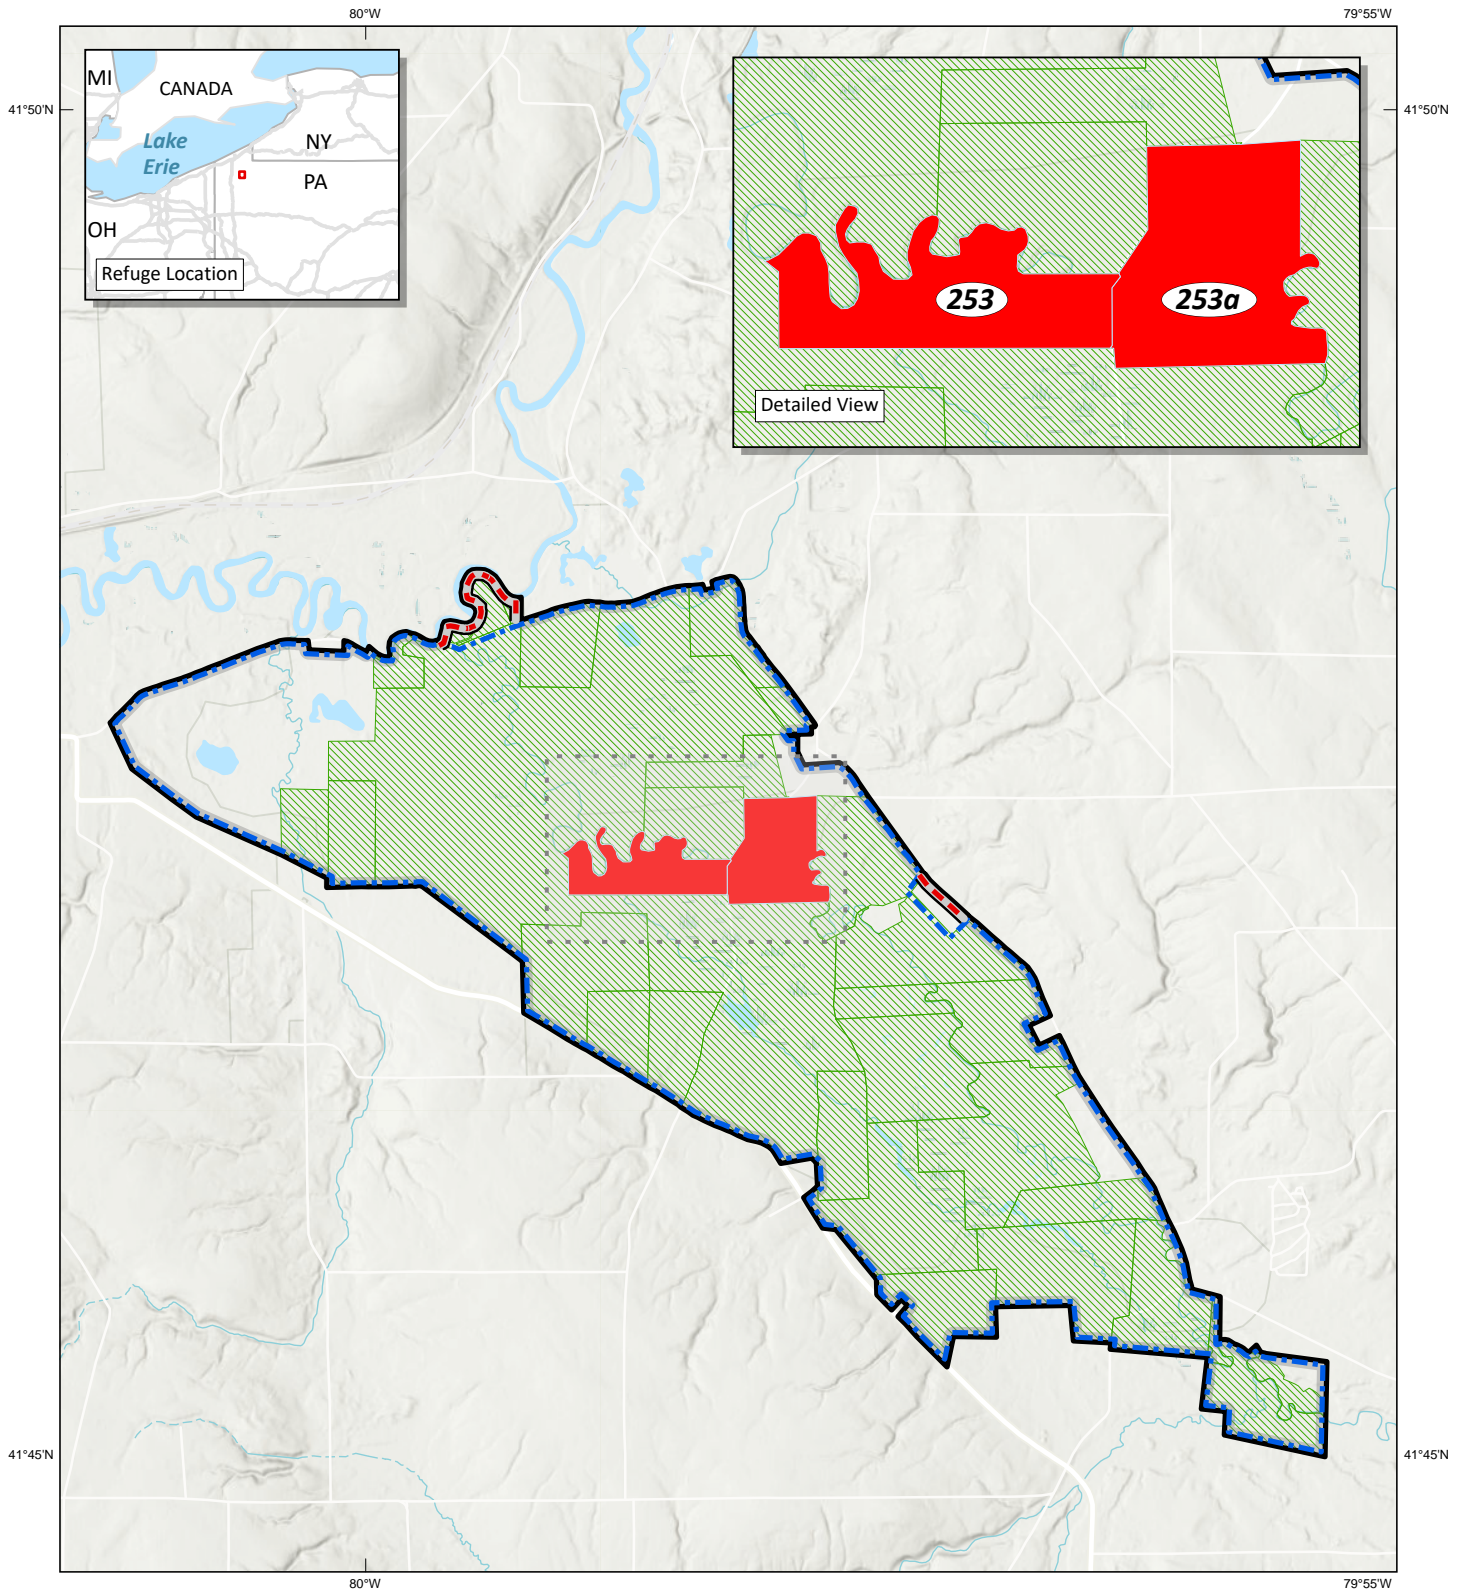

The Service will manage most of the 144 acres for compatible, wildlife-dependent recreational activities such as public hunting, wildlife observation, and environmental education.

San Bernard National Wildlife Refuge

Brazoria County, Texas

On September 5, 2018, the Migratory Bird Conservation Commission granted boundary and price approval for the fee title acquisition of 501 acres at the Austin's Woods Unit of the San Bernard National Wildlife Refuge.

The Austin's Woods Unit is located 50 miles south of Houston, Texas. It is a productive and valuable wetland complex that provides habitat for migrating, wintering, and resident waterfowl, wading birds, and other wetland-dependent wildlife species. Thousands of waterfowl winter in the area, including mottled ducks, mallards, northern pintails, gadwall, widgeon, northern shovelers, blue- and green-winged teal,

black-bellied whistling ducks, and ruddy ducks.

The 501 acres approved for acquisition consist of low-lying wetland and salty prairie habitat, and are part of the Cedar Lake and Cow Trap Lake marshes that provide wintering habitat for various waterfowl, waterbirds, raptors, and terns, and nesting habitat for blue-winged teal, mottled ducks, willets, and snow geese.

Adjacent to the Cedar Lakes Public Waterfowl Hunting Area and accessible by boat, the acquisition enhances public recreational access and simplifies Service management of the adjacent habitat.

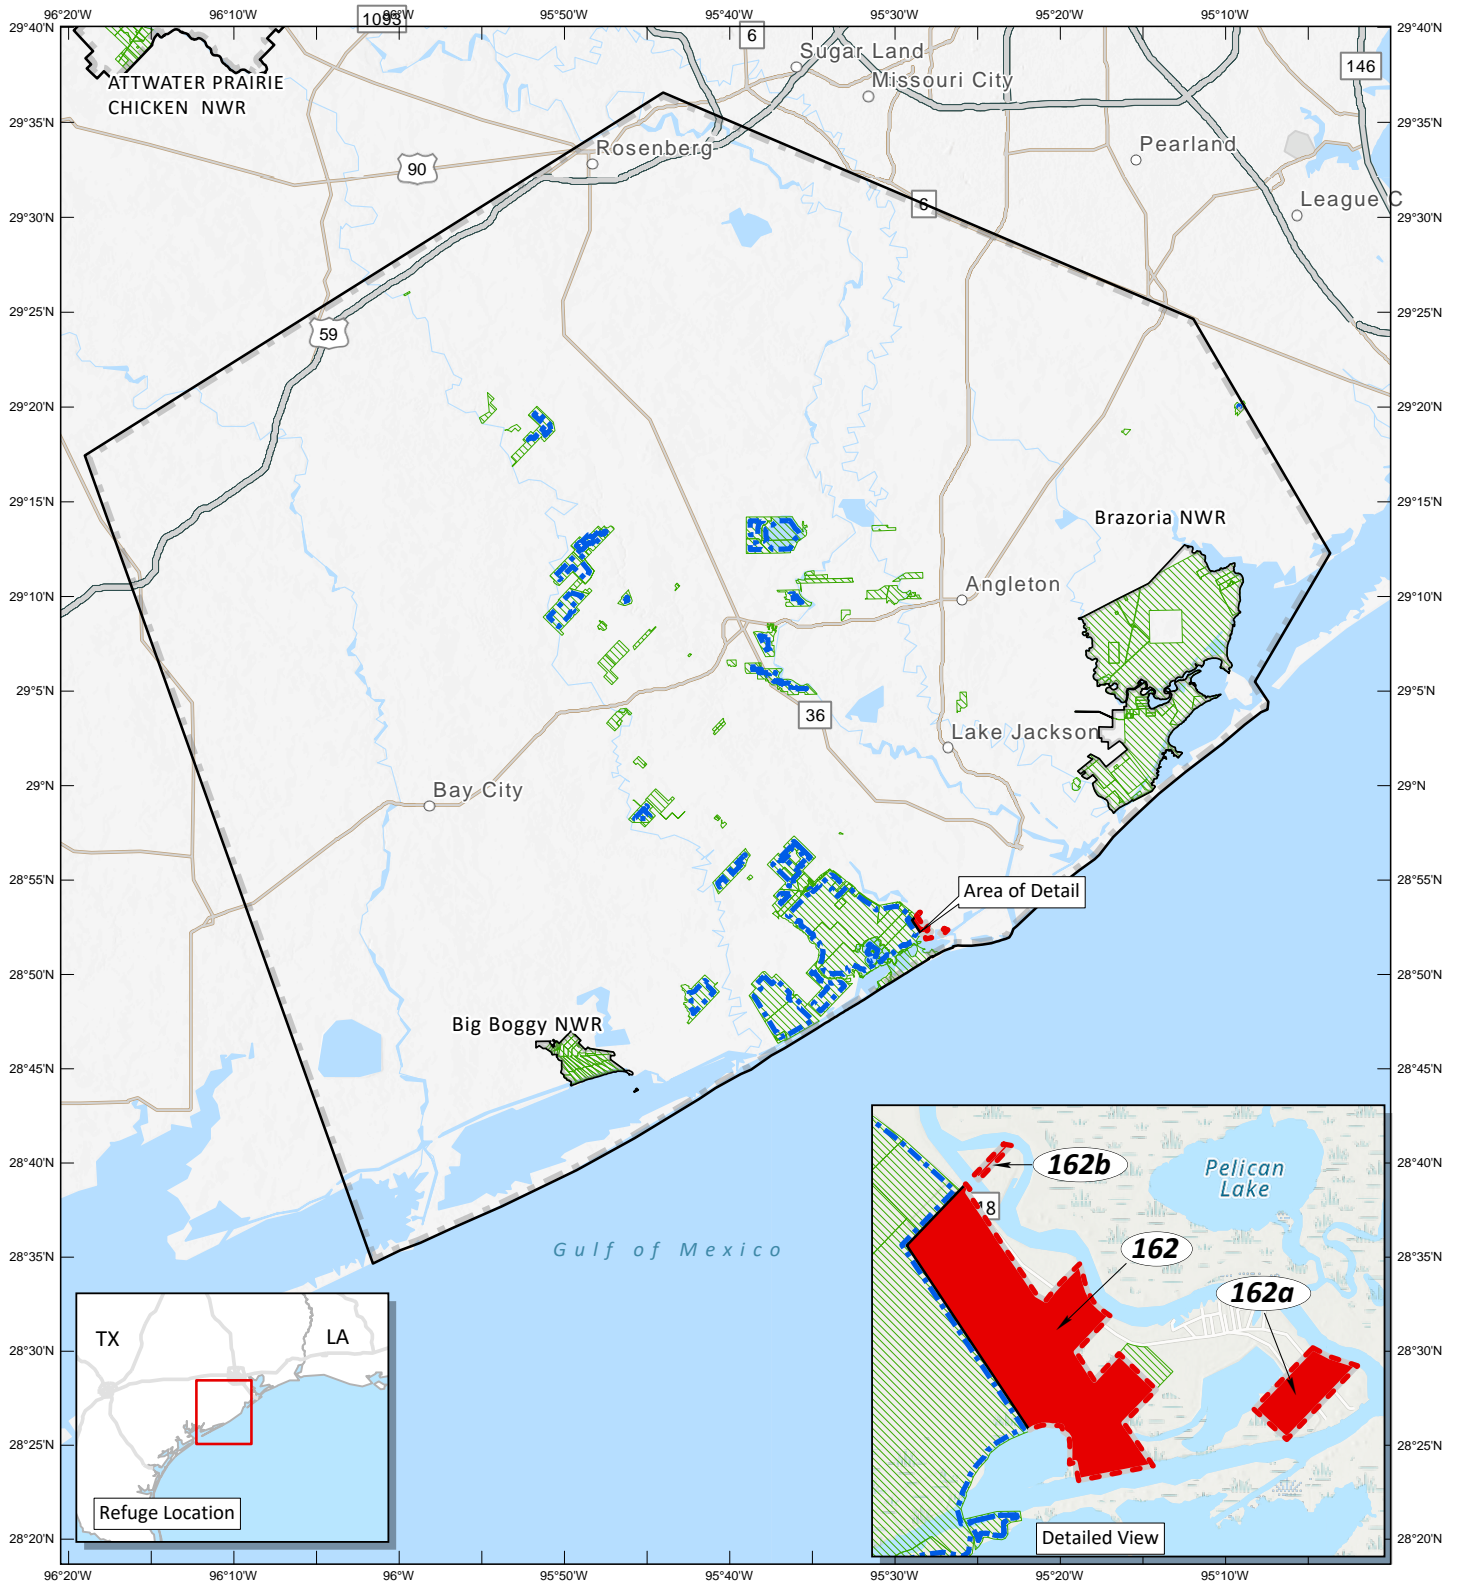

The Service will manage the acquisition as habitat for waterfowl, wading birds, neo-tropical migrants, and other wildlife. The Service will add the property to the Cedar Lakes Public Waterfowl Hunting Area, and offer compatible public uses such as hunting, fishing, wildlife observation, and environmental education and interpretation.

Status of Wetlands Conservation Projects for Migratory Bird Conservation

The information contained in these tables reflect acquisitions and dispositions of land and interests in land that were purchased with Migratory Bird Conservation Fund monies or acquired under the authority of the Migratory Bird Conservation Act. The tables also include other migratory bird areas such as those that were transferred to the Fish and Wildlife Service under the authority of the Transfer of Certain Real Property for Wildlife Conservation Purposes Act of 1948 (Pub. L. 80-537) to carry out a migratory bird management program.

Notes on Tables 1 and 2

In an ongoing effort to improve data quality, the Service has revised slightly the figures in Tables 1 and 2 from previous reports. For example, the Service may acquire a fee interest in lands in which it previously held a less-than-fee interest (lease or easement); accordingly, the number of lease or easement acres will decrease, and the number of fee acres will increase. The acreage appearing in the Approvals section of this report will not appear in Tables 1 or 2 until after the Service

expends the funds and acquires the tracts. Also, a newly approved refuge will not appear on Table 1 until the Service acquires the first tract(s).

Refer to the Annual Report of Lands of the U.S. Fish and Wildlife Service for information on all lands and interests in land managed by the Service. This report is available from the U.S. Fish and Wildlife Service, Division of Realty at <www.fws.gov/refuges/realty>, or by calling 703/358-1713.

Negative numbers in the *Fiscal Year MBCF Acquisition* acreage totals reflect acres disposed through land-for-land exchanges, where the Service exchanged previously acquired refuge lands for other lands with superior wildlife habitat values. Exchanges also help to consolidate land holdings and improve land management efficiency.

Wetland Management Districts Map

Wetland Management Districts (WMDs) consist of counties where the U.S. Fish & Wildlife Service has the authority to acquire small wetland and pothole areas, and interests therein, as Waterfowl Production Areas (WPAs). Counties shown with a color fill contain WPA acquisitions.

FSA - Farm Service Agency (formerly Farmers Home Administration, Department of Agriculture)

Negative numbers in the *Fiscal Year MBCF Acquisition* acreage totals reflect acres disposed through land-for-land exchanges, where the Service exchanged previously acquired WPA lands for other lands with superior wildlife habitat values. Exchanges also help to consolidate land holdings and improve land management efficiency.

The National Wildlife Refuge System: Public Hunting and Fishing

The mission of the National Wildlife Refuge System is to administer a national network of lands and waters for the conservation, management, and, where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans. The Service acquires lands for the Refuge System primarily to conserve important wildlife habitat; however, the overwhelming majority of the Service's fee and lease acquisitions also provide opportunities for public wildlife-dependent recreation, such as hunting and fishing.

The National Wildlife Refuge System Improvement Act of 1997 (Improvement Act) amended the National Wildlife Refuge System Administration Act of 1966, making hunting and fishing, along with wildlife observation, photography, and environmental education and interpretation, priority public uses of the Refuge System. However, the Act also requires the Secretary of the Interior, before allowing a use such as hunting or fishing, to determine that the use is compatible with the purpose(s) for which the refuge was established and the mission of the Refuge System. This requirement ensures that the Service maintains the biological integrity, diversity, and environmental health of the Refuge System.

In consultation with State fish and wildlife agencies, the Service develops specific management plans for a refuge prior to opening it to public hunting or fishing. In many cases, the Service develops refuge-specific regulations to ensure the compatibility of the plans with the purpose(s) for which the refuge was established and the Refuge System mission.

In addition to increasing the number of acres available for public use, land acquisitions often enhance public recreational access to existing Refuge System lands. Since the passage of the Improvement Act, the Service has opened over 100 refuges to public hunting and/or fishing for the first time, and expanded hunting and fishing on nearly 100 additional refuges. Expansions include adding new lands or waters, increasing the types of hunts, or increasing the kinds of species to be hunted on refuges previously open to hunting and/or fishing.

During the 2018-2019 hunting season, 340 national wildlife refuges were open to public hunting, and fee title waterfowl production areas in 36 wetland management districts were open to public hunting, subject to State law and Federal regulations (50 CFR 32). Nearly all of the 77 million acres in Alaska national wildlife refuges were open to public hunting. In refuges and

waterfowl production areas in the lower 48 States, the Service has management responsibility for 13.5 million fee acres, and 9.8 million acres were open to public hunting. The 13.5 million acres includes 1.5 million fee acres of refuge overlays on other agency lands, where another agency has a say over public access. For example, the Minidoka NWR in Idaho includes a 17,785-acre overlay on a Bureau of Reclamation water reservoir, and the Service worked with the Bureau of Reclamation to open the area to public fishing.

During the 2018-2019 fishing season, 278 national wildlife refuges were open to public fishing, and fee title waterfowl production areas in 33 wetland management districts were open to public fishing. Also, many refuges provide fishing access to public waters that are not a part of the refuge (e.g., lakes, rivers, or coastal waters under state jurisdiction).

The Refuge System also includes 4.3 million acres of conservation easements, where private landowners retain fee ownership, and, in most cases, control over public access. Many of these acres are enrolled in State programs that provide public hunting opportunities; however, the Service does not track which lands private landowners have enrolled in these programs.

	Units Open to Public Hunting and Fishing					Acres Open to Public Hunting			Total Refuge System Acres as of FY 2018 ²

WMDs ¹	33	36	36	36	36	787,135	+2,527	789,662	4,076,799
Total	311	376	302	270	315	86,443,011	+13,247	86,456,258	150,583,849

¹ Wetland Management Districts (WMDs) are complexes that manage waterfowl production areas. All Service fee title waterfowl production areas are open to public hunting of migratory game birds, upland game, and big game, as well as fishing, subject to State law and Federal regulations.

² Total Refuge System acreage includes over 54 million submerged acres in refuges in marine national monuments, as well as 4.3 million easement acres. For a breakout of hunting acres by refuge, download the Report, Status of Hunting and Fishing on NWRs Lands, from <http://www.fws.gov/refuges/realty/mbcc.html>.

In accordance with the Improvement Act and Federal regulations (50 CFR 32.1 and 50 CFR 32.4), the Service must publish a rule, pursuant to the Administrative Procedure Act (5 U.S.C. 553), to open national wildlife refuge lands to hunting and fishing, except that the Alaska National Interest Lands Conservation Act exempts refuge lands in Alaska from this requirement. Fee title lands acquired for refuges in Alaska, as well as fee title lands acquired as WPAs, are immediately open to hunting of migratory game birds, upland game, and big game, as well as fishing, subject to State law and Federal regulations. Once refuge and WPA lands are open to hunting and/or fishing, the Service must publish a rule to close those lands to those uses.

*Openings for the 2018-2019 Hunting/
Fishing Season*

On September 10, 2018, the Service published a rule in the *Federal Register* (83 FR 45758) that added three refuges to the list of national wildlife refuges open to public hunting and one refuge to the list of refuges open to public fishing.

Opened to Hunting

- Cedar Point National Wildlife Refuge (Ohio)
- Hackmatack National Wildlife Refuge (Illinois and Wisconsin)
- John Heinz National Wildlife Refuge (Pennsylvania)

Opened to Fishing

- San Pablo Bay National Wildlife Refuge (California)

*Expansions for the 2018-2019 Hunting/
Fishing Season*

The Service's September 10, 2018, rule expanded public hunting in 26 refuges and expanded public fishing in four refuges (including San Pablo Bay NWR) in the lower 48 states. These expansions opened 9,639 acres to public hunting for the first time, and expanded public hunting opportunities on a total of 251,000 acres. The rule also removed approximately 1,400 regulations from 50 CFR part 32 and simplified 710 regulations in 50 CFR part 32 as part of ongoing Service efforts to increase access for American sportsmen and women, and align Service hunting and fishing regulations with State regulations. Regulations removed were redundant to existing State or Federal regulations or overly burdensome to the public.

In addition, in Alaska national wildlife refuges, the Service added and opened 1,081 acres to public hunting of migratory game birds, upland game, and big game, as well as fishing, for the first time, bringing the total refuge acres added for hunting to 143,269 acres.

In waterfowl production areas, which are managed by the Service's 38 wetland management districts, the Service added and opened 2,527 acres to hunting of migratory game birds, upland game, and big game, as well as fishing, subject to State law and Federal regulations.

*Children fishing with their father at
Kenai National Wildlife Refuge.*

Table 3. Refuge Hunting and Fishing Expansions – Lower 48 States

Refuge	State(s)	Total Acres Opened to New Hunts	Acres Opened to Hunting for the First Time	Acres Opened to Fishing for the First Time	Description
Blackwater	Maryland		2,572		Increased the acreage available for migratory game bird and big game hunting.
Cedar Point	Ohio	1,200	1,200		Opened the refuge to big game hunting for the first time.
Cherry Valley	Pennsylvania		1,846		Increased the acreage available for migratory game bird, upland game, and big game hunting.
Cold Springs	Oregon	2,008	2,008		Opened the refuge to big game hunting for the first time.
Hackmatack	Illinois, Wisconsin	117	117		Opened the refuge to migratory game bird, upland game, and big game hunting for the first time.
John Heinz NWR at Tinicum	Pennsylvania	170	170		Opened the refuge to big game hunting for the first time.
San Pablo Bay	California		1,726	1,726	Increased the acreage available for migratory game bird hunting and opened sport fishing for the first time.
Total		3,495	9,639	1,726	

Table 4. Refuge Hunting and Fishing Expansions - Alaska

Refuge	State	Acres Opened to Hunting for the First Time	Acres Opened to Fishing for the First Time	Description
Kenai	Alaska	5	5	Added acres for fishing, migratory bird hunting, upland game hunting, and big game hunting.
Kodiak	Alaska	160	160	“
Selawik	Alaska	720	720	“
Yukon Delta	Alaska	196	196	“
Total		1,081	1,081	

Note: Acreage totals do not count the same acres multiple times. For example, if the Service opened a single 80-acre property to migratory bird hunting, upland game hunting, and big game hunting, the totals would reflect 80 acres and not 240 acres.

Table 5. Waterfowl Production Area Hunting and Fishing Expansions

Total			2,527	2,527	

Lands Closed for Public Hunting and Fishing for 2018 - 2019

The Service's September 10, 2018, rule for the 2018-2019 hunting and fishing season did not close any lands or waters to public hunting or fishing that were already open to those uses.

Although the Service did not close lands or waters to public hunting or fishing for the 2018-2019 season, refuge managers have the authority to issue temporary closures, which may be for as little as one day and at most one season. Temporary closures may be necessary when unpredictable changes occur in wildlife populations, habitat conditions, or other factors affecting a refuge's wildlife resources. A refuge management action, conducted to meet a refuge-specific purpose, may also warrant a temporary closure. For example, for public safety reasons, a refuge manager may temporarily close an area of a refuge to public hunting and fishing to conduct a prescribed burn. Below is the regulation related to temporary closures:

50 CFR Part 32.1, Opening of wildlife refuge areas to hunting.

...Provided, that all forms of hunting or entry on all or any part of individual areas may be temporarily suspended by posting [with a sign] upon occasions of unusual or critical conditions of, or affecting land, water, vegetation, or wildlife populations.

There are several reasons why all or part of a refuge may not be open to public hunting or fishing. These reasons include, but are not limited to:

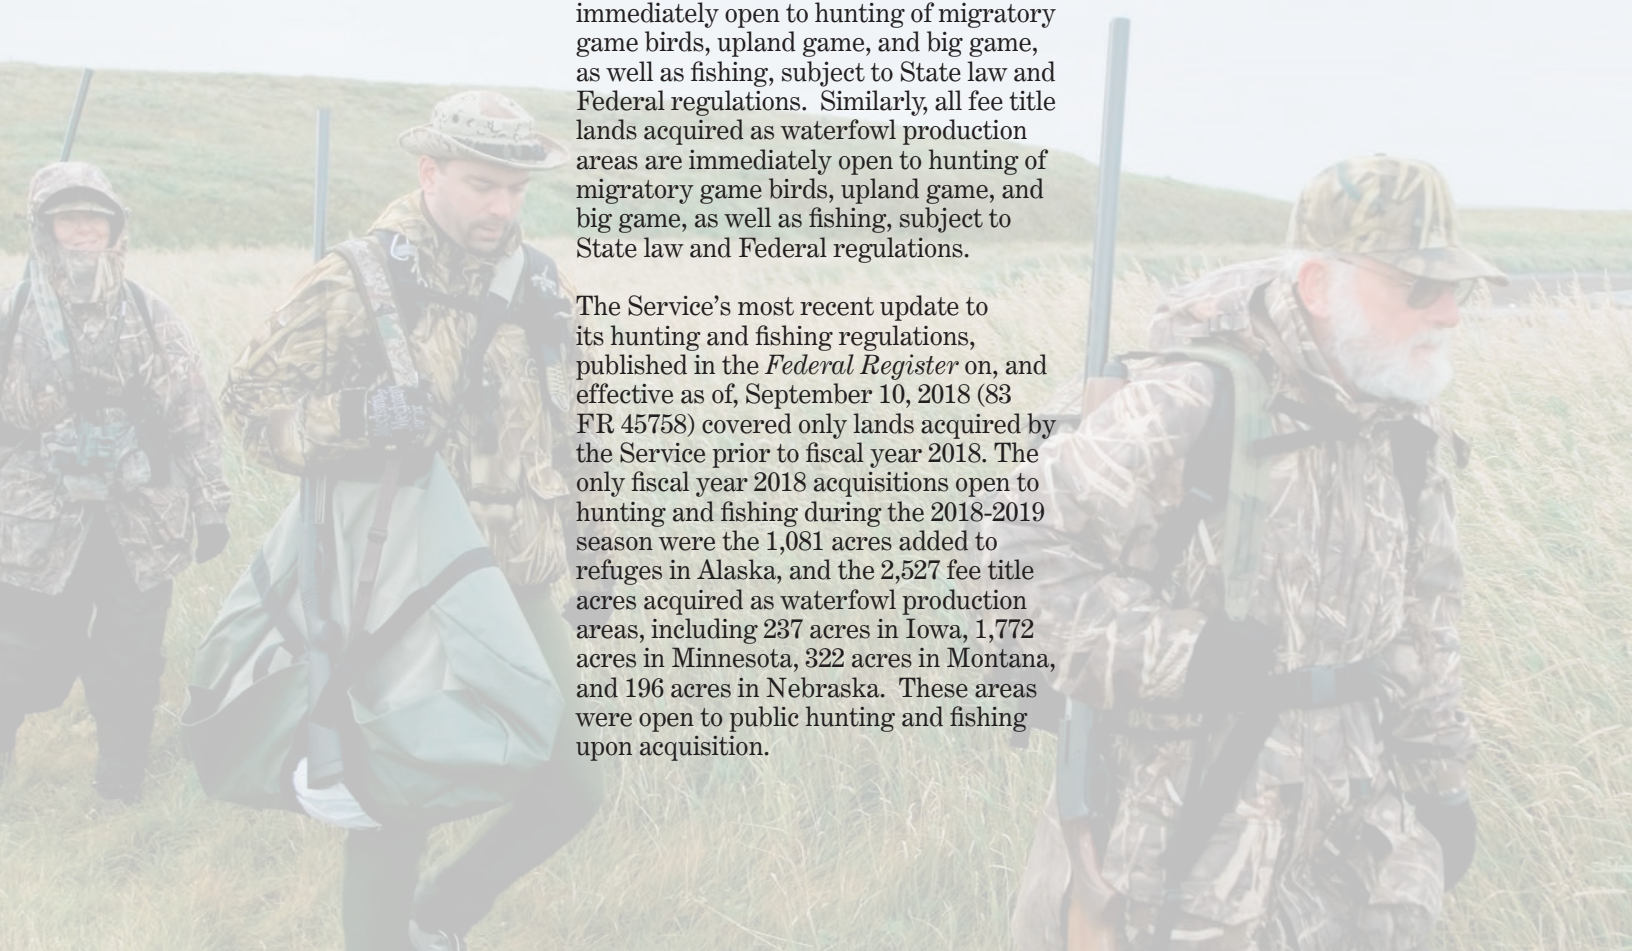

- The refuge is geographically inaccessible (e.g., Pacific island refuges).
- Hunting cannot be authorized due to public safety concerns (e.g., due to the proximity to development or a location within city limits where hunting is prohibited).

- The Service has limited conservation easement rights on the land; private landowners retain fee ownership and control public access.
- The refuge does not have potential hunting or fishing opportunities (e.g., Hobe Sound NWR in Florida is dedicated to sea turtle conservation and provides public fishing but no public hunting).
- The refuge is newly established, and the Service is still developing the public visitation plan. The refuge may be opened for public hunting and/or fishing once the Service completes the necessary planning.
- The refuge supports critically endangered or sensitive species that would be easily disturbed by visitation (e.g., Attwater Prairie Chicken NWR in Texas is home to one of the last populations of the critically endangered Attwater's prairie-chicken, a ground-dwelling grouse of the coastal Texas prairie ecosystem).
- The refuge is closed to the public for national security reasons (e.g., San Andres NWR in New Mexico is located within the boundary of the White Sands Missile Range and closed to general public access; however, the Service has coordinated with the State of New Mexico and the Department of Defense at the White Sands Missile Range to allow escorted hunting on the refuge).

Status of Public Hunting and Fishing on Lands Acquired in Fiscal Year 2018

Hunting and fishing uses are evaluated on all refuge land acquisitions outside of Alaska for compatibility with refuge purposes, and, if found compatible, the lands are opened to those uses. In Alaska, all refuge land acquisitions are immediately open to hunting of migratory game birds, upland game, and big game, as well as fishing, subject to State law and Federal regulations. Similarly, all fee title lands acquired as waterfowl production areas are immediately open to hunting of migratory game birds, upland game, and big game, as well as fishing, subject to State law and Federal regulations.

The Service's most recent update to its hunting and fishing regulations, published in the *Federal Register* on, and effective as of, September 10, 2018 (83 FR 45758) covered only lands acquired by the Service prior to fiscal year 2018. The only fiscal year 2018 acquisitions open to hunting and fishing during the 2018-2019 season were the 1,081 acres added to refuges in Alaska, and the 2,527 fee title acres acquired as waterfowl production areas, including 237 acres in Iowa, 1,772 acres in Minnesota, 322 acres in Montana, and 196 acres in Nebraska. These areas were open to public hunting and fishing upon acquisition.

Numerous waterfowl take flight from Chincoteague National Wildlife Refuge.

Labrador retriever with drake mallard.

North American Wetlands Conservation Act Grants: Summary of MBCC Approvals for Fiscal Year 2018

The Migratory Bird Conservation Commission approved 64 standard wetland conservation grant proposals recommended by the North American Wetlands Conservation Council for funding in Fiscal Year 2018. The approval provides \$72,555,145 from the North American Wetlands Conservation Fund, supported by \$140,354,411 in partner funds, for 47 standard grants in the United States, 9 in Canada, and 8 in Mexico. In addition, the Commission approved 37 United States small grant proposals, providing \$3,424,722 from the Fund, supported by \$12,508,368 in partner funds. The following tables provide summary and detailed project information.

Fiscal Year 2018

NAWCA grants approved by the Migratory Bird Conservation Commission

<i>Country</i>	<i>Number of Proposals</i>	<i>NAWCA Funds</i>	<i>Partner Contribution</i>	<i>Acres Affected</i>
U.S.	47	\$46,578,142	\$112,066,502	271,413
Canada	9	\$23,247,456	\$23,247,456	36,213
Mexico	8	\$2,729,547	\$5,040,453	192,228
Standard Grants	64	\$72,555,145	\$140,354,411	499,853
U.S. Small Grants	37	\$3,424,722	\$12,508,368	21,121
