1.0 GENERAL INFORMATION

1.0 GENERAL INFORMATION

1.1 System Overview

The Voucher Management System (VMS) supports the information management needs of the Housing Choice Voucher Program (HCVP) and management functions performed by the Financial Management Division (FMD) and the Financial Management Center (FMC) of Public and Indian Housing and the Real Estate Management Center (PIH-REAC). This system's primary purpose is to monitor and manage Public Housing Agency (PHA) use of vouchers. VMS collects PHA data that enables HUD to fund, obligate, and disburse funding in a timely manner based on actual PHA use.

The web-based VMS application facilitates electronic submission of monthly program data by the PHAs which in turn, makes the data accessible to users in PIH-REAC, FMD, FMC, Field Offices (FO), and Headquarters (HQ). Currently, users can generate and print or download PHA monthly reports, but PIH personnel perform all budgeting and funding activities manually. The long-term goal of the VMS project is to integrate budgeting and funding activities into the VMS application and automate the currently manual tasks. Automation will be accomplished by implementing electronic entry of all relevant data, automatic data calculations, complex report generation, and automated business workflows including an online approval process.

1.3 Organization of the Manual

This manual has been organized to familiarize the reader with the Voucher Management System. It introduces each step in the use of VMS for the user. It is organized logically from Registration, Login/Logoff procedures, Navigating to the desired screens, PHA entry, validation and submission of HCV Voucher related data, Correction of prior month submissions, (HUD User) review and approval of pending Hard Edits, Generating reports and prints. For a summary outline of this organization, review the Table of Contents.

Note: Some of the screen prints in this manual are quite detailed. In order to better see the "fine print" you can expand the size of the page using the Zoom controls located on the top bar of the display.

1.4 Contingencies and Alternate Modes of Operation

Because of the nature of its operation, VMS has no need for contingencies or alternate modes of operation from the user's point of view. Any interruption in power or connection simply requires that the user begin an operation over again.

RULES OF BEHAVIOR FOR HUD SYSTEMS

The U.S. Department of Housing and Urban Development has granted access to you to utilize the Department's automated information resources. However, as a condition of receiving this access, you are required to be aware of the Department's system security policies and to abide by these policies. Security policy emphasizes awareness practices for the purpose of safeguarding the Department's valuable information resources.

The system user identification (USERID) and password issued to you are your means to access these resources. They are to be used solely in connection with the performance of your responsibilities as set forth in your job description, contract or agreement(s) with the Department. Use by anyone other than yourself is expressly prohibited. You agree to be responsible for the confidentiality of the assigned information and accountable for all activity with your user identification (USERID). Further, you agree that you will not provide this confidential USERID/password to another user nor will you sign on to HUD systems so that another person may access or operate the workstation in your absence or on your behalf. Actions of this type constitute a breach of system security and will result in immediate termination of your assigned USERID/password from the system. In addition, you agree to:

- (a) Log-off the system when leaving the system/workstation area;
- (b) Refrain from leaving written passwords in the workstation area;
- (c) Avoid creating a personal password that can be easily associated with you;
- (d) Avoid posting printouts of sensitive output data on bulletin boards;
- (e) Avoid leaving system output reports unattended or unsecured;
- (f) Control input documents by returning them to files or forwarding them to the appropriate contact person in your office;
- (g) Avoid violation of the Privacy Act which requires confidentiality of personal data contained in government and contractor data files;
- (h) Immediately contact the HUD Inspector General's Office, as appropriate, regarding any suspected violation or breach of system security;
- (i) Cooperate in providing personal background information to be used in conducting security background checks to the extent required by Federal regulations;
- (j) Respond to any inquiries and requests for information you may receive from either the HUD Headquarters or management officials regarding system security practices.
- (k) Protect all electronic/optical media and hardcopy documentation containing sensitive information and properly dispose of it by shredding hardcopy documentation, or by contacting the HITS Help Desk to dispose of electronic/optical media.
- (l) Avoid saving sensitive HUD information on the local drive of a laptop, personally owned computer, or other mobile or portable technology ("flash drives", removable/external hard drives, etc.).
- (m) If sensitive data must be stored on any type of HUD-approved mobile/portable technology (laptops, removable hard drives, "flash drives", etc.), ensure that it is protected via encryption.
- (n) Individuals who telework or remotely access HUD information should do so only through approved remote access solutions (such as hudmobile.hud.gov), and should safeguard all sensitive information accessed in this manner.

CERTIFICATION: I have read the above statement of policy regarding system security awareness and practices when accessing HUD's information resources. I understand the Department's policies as set forth above, and I agree to comply with these requirements as a condition of being granted limited access to the Department's computer resources.

3.0 USING THE VMS SYSTEM

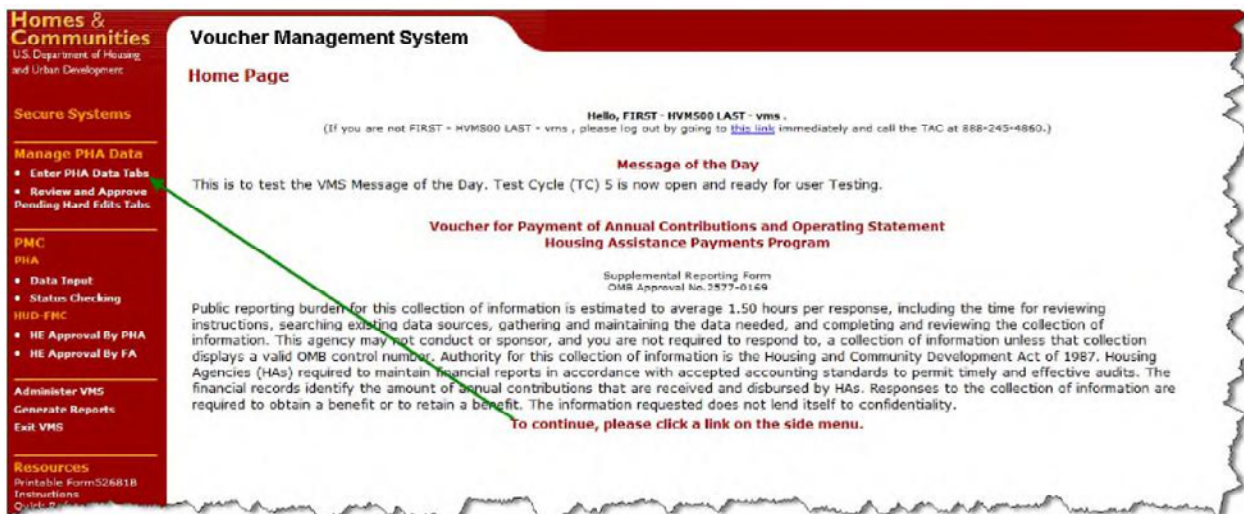

3.1 Manage PHA Data

This link is generally accessed by PHA users. Users in the housing choice voucher program and are required to maintain financial reports in accordance with accepted accounting standards in order to permit timely and effective audits. The financial records identify the amount of annual contributions that are received and disbursed by the PHA. The Voucher for Payment of Annual Contribution and Operating Statement, Form HUD 52681-B, is used by HUD to approve actual PHA program expenses for the PHA Fiscal year, and is the basis for reviewing PHA financial estimates for the subsequent fiscal year. This form is also used in conjunction with the Disaster Information System to complete the settlement processed when a Disaster Program has terminated.

PHAs are advised not to wait until the final day of the collection period to submit their data. Doing so may result in a delayed transmission of the data to HUD that could impact a PHA's funding. Failure to submit the data results in a PHA being sanctioned as a non-submitter. Incomplete submission and/or non-submissions could also affect the PHA's future years funding. PHAs need to follow the submission timeframes established by the Financial Management Center on the submission periods.

3.2 Navigate to Desired Monthly Submission

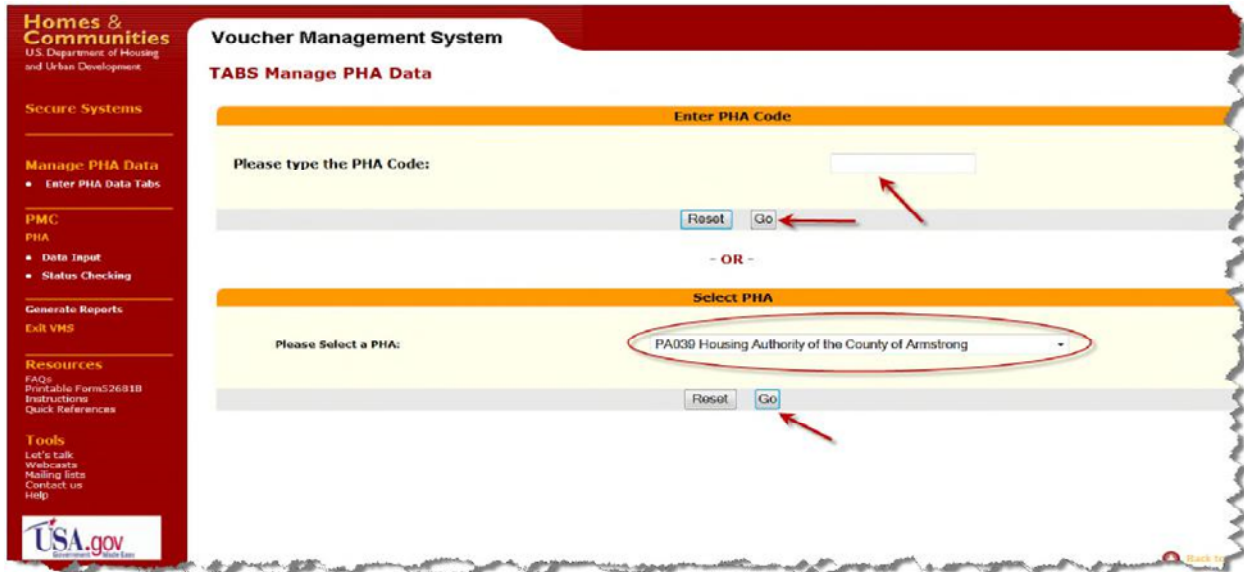

Click on "Enter PHA Data Tabs" link under the heading "Manage PHA Data" located on the left side navigational menu of the VMS Home Page.

For ease of data entry, and to improve accuracy of reported information, HUD has divided the data entry document, Form 52681-B, into tabular format. “**Voucher UML & HAP**” is the default display, as shown above. To access the other sections, just click on the appropriate tab button at the top of the tabular screen.

The five main data entry screens are as follows:

- **Voucher UML and HAP**
- **Other Income and Expense**
- **Additional Expense / Comments**
- **Disaster UML and HAP**
- **PHA Contact Information**

- (The remaining tabs are not for data entry and will be discussed in later sections)
- **Submission** (Section 3.6)
- **Executive Summary** (Section 6.0)

Example VMS Data Entry Fields

3.3.3 Question Marks Provide Help

Next to each editable field is a red Question Mark (?) in a yellow circle. If you click on the question mark, an explanation of the field will appear, as shown below.

Example VMS Popup Window

3.3.4 Reset Button

Every data entry Tab has a “Reset” button. Pressing this button will cause all the data you have entered since the last “Save” to be reset to the way the tab looked before the last “Save”. If you haven’t yet saved any data, the screen will be reset to all blanks.

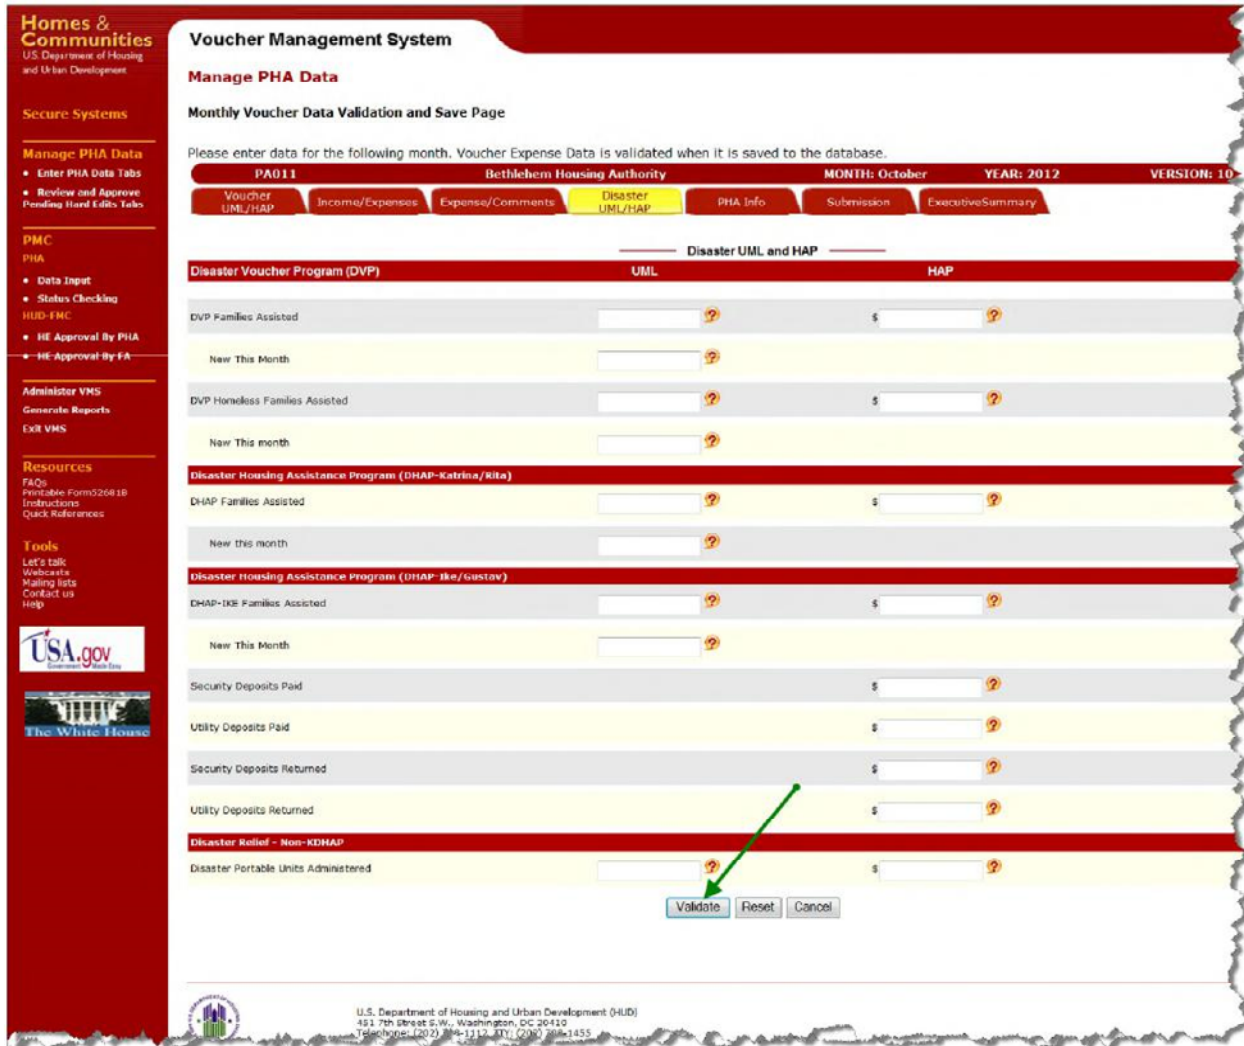

VMS Data entry screen – Reset Button

3.4 Validate Data

Once the data has been entered completely for a tab, click the “Validate” key at the bottom of screen to check for data entry errors.

VMS Data entry screen – Validation Button

The Validate Data function is crucial to the integrity of the data entered by the user prior to saving and submitting to the database. VMS verifies the apparent validity of the data via a series of steps, first checking for proper format, second comparing the amounts fall within “reasonable” ranges, then where possible comparing related fields to insure completeness and consistency against a list of business rules. Where inaccuracies are found, the system will generate error messages.

The order in which the fields are validated is as follows:

- First, a simple check (basic validation) to make sure the field is present if mandatory, and is numeric (for a numeric field), with no special characters embedded.
- Second, a check for Hard Edits, against the Hard Edit criteria listed below in this section,

- Third, a cross validation check, if two fields must accompany each other, such as Litigation and Litigation HAP, which must both be present if one of the fields is present.

If a field fails all three types of validation checks, only the first type of error will appear. When this error is corrected, if the field still fails the other two types, only the second type of error will appear. If the field fails the third type of validation once the second type is corrected, only then will the third, cross-validation error appear.

3.4.1 Basic Validation

3.4.1.1 Mandatory Field Check

The required fields are:

- All Voucher HAP Expenses After the First of Month
- Number of Vouchers Under Lease (HAP Contract) on the last day of the Month
- Unrestricted Net Position (UNP) as of the Last Day of the Month
- Restricted Net Position Funds (RNP) as of the Last Day of the Month
- Cash/Investment as of the Last Day of the Month - Voucher Program Only
- Administrative Expenses (Mandatory for Non MTW PHAs only, field will accept 0 for MTW PHAs)
- MTW - HCV Administrative Expenses (Mandatory for MTW PHAs only, field will accept 0 for Non MTW PHAs)

The system will perform a simple check and the error message below will display if validation fails.

VMS Required Field Error Message

3.4.1.2 Numeric Check

The system will perform a simple check for numeric data with no special character embedded and the message error message below will display if validation fails

VMS Sample Error Message Popup Window

3.4.2 Hard Edit Validation

NOTE: During the validation process, data entered is validated against specific business rules associated with hard edits. The system prevents the user from submitting data that fails to meet the business rules. Data that fails a hard edit is not necessarily incorrect – the data may fall outside reasonable ranges. The PHA can either correct the data, or explain it. If you opt to explain it, you will be able to submit data with a status of “Pending Hard Edit”. To complete this submission, approval by the PHA’s Financial Analyst is required. The Financial Analyst can generate a report of submissions containing Hard Edit explanations. The Financial Analyst must review and either approve or disapprove the submission.

3.4.2.1 Hard Edit Error Messages

The following fields of the monthly UML data will be compared to the ACC unit data. If the entered data fails the criteria for hard edits, an error message will display and you will need to make the correction OR enter a comment from the drop-down box or a personalized comment to explain why the data is correct as submitted. The following displays each of the hard edits under the Units section.

3.4.3 Cross Validation

If any of the entered data items fail validation, the following System Message will be displayed at the top of the form warning you that there may be errors with the entered data. Explanatory messages will appear under the erroneous fields.

VMS System Message – Cross-Validation Error Message

VMS System Message – Cross-Validation Error Message

Above are examples of errors found during the cross validation comparison of fields. For every UML field that has a corresponding HAP field, if one contains an amount, they must both contain amounts.

3.4.3.1 Fields Subject to Cross Validation

Every UML field with a corresponding HAP field is subject to Cross Validation error checking, and vice versa. If an amount is present in one of the fields, an amount must also be present in the corresponding field.

The fields subject to Cross Validation Error Checking are listed below:

3.4.4 Save Data

After the Validation step, if the data passed all the validation steps, messages will appear telling you that the data is valid and reminding you to save the data.

VMS System Message – The Tab is valid and can be saved

The “Save” button will then display

VMS Data entry screen – Save Button

You may save your data by clicking on the “Save” button at the bottom of the tab. You should always save it before continuing on to a different tab. When you save the data, the validation logic is automatically triggered. If any other errors are found, the data is not saved, you must correct the fields with error messages before any of the data on the tab will be saved. If you sign out of the session before correcting the erroneous fields, all of the data you keyed on that tab will be lost.

When all errors are corrected, the message below will display and you can move on to the next tab.

VMS System Message – This Tab was saved successfully

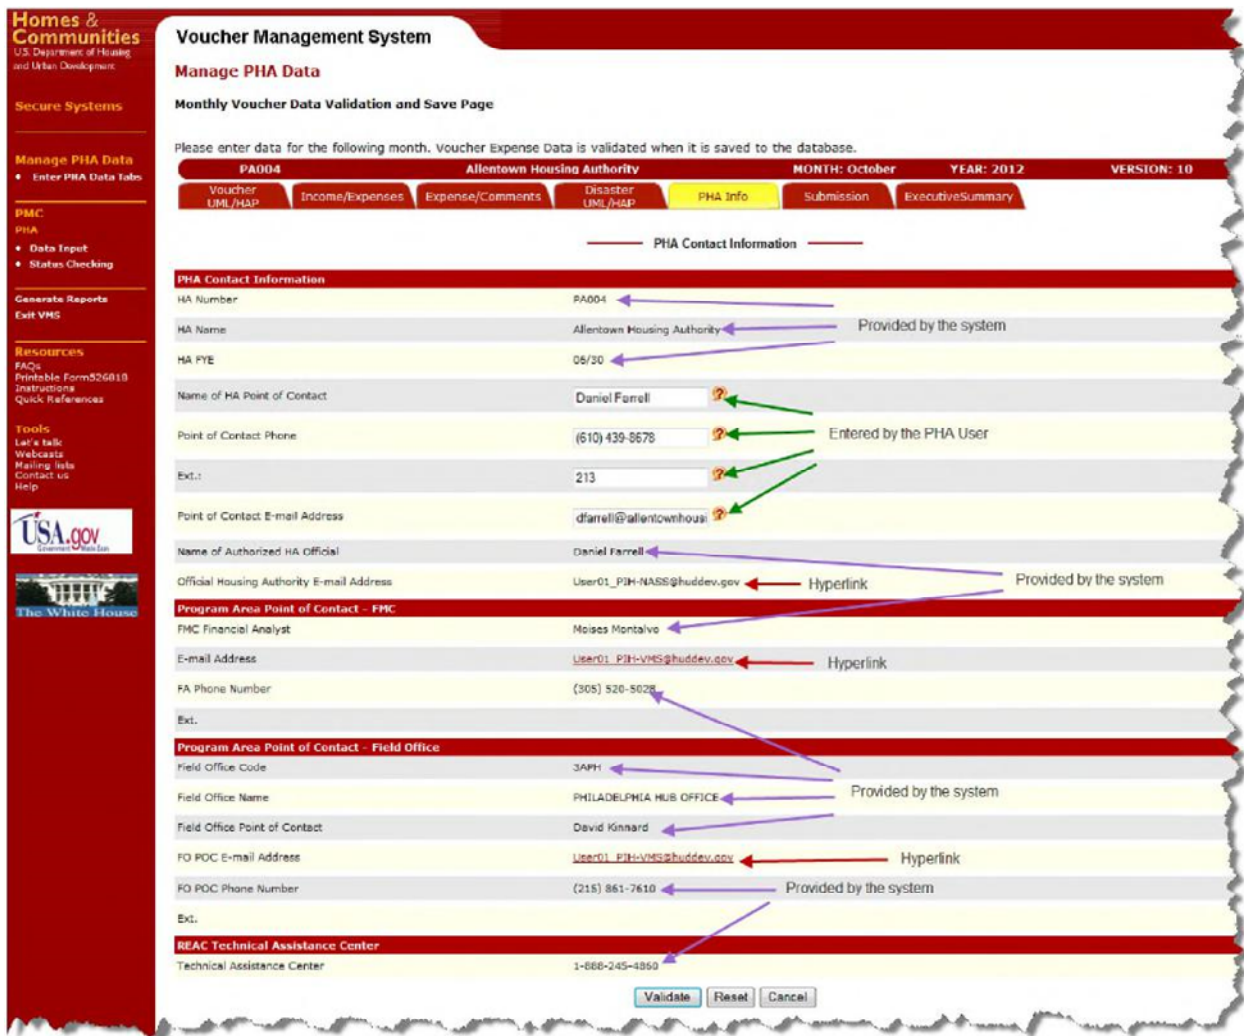

3.5 Point-of-Contact Pre-Population and Email Feature

The PHA Information Tab differs from the other data entry tabs in two significant ways:

1. Much of the data on this Tab is pre-populated.
 - Initial HA information is supplied from the PIC database.
 - PHA Contact Information is initially entered by the PHA user. Once PHA Contact Information has been entered, it will stay, pre-populating the fields of this Tab for new submissions until someone enters different information in the fields.
2. There are hyperlinks in the Program Area FMC and Program Area Field Office sections of the Tab which help the user to draft and send an email to the FMC FA or Field Office point of contact

The notations on the example screen below explain where the data comes from for pre-populated fields. The PHA contact information can be changed by the PHA user. Once changed, the data will remain and continue to re-populate the fields for subsequent months.

Pre-populated Point of Contact Fields and Hyperlinks

When you click on the Point of Contact FMC hyperlink, the following screen appears:

3.6 Submit Monthly Data

Navigate to the desired month's 52681-B form as described in the Manage PHA Data Section 4.1. Then click on the "Submission" tab button at the top, a two-part Submission tab will appear, displaying Validation History and Submission History.

By clicking on the “OK” button, you are certifying the accuracy of the monthly submission. If you are not sure the document is ready to be submitted, click on the “Cancel” button, and you will be returned to the previous screen.

If you pressed the “OK” button, and if your Monthly Submission passes a final validation check, the following screen will display. At the top will be a System Messages window with a message stating that the submission process is complete, and that the Voucher data was successfully submitted.

Press the “Continue” button to return to the List of Submissions page.

You may press the “Print Format” button if you wish to print the submission data, **after** you have received the window confirming that your submission was successful.

If you pressed the “OK” button, and if your Submission did not pass the final validation check, the screen below will display. The System Message at the top alerts you that the submission

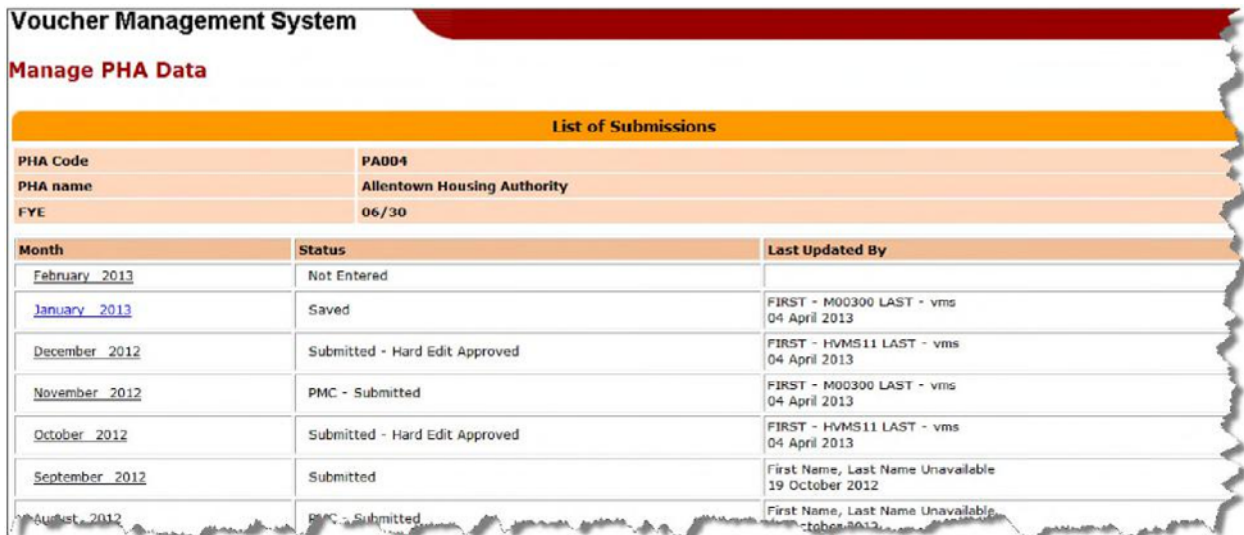

process **was not successful**, and instructs you to return to each tabbed page to correct errors and re-validate the page.

If you discover that the data is incorrect before submitting the month, you can cancel the process. Scroll down to the bottom of the Submit Month page and click the Cancel button. You will be returned to the List of Submissions page. Status for the cancelled month submission will not change. If data was previously saved, status will be “Saved”, if data was not saved, status will be “Not Entered”

If PHA has additional months to submit, they would continue with the Submit Month process until all months have been submitted successfully and display “Submitted” or “Submitted – Hard Edit Approved” in the status column.

NOTE: A PHA cannot submit subsequent months until the prior month is actually submitted and accepted by HUD

NOTE: Once the Month is submitted and accepted by HUD, the PHA can select another month to enter, edit and submit data available, otherwise the user can log out of VMS (Section 2.4) if finished with the transaction.

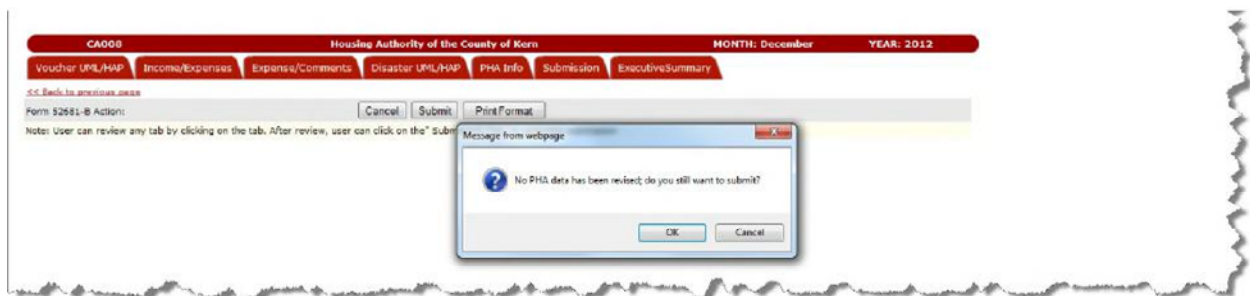

The PHA should notify the FA when a monthly submission with a “Pending Hard Edit status” is made. The Financial Analyst will then access the PHA’s submission, approve or disapprove the submission, and trigger the automatic notification to the PHA.

APPROVED SUBMISSION: Approval will trigger an ‘approved email notification’ to be sent to the PHA. The FA can notify the PHA why the submission was approved by entering comments in the comment field of the Review and Approval page. These comments will be included in the email notification. An approval means the submission for that month is completed.

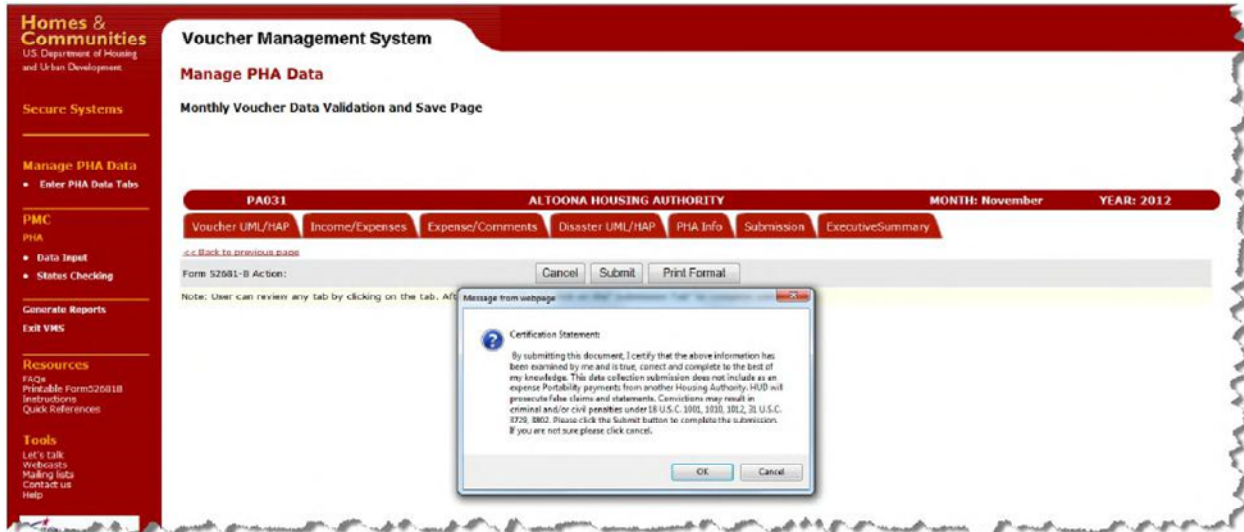

DISAPPROVED SUBMISSION: Disapproval will trigger a ‘disapproved email notification’ to be sent to the PHA. The FA can notify the PHA why the submission was disapproved by entering comments in the comment field of the Review and Approval page and this would be included in the email notification. The PHA will have to edit the original submission, resubmit/correct the data, and notify the FA of the resubmission.

NOTE: An approval or disapproval on a submission by an FA will trigger an email notification being sent to the PHA. The email notifications are sent from the VMS automated email system which is not monitored for responses. PHA users should not respond to this email notification. Please contact your FA directly if you have questions. The email notification contains the following: PHA Number, PHA Name, Contact Point and Submission Month and Year and will be sent to the Point of Contact email address and CC to the official email address on Form 52681-B

If a submission is disapproved by the FA and the PHA resubmits the form without making any change to the original submission, a popup warning message as below will display

Press the “OK” button on this screen. The system will display a blue window requesting that you certify that the submission data it is true, correct, and complete, and that it does not contain as an expense Portability payments from another Housing Authority.

If you pressed the “OK” button, and if your Monthly Submission passes a final validation check, the following screen will display. At the top will be a System Messages window with a message stating that the submission process is complete, and that the Voucher data was successfully submitted.

4.0 PRIOR MONTH CORRECTIONS

4.0 PRIOR MONTH CORRECTIONS

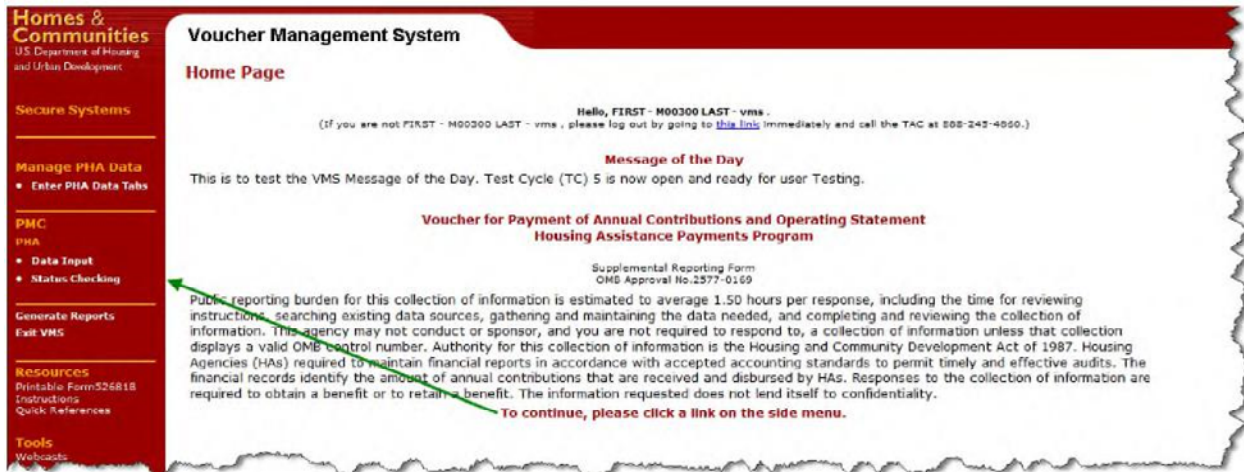

If you have one or more corrections to make to prior month submissions, you can link to this function from the VMS Home Page, in order to make one or more field corrections for one reporting period or for multiple reporting periods, at one setting, and to obtain FA approval in an efficient process.

You are not allowed to alter submissions with status “Submitted”, “Pending Hard Edit”, “Hard Edit Approved” (completed submission) in any other way than the PMC process. You can only view and print completed submissions via the “Enter PHA Data Tabs” link.

PHAs should enter adjustments/revisions as they are discovered to ensure accurate data is available at all times for utilization and budget projection purposes. PHAs should not wait until the end of the year to make corrections.

4.1 Entering the Correction

At the VMS Home Page, Select “Prior Month Correction PHA – Data Input” on the left navigation menu:

VMS Home Page

If you have a single PHA associated with your User ID, you will go directly to first PMC Data Entry screen (4.1.1 below)

A user with multiple PHA Codes either enters the desired PHA code directly in the first box, or selects the state code from the drop-down menu, selects the PHA name from the next drop down menu, and then clicks “Go”.

4.1.1 PMC Data Entry Form

Initially, the Data Entry screen for Prior Month Corrections allows you to select the Submission to be corrected, by selecting the Year and Month from drop-down lists. If the date you select does not have a completed Submission, you will receive an error message, as displayed in red below.

PMC Data Input Screen

When you select the Year/Month for a valid Submission, then the Tab Selection and Field Selection Drop-down menus will be highlighted so that you can select the Field to be corrected and Tab where it is located. When you select a Tab, the Drop-down menu for Field Selection will contain just the fields for that Tab.

PMC Data Input Screen

Once you have selected the field to be corrected, the Data Entry Form will display the Correction fields and a **PHA Justification field** on the form. If the field to be corrected is anything **except** a UML/HAP combination, the Form will look like the one below, with New Adjusted Value equal to Old Value, and Difference in New to Old Value field equal to zero. The Old Value and Difference fields cannot be modified. They are generated by the system.

PMC Data Input Screen

The PHA Justification field at the bottom, maximum size 4000 characters, allows you to describe the purpose of the correction, or leave any significant information, for future reference. A pop-up message when data entered exceed 4000 characters

VMS Prior Month Correction (PMC) – Data Input Page

Modify the value in the New Adjusted Value field. The system will calculate the difference from the Old Value, and place the positive or negative difference in the Difference field.

If you select a field that has UML and HAP associated values, the PMC Correction screen will look like this, with both fields displayed and available for correction.

Once you have modified the New Adjusted Value in one or both of the displayed fields, the next step is to press the “Validate” button at the bottom of the page. The system will validate just the affected fields. If Hard Edit Error messages were present on the Submission for other fields, they will not be re-validated in this process.

If the Validation process produces errors or Hard Edit errors, the error messages will appear under the appropriate field, as shown in the screen below:

4.1.2 Range Check Validation

The Range Check Validation is an edit that checks the difference between the original data and revised data that is submitted by the PHA. The below information discusses four different scenarios that will or will not trigger the Range Validation Edit. If the Range Edit is triggered, then a comparison of the original data to the revised data is done to determine if the difference falls within an acceptable range. The Range Validation Edit is used to reduce the number of hard edit reviews required by the PHA and the FA at the FMC. See Scenario #4 for additional details.

Scenario 1: The system will not check for the range if a PMC passed hard edit validation before adjustment and now fails, for example, the PHA is not in the Veteran's Affairs Supported Housing (VASH) program, PHA originally had not entered data for the VASH program and now enters data for the program, the following will happen:

- The Validation process displays Hard Edit errors, the error messages will appear under the appropriate field, as shown in the screen below:

Scenario 4: The system will check for the range if a PMC failed hard edit validation before adjustment and fails again, the difference between the change is checked to determine if the difference between the old and new data is within an acceptable range. If the data falls within an acceptable range than no approval is needed. If the data is not within that acceptable range, then FA approval is required. For example, the PHA is not in the Family Unification program, PHA did originally enter data for the Family Unification program, fails hard edit validation but gets approved by FA, PHA is still not a part of the Family Unification program but enters data for the program, the following will happen:

5.2 Review and Approve Pending Hard Edits

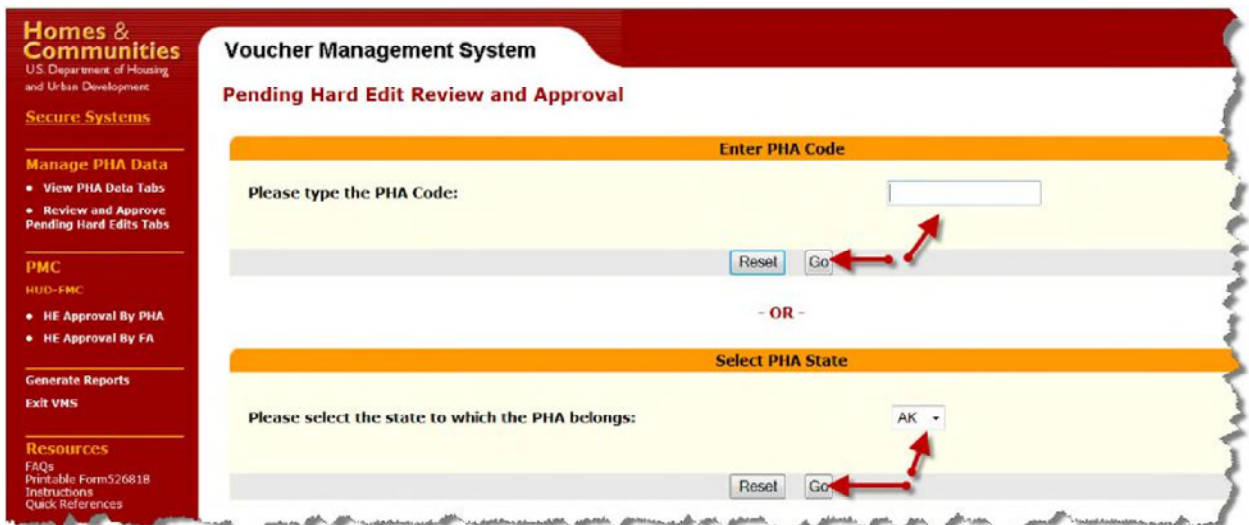

The Pending Hard Edit Review and Approval process takes place when a PHA has submitted its monthly voucher data with Hard Edits included. A Hard Edit is a field which has been flagged by the Validation process as an error, but which has been explained by the PHA to be correct as is. It is the responsibility of the Financial Analyst to review the data and explanations, and to either approve or disapprove the submission.

5.2.1 To begin a review of the submitted data, log into the VMS system as an HUR role, and click the “Review and Approve Pending Hard Edits Tabs” link shown on the Home Page side menu.

VMS Home Page

You will be prompted to enter either the PHA number or select the appropriate State Code and then click on go to proceed.

User with Multiple PHA Assignment - Selection Page

5.2.2 After selecting the state code, choose the appropriate PHA from the dropdown list and click on go.

If you selected the state option, a second menu will appear with a drop-down list of PHAs within the selected state

The screenshot shows the 'Voucher Management System' interface. The main heading is 'Pending Hard Edit Review and Approval'. There are two sections: 'Enter PHA Code' and 'Select PHA'. In the 'Enter PHA Code' section, there is a text input field with 'PA004' and 'Reset' and 'Go' buttons. Below it is '- OR -'. The 'Select PHA' section has a dropdown menu with 'PA004 Allentown Housing Authority' selected and 'Reset' and 'Go' buttons.

5.2.3 A List of Submissions for that PHA will display, showing the Status for each pending hard edit. Notice that the first entry has a status of "Pending Hard Edit Submission", and is blank in the Financial Analyst column.

The screenshot shows a table titled 'List of Pending Submissions'. The table has columns for 'Month', 'Status', and 'Financial Analyst Status'. The data rows show submissions from July 2012 to January 2012. The first row (July 2012) has a status of 'FIRST - HVMS00 LAST - vms Pending Hard Edit Submission 10 April 2013' and a blank Financial Analyst Status.

- > Vouchers administered on behalf of another PHA under the portability provisions, and for which HAP is reimbursed to your PHA, should not be reported by you as part of your leasing – they will be reported by the PHA that is paying the HAP. These are commonly referred to as “Port-Ins.” Likewise, the HAP expenses associated with these port-in vouchers, which have or will be reimbursed to you by the other PHA, should not be reported as part of your HAP expenses. They will be reported by the PHA that is paying the HAP. There is a separate section in VMS called “Portables Vouchers Administered” with line items for reporting “Portable Units Administered” and “HAP for Portable Units Administered.” These are the fields for reporting those vouchers for which hap is reimbursed to your PHA

- > A voucher under lease must be reported in one and only one main category. Vouchers reported under the sub-categories “New Homeowners This Month” and “Enhanced Vouchers” are also reported under the main categories of “Homeownership” and “Tenant Protection”, respectively. "If a leased voucher could appropriately be reported in more than one category, it should be reported in the category that reflects how the participant initially qualified for the voucher. However, if a participant initially qualified under “All Other Vouchers” and later qualified under another category, that participant would be reported under the new category. Example 1: A participant initially qualified for a voucher under “All Other Vouchers” and later entered the Homeownership program. That participant would be reported under Homeownership. Example 2: A participant qualified for a voucher under the VASH or NED program. That participant later ported. The PHA that initially qualified the participant under VASH or NED would report that voucher as VASH or NED rather than Port Vouchers Paid. (Please see VASH definition below under DEFINITIONS for exception if a VASH family no longer needs case management and is moved out of the VASH and onto the PHA's regular voucher program, in accordance with Notice PIH 2011-53. In addition, please add information in the "Comments" field to indicate the number of vouchers reported and corresponding expenses on the VASH, NED, FUP, etc. lines that have ported but are not reported on the Portable Vouchers Paid (Port-Out) line."
- > Effective with the April 2016 submission, RAD Component 1 and 2 vouchers **under lease** should be reported in the appropriate RAD 1 and 2 fields and should no longer be reported in the Tenant Protection field.
- > All HAP expense data is to be reported in the voucher categories as of the first day of the month. HAP expenses are entered under the month for which they are applicable, regardless of the month in which they are actually paid. HAP expenses are only entered after the payment has been made.. A separate line item on the Voucher UML and HAP tab, called "Voucher HAP Expenses for New Contracts Effective After the First of the Month" collects HAP costs incurred for new HAP contracts effective after the first of the month. These costs are not reported elsewhere. PHA should include as HAP in the appropriate categories any amounts expended for utility reimbursements. **For RAD 1 and/or VASH, the PHA should report ALL HAP expenses, even the prorated HAP expenses, in the RAD 1 and/or VASH field as appropriate rather than reporting the prorated HAP expenses on the line for “All Voucher HAP Expenses AFTER the First of the Month”.** HAP expenses incurred after the first of the month for the Mainstream 5 program should NOT be reported in this field but should be reported in the Mainstream 5 field. **"Note, RAD 2 HAP expenses incurred after the first of the month SHOULD be reported in this field"**
- > Contracts on hold are **not** reported as units leased as of the first day of the month. Contracts on hold are defined as a contract that has been entered into the PHA's system but for which the PHA is awaiting a landlord signature. Units are not reported as under lease until the HAP contract is negotiated. Once the contract is signed, if the monthly submission is completed, the PHA should enter such units as a Prior Month Correction. If not signed within 60 days the HAP contract is void. No HAP may be paid unless the HAP contract has been signed. Abated units are units that are currently under lease but for which the HAP is being withheld for specific reasons such as the unit failing to pass HQS inspection. The PHA **should** enter the UML during the abatement period. The unit **is** under contract. If for some reason the abatement is reversed then the PHA can enter a Prior Month Correction for HAP for those months attributable to the abatement period. Failure by the PHA to report the abated UML will skew the leasing and per unit costs for this agency.

- > 5-Year Mainstream – In VMS, there are specific lines provided for 5-Year Mainstream Units Leased and HAP Expenses only. The 5-Year Mainstream program is separate and distinct from the regular HCV program and these values are not included in the Voucher Leasing and HAP totals reported in any other field. If a value greater than zero (0) was entered in any field under “Voucher Units”, a value greater than zero (0) must be entered in the corresponding “Voucher HAP Expenses” field.
- > Question Mark (?) - For every field containing this symbol, a pop up description of the data entry required for the field, or an explanation of the field will be provided. This field description appears only once for the many occurrences of the (?) Box symbol.
- > Leasing and HAP expense data for each category of voucher are now reported on the same line.
- > Fields that have been grayed out are prefilled by HUD and are not editable. Data used for these fields reflect the current system information, and are automatically updated when changes are made to prior months.
- > The PHA must report UMLs for “Zero HAP” Units. These are units for which the HAP has been calculated to be \$0. The units are to be reported in the same voucher category as they would if the HAP was a positive dollar amount. HCV regulations state that a HAP contract may remain in effect for 180 consecutive days while at zero HAP. Thus in VMS, the PHA must report a UML for the “Zero HAP” unit because a contract is still in effect. After 180 days at \$0 HAP, the HAP contract terminates automatically. Therefore, the PHA would no longer report a UML for that unit. Refer to 24 CFR 982.455 (Automatic Termination of HAP contracts). **EXCEPTION:** Tenants who were in place at the time of a RAD conversion and have \$0 HAP should be reported in the VMS as long as the family is in place. The 180 day limit does not apply to these tenants. Tenants leased after the conversion are limited to the 180 day limit for \$0 HAP as described above.

| FSS Coordinator Expense Covered by the FSS Grant | <p>Include on this line item only those expenses covered with unspent FSS administrative fees earned through grants awarded in FY2014 and prior. Allowable expenses paid from unspent prior year grants that may be reported on this line for expenses incurred after December 2015 are: contracting to do FSS data collection/clean-up/analysis, building the capacity of the Program Coordinating Committee, strengthening your agency's outreach strategies, etc. You may also report expenses incurred for salary and benefits only to hire an extra, temporary HCV FSS coordinator to help with our existing FSS caseload or FSS special project. Please note that any funds remaining unspent from CY2014 and prior may not be used to pay the salary and benefits of current FSS coordinators and may not be reported on this line item. Further, any expenses incurred that are paid with funds drawn down from LOCCs should not be included on this line item.</p> <p>Also note that once funds have been exhausted from your FSS grant (FY15 and beyond) any expenses incurred for covering HCV FSS coordinator salary and benefits must be included in the VMS on the regular administrative expenses line item. Do not report these expenses on the line item "FSS Coordinator Expenses Not Covered by Grant".</p> |

|---|---|
| Unrestricted Net Position (UNP) as of the Last Day of the Month | <p>Note: Regardless of the system (VMS or FASS-PH) in which UNA is being reported, the PHA should report its UNP amount as defined by GAAP – <i>“the difference between the HCV program’s asset and liabilities that do not meet the definition of restricted net assets or invested in capital assets net of related debt.”</i> In essence, HUD is requesting information on net liquid or near liquid resources that can be readily used for the administration of the program, as this definition does not include net assets related to fixed assets (see OPEB liability exception below as related to liquid or near liquid resources).</p> <p>UNP is equal to the cumulative total of Administrative Fee (AF) revenue minus total HCV administrative expenses and any UNP used for housing assistance payments (HAP) or other activities for Section 8 Tenant Based related purposes. UNP (referred to as “Administrative Fee Reserve” in the HCV program regulations) is the amount by which administrative fees paid by HUD for a PHA fiscal year exceeded the PHA administrative expenses for the fiscal year, plus the portion of fraud recovery revenue collected in cash that is returned to the UNP account (see Note 1), any interest earned on AF reserve (see 24 CFR 982.155(a)) and up to \$500 per calendar year in interest and investment income earned on HAP and RNP funds, and the net Port-In reimbursement revenue (in excess of Port-In HAP expenses) received from initial Housing Authorities for unabsorbed Port-Ins. This means that the total AF revenue used to calculate the UNP reported in this field does not include excess AF received during the current PHA FY because excess AF received does not accumulate to the UNP until the end of the PHA’s FY. The excess fees received during the PHA’s current FY will not be reported in the UNP field until the end of the last month of the PHA’s fiscal year. The monthly amount reported is the UNP balance at the beginning of the year plus any interest earned and fraud recovery allocated to the UNP account for the months in the current year. PHAs must include in this field their pre-2005 AF balance, formerly referred to as their operating reserve (also known as their AF reserve). PHAs should not report any unexpended FSS Coordinator funds in the UNP field. FSS coordinator funds from grants awarded prior to Federal Fiscal Year 2014 (which were made available to PHA’s beginning in January 2015) can only be spent on FSS coordinator expenses, are not available to support other Section 8 program expenses, and therefore must be recorded in the PHAs financial records as an unearned revenue until spent on FSS coordinator expenses rather than being reported as part of the UNP. FSS coordinator grants awarded in FFY 2014 and future years are treated as a separate program and reported in CFDA 14.896 in FASS. The grant revenue for these awards should not be added to the HCV equity. For guidance on eligible use of AF and UNP funds please reference PIH Notice 2015-17 issued October 6, 2015. This document provides additional information regarding the allowable use of AF earned during the PHA’s current fiscal year and the use of available UNP (depending on the source year) and also provides information regarding VMS reporting.</p> <p>Accrued Pension and Other Post Employment Benefits (OPEB) Exception: Any Accrued Pension and OPEB liability must be included in the UNP balance as reported in the VMS even though this unfunded liability may cause the UNP balance to reflect a ‘false’ negative balance. It is suggested the PHA insert a comment in the ‘comments’ section to reflect the portion of the UNP balance that is attributable to the unfunded pension and OPEB liability and provide the actual ‘cash equivalent’ UNP balance (the UNP “should be” balance if the pension and OPEB liability were removed). Reference GASB 74 (which parallels GASB 67 and replaces GASB 68) and GASB 75 (which replaces GASB 45).</p> |

TAB 2 – OTHER INCOME AND EXPENSE

| Form 52681-B Field Name | Definition |
|---|---|
| <p>Restricted Net Position (RNP) as of the Last Day of the Month</p> | <p>RNP is the amount of Housing Assistance Payments (HAP) Equity for the HCV program. It is equal to the cumulative sum of total HAP revenues received minus the total cumulative HAP expenses for eligible unit months that have been paid and is calculated on a monthly basis. Total HAP expense should include</p> <p>expenses for regular vouchers and for HCV special purpose vouchers including VASH, Non-Elderly Disabled (NED), Family Unification Program (FUP), HOPE VI, One Year Mainstream (MS1), Litigation, RAD Component 1, RAD Component 2, Tenant Protection (TP) and Homeownership, as well as expenses for FSS escrow deposits. Total HAP revenue is defined as total HAP disbursements received during the month including the portion of fraud recovery revenue collected in cash that is returned to the HAP equity (see Note 1) and FSS forfeitures. Excess funds received for the Mainstream 5 program should not be included in this field.</p> <p>Interest income earned on excess HAP and RNP balances should not be included in the RNP. The allowable retention of interest funds should be reported in the PHA's UNP balance as described in greater detail in the UNP field definition. Negative balances must be reported on a monthly basis and carried through the fiscal year-end or calendar year-end, as applicable, until cash revenue is received (from any allowable source) to clear the negative balance. However, if the PHA has a negative balance at the end of the calendar year and no available program reserves to cover the shortage, then the negative amount should not carry over into the subsequent calendar year reporting (see Note 2). This results in the PHA starting January of the following year with a zero balance. Instead, the PHA must transfer HCV UNP or other non-federal funds to the HCV RNP account to cover the negative balance in excess of the HUD-held reserves balance. Please refer to PIH Notice 2013-28 regarding the allowable use of outside sources of funds. The PHA is responsible for operating its program within the amount of funding provided. Negative amounts reported may result in a HUD review and corrective action may be warranted if it is determined the PHA expended any portion of its HAP funding on non-HAP eligible expenses.</p> <p>NOTE 1: Fraud Recovery – PHAs should not include fraud receivable revenue not yet collected in the VMS reporting as those funds are not available for the PHA to use for HAP expenses. The amount of fraud recovery sent to the RNP account is usually 50% of the amount collected, but may be less depending on the PHA's situation. See 24 CFR §792.202 for more on the amounts of fraud recovery a PHA may retain in its UNP and the portion of fraud recovery that must be returned to the HCV Program by inclusion in the RNP balance.</p> <p>NOTE 2: Reporting Negative RNP – Reporting negative RNP balances in the VMS at the end of the PHA's fiscal year end is acceptable. Reporting negative balances in the VMS provides reviewers the most accurate financial status of the PHA and is an indication that an additional disbursement may be needed to support HAP expenses. If the PHA reflects a negative balance at FYE, the PHA should confirm if there are available HUD-HELD Reserves to support the shortage. If so, the PHA should record an Accounts Receivable from HUD for the amount that can be supported. The PHA should transfer UNP to cover the remaining shortage. GAAP reporting requirements direct PHAs to report zero in FASS when their RNP balance is negative at fiscal year-end. This can result in a discrepancy between the two systems although the information is accurate based on current reporting requirements.</p> <p>MTW PHAs are required to track and report unspent HAP funds, transferred to the single account, in the VMS under the RNP. These are HAP funds transferred to the single account minus HAP and non-HAP expenses allowable under their MTW agreements. The tracking and reporting of HCV originated HAP that has been transferred to the single account but remains unspent will facilitate monitoring budget utilization and establishing operating reserves to be protected from offsets and excess reserves that could be subject to Congressional mandated offsets and or/offset for reallocation as described by the 2016 Appropriations Act or future requirements.</p> <p>Note that for unaudited and audited FASS reported financial statements, unspent HAP funds that were transferred to the single account will continue to be reported as unrestricted net position (UNP). This results in a known discrepancy between VMS and FASS reporting but is necessary to ensure accurate tracking and reporting of unspent HAP funds.</p> <p>PHAs/Users should refer to PIH Notice 2015-17 for additional information related to the proper calculation and reporting of RNP balances in the VMS.</p> |

| Cash/Investments as of the last day of the month – Voucher Program only | Cash/Investments as of the last day of the month are the total amount of HAP and AF cash and investments for the HCV program. Amounts reported include all cash and investments as they relate to UNP and RNP balances as of the last PHA FYE, as well as any additional funds that may have been reported in the UNP and RNP fields through the month being reported. This total amount must include only those HAP and AF funds (including any interest or revenue derived) received for the HCV program, including interest earned, fraud recovery and Family Self-Sufficiency (FSS) forfeitures. Funds received for an FSS Coordinator and not expensed must not be included. Cash and investments for FSS escrows must not be included, nor should any cash or investments representing other current liabilities to the PHA, such as outstanding checks and “accrued compensated absences – current period” as these funds are already restricted for specific purposes and are not available for use to pay HAP or other administrative costs. MTW PHAs should report their financial information as required in their MTW Agreement. |

Any other use of HCVP HAP funds to pay debt service that would require a waiver or Section 30 must be included by the PHA as an approved MTW activity in the MTW plan before the expenditures are eligible and reported |
| MTW - Development Activities | HCVP HAP funds expended by the PHA for the development of new public housing units, new project-based HCV units, or new local non-traditional units. In order to expend HCVP HAP funds for the development of local nontraditional units, the PHA must have an approved MTW activity in the MTW plan describing how the funds will be used. |
| MTW - Local Housing Program | HCVP HAP funding expended by the PHA for operation of local, non-traditional housing programs. In order to expend HCVP HAP funds for the operation of local, non-traditional housing programs, the PHA must have an approved MTW activity in the MTW plan describing how the funds will be used. |
