Table 1-5. Median Age of Mother by Live-birth Order, According to Race and Hispanic Origin: United States, Specified Years 1940-55 and Each Year 1959-2001

(Medians computed from birth rates by 5-year age groups of mothers; see Technical Appendix. Live-birth order refers to number of children born alive to mother. Figures for live-birth order not stated are distributed. Beginning in 1970, excludes births to nonresidents of the United States; see Technical Appendix) Medians for 1991-2001 have been revised using birth rates computed using revised population estimates based on the 2000 census and may differ from medians previously published. See text and "Technical Notes," available at http://www.cdc.gov/nchs/data/nvsr/nvsr51/nvsr51_12.pdf.)

--- Data not available.

- (1) Medians are revised and therefore may differ from those published in Vital Statistics of the United States, Volume 1, Natality, for 1989 and previous years; see Technical Appendix.
- (2) Based on 100 percent of births in selected States and on a 50-percent sample of births in all other States; see Technical Appendix.
- (3) Based on a 50-percent sample of births.
- (4) Based on a 20- to 50-percent sample of births.
- (5) For method of adjustment, see Technical Appendix.
- (6) Figures exclude data for residents of New Jersey; see Technical Appendix.
- (7) Based on data for 49 States and the District of Columbia which reported Hispanic origin on the birth certificate.
- (8) Persons of Hispanic origin may be of any race.

NOTES: The median age in table 1-5 is the value that divides the birth rate distributions into two equal parts, one-half of the values being less and one-half being greater. It is computed from birth rates in 5-year age groups which eliminates the effects of changes in the age composition of the childbearing population over time. The mean age in table 1-6 is the numeric average. Thus, due to the different ways in which the median and mean ages are computed as well as the adjustment of the median, the numbers in tables 1-5 and 1-6 would be expected to differ. Race and Hispanic origin are reported separately on birth certificates. Race categories are consistent with the 1977 Office of Management and Budget standards. See Technical Appendix.
