The American Community Survey (ACS) is the largest household survey in the United States and provides the most up-to-date social, economic, housing and demographic data for communities in the U.S.

The area to the left displays the many subjects produced from the ACS data collection. Data for the subjects are shown in a variety of ways and inside you will find descriptions of the ACS data products available through AFF.

Similar information is also available for Puerto Rico through the Puerto Rico Community Survey (PRCS).

Inside American FactFinder (AFF)

AFF-QUICK AND EASY

Go to www.factfinder.census.gov, under "Fast Access to Information", and simply type in your city/town or county to access a fact sheet of demographic, social, economic, and housing characteristics. The fact sheet shows you the latest ACS multiyear data available for your area.

If ACS data are not available for your city or county (because the population is below 20,000) AFF will automatically display Census 2000 data. Additional tables and maps are available in the people and housing sections.
