

“List of Covered Electric Utilities” under the Public Utility Regulatory Policies Act of 1978 (PURPA)

August 2008

Background

Under Title I of the Public Utility Regulatory Policies Act of 1978 (PURPA), the U.S. Department of Energy (DOE) is required to publish a list identifying each electric utility that Title I applies to. [See PURPA SEC. 102(c).] The following list is an updated version of DOE’s October 2006 list.

List

All electric utilities listed below had electric energy sales, for purposes other than resale, in excess of 500 million kilowatt-hours in both 2005 and 2006, except where noted:

** = sales exceeded 500 million kilowatt-hours in 2005 only

* = sales exceeded 500 million kilowatt-hours in 2006 only

Electric utilities may be listed under multiple states because the PURPA threshold requirement is by company (and thus each state that the company operates in will have to comply with the requirements).

Pursuant to Title I of PURPA (§17, 16 U.S.C. §2602), the Tennessee Valley Authority (TVA) is deemed to be the state regulatory authority for those electric utilities over which it has ratemaking authority. This is noted on the list as:

*** = electric utilities for which TVA is the state regulatory authority

Please note that the list below is based on DOE Energy Information Administration (EIA) 2005 and 2006 Form 861 data <http://www.eia.doe.gov/cneaf/electricity/page/eia861.html>, as well as information gathered from state commission web sites, the Tennessee Valley Authority, and correspondence with state commission staff as needed.
