Keywords: income, poverty
Notes: The family's value for this variable is assigned to each member of the
       family, thus making it a person-level variable. The "Undefinable"
       cases consist of families where the number of children under age 18 in
       the family is equivalent to the number of family members. Published
       poverty thresholds from the Census Bureau are used in these
       calculations.
