

DEPARTMENT OF STATE AND OTHER INTERNATIONAL PROGRAMS

The Department of State, the U.S. Agency for International Development (USAID) and other International Programs promote the national security and economic prosperity of the United States by advancing diplomacy, security, and fair economic competition. The 2021 Budget provides the necessary resources for the Department of State and other international programs to advance the Nation's strategic objectives, including those outlined in the National Security Strategy of the United States. The Budget supports new tools to allow the United States to respond flexibly to international challenges and invests in new capabilities to defend American interests and values across the security, trade, and information domains. The 2021 Budget also restores fiscal discipline by eliminating ineffective programs and pursuing organizational reforms to increase agency effectiveness, as well as increasing burden-sharing to rebalance U.S. contributions to international organizations.

Diplomatic Programs (DP) is financed by this appropriation, fees for services, and reimbursements from other agencies (including for administrative and other services provided by the Department of State). As in previous years, two-year funding is requested for this account, except for funds requested for Worldwide Security Protection (WSP), which are to remain available until expended. DP is the Department of State's primary operating account and funds a broad range of activities from policy setting, planning and design, to implementation and operations and maintenance. The 2021 request includes base funding for the State Department operations in Iraq, Afghanistan, Pakistan, and other High Threat Posts (HTP).

Funds are requested in the following categories:

Human Resources.—This category supports American salaries at overseas and domestic United States diplomatic missions, including Department of State employees carrying out security protection activities. Professional development and training is a continuous process by which the Department ensures that its professionals have the skills, experience and judgment to fulfill its functions at all levels. Training programs are designed to provide employees with the specific functional area and language skills needed for the conduct of foreign relations in the Department and abroad. This activity also supports the management, recruitment, and performance evaluation of Foreign and Civil Service employees (including efforts to attract a diverse applicant pool) and locally employed staff.

Overseas Programs.—This category provides funding for the operational programs of all the regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for 2021 will support 6 United States embassies, consulates, and other diplomatic posts worldwide. Resources for this activity are used to provide for: the political and economic reporting and analysis of interests to the United States; the representation of U.S. diplomatic and national interests to countries abroad; and the bilateral and multilateral negotiation of U.S. foreign policy objectives, including the hosting of and participation in various international conferences, meetings and other multilateral activities in the United States and abroad. This activity also encompasses medical programs for the Department of State, the Foreign Service and other U.S. Government departments and agencies overseas. Centralized funding for travel and transportation of effects associated with the assignment, transfer, home leave and separation of the Department's personnel and dependents is also included in this activity.

Diplomatic Policy and Support.—This category supports the operational programs of the functional bureaus of the Department of State, which includes providing overall policy direction, coordination, and program management among United States missions abroad in pursuit of regional and global foreign policy objectives, including the hosting of various international conferences and meetings in the United States and abroad. Resources also fund the management of U.S. participation in arms control, nonproliferation, and disarmament negotiations and other verification and compliance activities, in addition to funds otherwise available for such purposes. The information management activity in DP includes resources that are used for the creation, collection, processing, use, storage, and disposition of information required for the formulation and execution of foreign policy and for the conduct of daily business. Components of the information management activity include: telecommunications, information security, information system services, pouch, mail and publishing services for both unclassified and classified information. These activities include domestic and overseas execution of Department pro-

grams, such as budget and financial management, contracting and procurement, domestic facilities and vehicles, and rental payments to GSA.

Security Programs.—This category provides for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. The salaries paid to Department employees who carry out the security protection function worldwide are included in the Human Resources program activity. This activity identifies resources that are used in meeting security and counterterrorism responsibilities, both foreign and domestic. Programs covered in this activity include but are not limited to: security operations; engineering services, which are related to the technical defense of U.S. Government personnel and establishments abroad against electronic and physical attack; homeland security related activities; protection of Department personnel and foreign dignitaries; and physical security operations.

WORLDWIDE SECURITY PROTECTION

Section 7054 establishes a new Worldwide Security Protection (WSP) account in the Treasury, separate from the Diplomatic Programs (DP) account, and authorizes the transfer of unobligated WSP balances into the new account no later than October 1, 2021. Establishing a separate account would facilitate administration of WSP funds and increase the transparency of WSP expenditures. Requesting the creation of the new account in FY 2021 will provide the Department with adequate time to prepare for implementation of the account split at the beginning of the following fiscal year. The intention is to request WSP funding in the separate account as part of the FY 2022 President's Budget.

The Consular and Border Security Programs account (CBSP) uses revenue from consular fees and surcharges to fund programs and activities, consistent with applicable statutory authorities. These fees and surcharges include Machine Readable Visa (MRV) fees, Western Hemisphere Travel Initiative (WHTI) surcharges, Passport Security surcharges, Immigrant Visa Security surcharges, Diversity Visa Lottery fees, H and L Visa Fraud Prevention and Detection Fees, Affidavit of Support fees, and use of J Waiver Fees starting in FY 2021. In FY 2017 and prior years, these fees were credited in the Diplomatic and Consular Programs account as spending authority from offsetting collections. The Consolidated Appropriations Act of FY 2017 enacted a new standalone account to display fee-funded consular programs independent of the larger Diplomatic Programs (formerly Diplomatic and Consular Programs) account that began in FY 2019. This change enables the Department to provide greater transparency and accountability in financial reporting on these fees and surcharges, facilitate budget estimates for these fees and surcharges, and more easily make the information available to users of budget information and other stakeholders.

Section 7034(1)(1) of the general provisions provides a new permanent extension of the Western Hemisphere Travel Initiative Surcharge. Section 7050 provides legislative language expanding the authorities of the Border Crossing Card and Passport Security Surcharge. Finally, Section 7048 provides the ability to use the Fraud Prevention and Detection fees for the prevention and detection of all visa fraud.

These consular fees and surcharges support an array of activities that are vital to ensuring strong U.S. border security, including routine and emergency services for U.S. citizens overseas; the issuance of secure passports to U.S. citizens at 29 passport facilities and a partner network of more than 8,000 passport acceptance facilities domestically; the adjudication of visa applications; the prevention and detection of fraud involving visas and passports; and the Department's information technology programs. Together with the Department of Homeland Security, the Department of Justice, the Intelligence Community, Department of the Treasury, and the law enforcement community, the Department has built a layered visa and border security screening system that rests on training, technological advances, biometric innovations and expanded data sharing.

This appropriation provides funding to the Bureau of Educational and Cultural Affairs (ECA) for international exchange programs authorized by the Mutual Educational and Cultural Exchange Act of 1961, as amended, to support U.S. foreign, economic, security policy objectives and to advance U.S. influence overseas. These goals are addressed by building increased mutual understanding through international exchange and professional development activities. Beginning in FY 2020, resources in this appropriation also support the conduct of a select group of international information programs of the United States previously reflected in the Diplomatic Programs appropriation (American Spaces, U.S. Speakers and TechCamp programs). Additional programs under this appropriation include:

Academic Programs.—Includes the J. William Fulbright Educational Exchange Program, which provides U.S. and foreign students, teachers, scholars, and administrators the opportunity to pursue degrees, teach, and conduct research in foreign and U.S. universities. Academic Programs also include English language programming and educational advising services. English language programs help train and develop foreign teachers of English, send Americans overseas to teach English and train instructors, teach English to disadvantaged students, and provide language learning materials and resources. Educational advising programming supports outreach to foreign students across the world to assist in the process of applying to U.S. universities. Additional academic programs such as the Benjamin A. Gilman International Scholarship Program provide opportunities for American participants with financial needs to study abroad.

Professional/Cultural Exchanges.—Includes exchanges linking U.S. and foreign participants in multiple fields directly tied to U.S. foreign policy

goals. The International Visitor Leadership Program brings thousands of foreign leaders to the United States for intensive short-term professional exchanges to meet and confer with their American counterparts, gaining first-hand knowledge about U.S. society, culture and democratic values. Citizen Exchanges Program participants partner with an extensive network of organizations and experts from across the United States to conduct professional fellowships as well as arts, sports, and high school exchange programs focused on current and future leaders.

Youth Leadership Initiatives.—Includes programs targeting young private, public, and civil sector leaders in Africa, Southeast Asia, and the Americas.

Program and Performance.—Provides resources and opportunities to ECA exchange program alumni to build on participant exchange experience, developing growing and active alumni association networks. Funds also support on-going program performance measurement and independent evaluations.

Exchanges Support.—Includes all domestic staff, overseas Regional Language Officers and support costs managed by ECA; as well as government-wide exchanges coordination.

In addition, OBO is responsible for establishing standards and policies for overseas housing, developing, in conjunction with posts, effective maintenance programs for post facilities, and monitoring and reporting the inventory of maintenance and backlog requirements. OBO also ensures the safety of the building occupants through the development of fire/life safety and accessibility compliance programs.

In 2021, the Department will manage the seventeenth year of the Capital Security Cost Sharing (CSCS) Program. This program has two main goals: accelerating the construction of new safe, secure and functional embassy and consulate compounds, and providing an incentive for all United States Government agencies to right-size their presence overseas through the use of cost-sharing. The \$2.2 billion program is consistent with the Benghazi Accountability Review Board's recommended funding level for the construction of new secure facilities overseas. Funding sources include ESCM appropriations, interagency contributions, and consular fee revenues.

The 2021 request continues the Maintenance Cost Sharing (MCS) Program to provide critically needed renovation, construction and repair of overseas facilities, to provide adequate working conditions for multi-agency staffs, and protect the U.S. taxpayer investment. MCS and CSCS are funded within a combined \$2.2 billion program in FY 2021.

The objective of the Asset Management Program is to obtain the best use of diplomatic and consular properties overseas through sale of surplus or underutilized properties and reinvestment of the proceeds in properties that provide a greater return to the U.S. Government and/or improve the safety of mission personnel. In lieu of appropriated resources, OBO uses asset sales proceeds for long-term capital investment to minimize the growth of U.S. Government leasehold requirements (through property acquisition) or to address a high-priority need for new construction or fit-out of leased space.

This appropriation also provides for capital expenditures necessary to preserve, maintain, repair, and plan for buildings owned or leased by the Department of State overseas.

The current appropriation finances any unfunded liability created by new or liberalized benefits, new groups of beneficiaries, and salary increases. The 2021 permanent appropriation provides a supplemental payment to the fund for disbursements attributable to the Foreign Service Pension System; and unfunded interest along with liability from military service for the Foreign Service Retirement and Disability System. In addition, the appropriation also finances the annual balance of the Foreign Service normal cost not met by employee and employer contributions. The amount of the appropriation is determined by the annual evaluation of the Fund balance derived from current statistical actuarial data, which includes inflationary cost-of-living adjustments.

The Foreign Service National Defined Contributions Fund (FSNDCF) is an after-employment benefit plan for Locally Employed Staff (LE Staff) working for the Department of State and other Foreign Affairs agencies. The purpose of the fund is to accumulate and distribute U.S. Government (USG)-funded contributions for end-of-service benefits for LE Staff in countries where U.S. missions have determined that participation in the local social security system (LSSS) is not in the public interest of the USG. The Department determines which countries are eligible to participate in the fund. Upon separation, payments under this Plan shall be made consistent with the host country law, including any court order affecting payments to participants, unless decided otherwise by the Department.

This fund, which is available without fiscal year limitations, is authorized by sections 13 and 23 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2684), finances on a reimbursable basis certain administrative services, such as printing and reproduction, editorial material, motor pool, operations and dispatch agencies operations, inter-agency cooperative administrative support services, acquisition services, information technology support, medical services, aviation services, special issuance passport services, and expenses of carrying out the Foreign Missions Act, including any acquisitions of property under the authority of the Foreign Missions Act.

The International Cooperative Administrative Support Services (ICASS) program was fully implemented in 1998 using the Working Capital Fund. ICASS allows more decision-making and managerial participation by all participating agencies, more equitable cost distribution, and incentives for efficient provision of services. Under ICASS, each agency represented at an overseas post chooses the services it wishes to receive and pays a proportional share of the cost of those services. Working through inter-agency councils at each overseas post, all agencies have a say in determining post administrative budgets and defining service standards, as well as reviewing costs and vendor performance.

The Foreign Service Retirement and Disability Fund (FSRDF) was established in 1924 to provide pensions to retired and disabled members of the Foreign Service. The FSRDF's revenues consist of contributions from active participants and their U.S. Government agency employers; appropriations; and interest on investments. Monthly annuity payments are made to eligible retired employees or their survivors. The FSRDF includes the operations of two separate retirement systems—the Foreign Service Retirement and Disability System (FSRDS) and the Foreign Service Pension System (FSPS). This appropriation provides mandatory funding for the Foreign Service Retirement and Disability Fund (FSRDF) as prescribed in the Foreign Service Act of 1980 as authorized in Section(s) 821 and 822.

Pursuant to treaties between the United States and Mexico and U.S. law, the U.S. Section of the International Boundary and Water Commission (IBWC) is charged with the identification and resolution of current and anticipated boundary and water problems arising along the almost 2,000-mile common border, including the southern borders of Texas, New Mexico, Arizona, and California. Administration, Engineering, and Operations and Maintenance activities are also funded by the Salaries and Expenses appropriation.

Administration.—Resources provide for negotiations and supervision of joint projects with Mexico to resolve international boundary, water, and environmental problems; overall control of the operation of the U.S. section of the Commission; formulation of operating policies and procedures; and financial management and administrative services to carry out international obligations of the United States, pursuant to treaty and congressional authorization.

Engineering.—Resources provide for technical engineering guidance and supervision of planning, construction, operation and maintenance, and environmental monitoring and compliance of international projects; studies relating to international problems of a continuing nature; and preliminary surveys and investigations to determine the need for and feasibility of projects for the resolution of international problems arising along the boundary.

Operation and Maintenance (O&M).—This activity finances the measurement and determination of the national ownership of boundary waters and the distribution thereof, as well as the U.S. part of the operations and maintenance of sanitation facilities, river channel and levee projects, flood control dams and hydroelectric power, gauging stations, water quality control projects and boundary demarcation, monuments, and markers. Reimbursements are received from Mexico for O&M costs of the South Bay and Nogales International Wastewater Treatment Plants as well as from the City of Nogales for O&M costs at Nogales. Other reimbursements are received from the Western Area Power Administration, U.S. Department of Energy, for O&M and capital costs of hydroelectric generation at Falcon and Amistad International Dams.

The Global Health Programs account funds health-related foreign assistance for the Department of State (DOS) and the U.S. Agency for International Development (USAID). Global health programs seek to improve health outcomes by increasing impact through strategic integration and coordination; strengthening and leveraging multilateral institutions; encouraging country ownership and investing in country-led plans; building sustainability through health systems strengthening; improving metrics, monitoring and evaluation; and promoting research, development and innovation.

Global Health Programs-State.—The Global Health Programs (GHP-State) account supports the goal of controlling the HIV/AIDS epidemic through the President's Emergency Plan for AIDS Relief (PEPFAR). The 2021 Budget requests \$3,837.9 million in the GHP-State account. PEPFAR is led by the Office of the Global AIDS Coordinator in DOS, which draws upon the expertise and experience of other U.S. government partners such as USAID, the Department of Health and Human Services, the Department of Defense, and the Peace Corps to align resources and expertise in the fight against global AIDS. Programs work through expanded partnerships to build capacity for effective, innovative, country-led, and sustainable services, and to create a supportive and enabling policy environment for combating HIV/AIDS, including as part of the broader USG and country-level health and development approach. In addition, PEPFAR supports implementation of strong monitoring and evaluation systems to set benchmarks for outcomes and programmatic efficiencies through regularly assessed planning and reporting processes to ensure goals are being met. PEPFAR programs support strategic, scientifically sound investments to rapidly scale up core HIV/AIDS prevention, care, and treatment interventions within the context of strengthened health systems, particularly in terms of human resources in nations with severe health worker shortages and lack of service delivery capacity. PEPFAR integrates its efforts with important programs in other areas of global health as well as other areas of development, including the areas of education, gender equity, and economic development. A contribution of \$657.6 million to the Global Fund to Fight AIDS, Tuberculosis and Malaria is included in the GHP-State request to support the U.S. pledge of up to \$3.3 billion for the Global Fund's sixth replenishment (2020–2022), combined with previously appropriated funds. The Budget offers to match \$1 for every \$3 contributed by other donors.

Global Health Programs-USAID.—The 2021 Budget requests \$2,160.1 million in the GHP-USAID account for a comprehensive and integrated approach to improve global health outcomes. USAID, working in partnership with foreign governments, local private sector and non-governmental organizations, and other public-private partnerships, will build capacity, strengthen health systems, and promote sustainable integrated health care for vulnerable populations. Funding includes activities that support the goal of ending preventable child deaths, in synergy with activities to combat malaria, address family planning and reproductive health, and support nutrition activities addressing such issues as micronutrient deficiencies and community management of acute malnutrition. Activities will also address the threat of other infectious diseases such as tuberculosis and multi-drug resistant tuberculosis, neglected tropical diseases in developing countries, and pandemic disease outbreaks. The Budget also provides \$290 million to support a multi-year (2020–2023), \$1.16 billion contribution to Gavi, the Vaccine Alliance.

Funds requested in the Migration and Refugee Assistance (MRA) account will be used to support:

Humanitarian Migrants to Israel.—These funds assist humanitarian migrants resettling in Israel.

U.S. Refugee Admissions.—MRA funds overseas processing, transportation, and initial placement for refugees and certain other categories of special immigrants resettling in the United States. These activities are carried out primarily by NGO partners and the International Organization for Migration (IOM).

Administrative Expenses.—These funds finance the salaries and operating expenses for the Bureau of Population, Refugees, and Migration in Washington, D.C. and overseas. (Note: Funds for the salaries and support costs of the positions dedicated to international population policy and coordination are requested under the Department of State's Diplomatic Programs appropriation.)

In past years, the majority of the MRA account addressed the protection and assistance needs of refugees, conflict victims, stateless persons, and vulnerable migrants worldwide. Funds primarily supported the programs of international organizations, including the United Nations High Commissioner for Refugees (UNHCR), the International Committee of the Red Cross (ICRC), and IOM, as well as non-governmental organizations (NGOs).

As part of an Administration effort to optimize humanitarian assistance, prioritize funding, and use funding as effectively and efficiently as possible, there is no request in MRA for overseas humanitarian assistance needs. Instead, these funds along with funds previously requested in International Disaster Assistance (IDA) account are consolidated in the new International Humanitarian Assistance (IHA) account.

MIGRATION AND REFUGEE ASSISTANCE—Continued

Funds in IHA will support all aspects of overseas humanitarian assistance, including shelter, protection, emergency health and nutrition, the provision of safe drinking water, livelihoods supports, emergency food interventions, rehabilitation, disaster risk reduction, and transition to development assistance programs and will support the programs of international organizations, including UNHCR, ICRC, and IOM, the World Food Program (WFP), the UN Office for the Coordination of Humanitarian Affairs (OCHA), as well as non-governmental organizations (NGOs).

In addition, appropriations language under the MRA account gives the Secretary of State authority to transfer funding from IHA to MRA should projected funding for refugee resettlement not be sufficient.

International Narcotics Control and Law Enforcement (INCLE) advances U.S. national security interests by supporting bilateral, regional, and global programs that enable partners and allies to manage and address transnational threats at their source. INCLE programs mitigate security threats posed by all forms of transnational crime, including production and trafficking of narcotics, and strengthen partner countries' criminal justice systems. These programs improve the ability of partner countries to cooperate effectively with U.S. law enforcement, and address the underlying conditions, such as corruption and weak rule of law, that foster state fragility and spur irregular migration to the United States. The 2021 INCLE budget supports Administration policy priorities, including efforts to protect the safety of the United States and its citizens by combating transnational crime and illicit trafficking, in alignment with Executive Order 13773, Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking, and the President's Initiative to Stop Opioid Abuse and Reduce Drug Supply and Demand.

Established by the Millennium Challenge Act of 2003, the Millennium Challenge Corporation (MCC) has the statutory goal of providing assistance to the poorest countries in the world to promote economic growth, eliminate extreme poverty, and strengthen good governance, economic freedom, and investments in people. Since its inception, MCC has signed 37 compacts and 28 threshold program agreements, valued to date at \$13.4 billion. These investments help foster stability through economic growth and poverty reduction in partner countries. MCC encourages policy reforms by working with only those countries that have created the conditions for growth by ruling justly, investing in their people, and committing to economic freedom, with a particular emphasis on fighting corruption and maintaining democratic rights. Countries develop their poverty reduction proposals in broad consultation with their own civil society and MCC. MCC's evidence-based approach leads to compacts that specifically define the implementation responsibilities of partner countries, including financial accountability and transparent and fair procurement practices, and require measurable results to ensure that MCC assistance is used responsibly and effectively.

Programs funded through the Economic Support Fund (ESF) account help foster stable, resilient, prosperous, inclusive, and self-reliant countries of strategic importance to meet their near and long-term political, economic, development, and security needs. The 2021 Budget consolidates the ESF; Development Assistance (DA); Assistance for Europe, Eurasia and Central Asia (AEECA); and Democracy Fund (DF) accounts into the Economic Support and Development Fund (ESDF) account. This integration will streamline accounts and ensure the most effective use of foreign assistance funding. The 2021 Budget prioritizes and focuses foreign assistance in regions and on programs that advance our national security and protect the American people, promote U.S. prosperity and economic opportunities, and advance American interests and values around the world, while also continuing to ensure efficiency, effectiveness, and accountability to the U.S. taxpayer.

The Global Security Contingency Fund (GSCF) permits the Department of State and the Department of Defense to combine resources and expertise to address emergent challenges and opportunities. The GSCF can be used to provide military and other security sector assistance to enhance a country's national-level military or other security forces' capabilities to conduct border and maritime security, internal defense, and counterterrorism operations, or to participate in or support military, stability, or peace support operations, consistent with U.S. foreign policy and national security interests. The GSCF can also be used to provide assistance to the justice sector (including law enforcement and prisons), rule of law programs, and stabilization efforts in cases where civilian providers are challenged in their ability to operate. Assistance programs under this account are collaboratively developed by the Department of State and the Department of Defense. The fund allows direct contributions from each Department to be transferred into the fund for implementation by the most appropriate agency in a given situation, be it State, Defense, the U.S. Agency for International Development, or others. No direct funding is requested in 2021.

The Foreign Military Loan Liquidating Account records all cash flows to and from the Government resulting from direct loans obligated and loan guarantees for foreign military financing committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act (FCRA) provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new foreign military financing credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

As required by the Federal Credit Reform Act of 1990, the Military Debt Reduction Financing (MDRF) Account is a non-budgetary financing account that records all cash flows to and from the Government resulting from restructuring foreign military loans. The amounts in this account are a means of financing and are not included in budget totals. It is an account established for the debt relief of certain countries as established by Public Law 103-87, Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1994, Section 11, Special Debt Relief for the Poorest, Most Heavily Indebted Countries. The MDRF buys a portfolio of loans from the Foreign Military Loan Liquidating Account, thus transferring the loans from the Liquidating Account to the MDRF Account.

The FY 2021 Budget requests \$206.5 million towards the second of up to six installments under the current International Bank for Reconstruction and Development's (IBRD) capital increase.

IBRD is the arm of the World Bank that provides financing to credit-worthy lower middle and middle-income countries to promote inclusive economic growth and reduce poverty. These countries—home to over 70

percent of the world's poor—rely on the IBRD for financial resources and strategic advice to meet their development needs. Working across a range of sectors, including governance, agriculture, sustainable infrastructure, health and nutrition, and education, the IBRD supports long-term human and social development needs that private creditors generally do not finance. During its 2019 fiscal year (July 1, 2018 to June 30, 2019), the IBRD approved \$23.1 billion in loans and technical assistance. Latin America and the Caribbean received the largest portion of the IBRD's lending (24.6 percent), followed by the Middle East and North Africa (21.0 percent). The United States is the largest shareholder in the IBRD, with a 15.45 percent share of total voting power, followed by Japan and China. The United States is the only country with veto power over amendments to the Articles of Agreement.

Global Environment Facility

The Global Environment Facility (GEF) is one of the largest dedicated funders of projects to improve the global environment, providing grants to address issues related to conservation, including wildlife trafficking, overfishing, land degradation, marine litter, chemical pollution and other environmental concerns. The GEF benefits the U.S. economy and environment by addressing many external environmental problems that affect our domestic health, safety, and prosperity. The seventh replenishment of GEF (GEF-7) began on July 1, 2018 and will conclude on June 30, 2022. No funding is requested for the GEF in 2021 since FY 2019 and FY 2020 appropriations placed the United States on track to meet its GEF-7 funding pledge.

International Finance Corporation

The International Finance Corporation (IFC) is the private sector focused part of the World Bank Group. Established in 1956, it promotes private sector development in developing countries by making loans and equity investments in private sector projects, mobilizing private capital alongside its own resources, and providing advisory and technical assistance services. In its 2019 fiscal year, the IFC approved \$8.9 billion from its own resources, and mobilized an additional \$10.2 billion from other sources, for 269 projects in 65 countries. Of this, \$5 billion (26%) was invested in the poorest countries (those eligible for funding from the World Bank's IDA). By 2030, IFC is aiming to raise the percentage of new investments in the poorest countries and those experiencing conflict and fragility to 40% of its portfolio. IFC made investments across the globe in 2019, with the largest recipient regions being Latin America and the Caribbean (32.5 percent), Sub-Saharan Africa (20.9 percent), East Asia and the Pacific (18.8 percent), and South Asia (15.7 percent). The top sectors for IFC investment in 2019 were financial markets (56.3 percent), infrastructure (11.8 percent), and agribusiness and forestry (5.6 percent). The IFC spent \$295 million on advisory services in 2019, with sub-Saharan Africa receiving \$96.5 million (33 percent). No funding is requested for the IFC in 2021, but the FY 2021 Budget requests authorization to vote in favor of four IFC Board resolutions to allow other shareholders to contribute additional capital while preserving U.S. veto power over future capital increases.

The FY 2021 Budget requests \$1,001.4 million for the International Development Association (IDA) in support of IDA programs over the nineteenth replenishment (IDA-19, FY 2021-FY 2023), including towards the first of three installments to IDA-19.

IDA is the part of the World Bank that supports the growth and development of the world's 74 poorest countries. IDA works across a wide range of sectors including education, health, clean water and sanitation, the environment, infrastructure, agriculture, and governance. Because countries receiving IDA financing are too poor to attract sufficient capital to support their significant development needs, they depend on concessional finance—low-cost loans and grants—to create jobs, build critical infrastructure, improve governance and public service delivery, increase agricultural productivity, increase access to energy, improve job creation and the business environment, and invest in the health and education of future generations. IDA's goal is to help countries reduce poverty and achieve higher levels of growth and institutional capacity. Over time, IDA's support helps countries finance their development needs through domestic revenues and borrowing at non-concessional rates, including through international markets. During the World Bank's 2019 fiscal year (July 1, 2018, to June 30, 2019), IDA supported 268 projects totaling \$22.3 billion, of which, just under two-thirds (\$14.1 billion) went to countries in Africa. Countries in the South Asia region received the second largest amount (\$4.8 billion).

Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the African Development Bank. Countries receive MDRI benefits after completing the reforms under the Heavily Indebted Poor Countries (HIPC) Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. In accordance with the MDRI, donors compensate IDA for the cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. IDA calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Each donor's commitments to MDRI at IDA must be met within the three-year replenishment period to avoid a negative impact on IDA's financial capacity. The U.S. share of the cost of MDRI under IDA-19 (FY 2021-FY 2023) is \$878.8 million. No funding is requested for IDA MDRI in 2021.

The Inter-American Development Bank (IDB) is the largest source of development financing for 26 countries in Latin America and the Caribbean, a strategically significant and economically important region for the United States where 73 million people live in poverty. The IDB works in a range of sectors and commits roughly half of its funding to support infrastructure through projects in water and sanitation, transportation and energy. The other half is split between capacity building, including reform of government operations and financial markets, and social sectors, including social investment, health, and education. The United States is the largest shareholder in the IDB, with 30 percent of total shareholding, enabling the United States to wield significant influence over major decisions about the direction of the IDB. No new funding is requested for IDB in 2021.

Inter-American Investment Corporation

The Inter-American Investment Corporation (IIC), a member of the Inter-American Development Bank Group established in 1984, promotes development of the private sector in Latin America and the Caribbean. It is a legally autonomous entity whose resources and management are separate from those of the IDB itself. In 2017, the IIC implemented organizational and operational reforms stemming from the 2016 consolidation of the IDB's private sector financing activities into the IIC. As a result of this consolidation, the IIC's mandate has expanded from a focus on small- and medium-sized enterprises to include financing for private infrastructure and corporate entities. No funding is requested for the IIC in 2021.

Asian Development Bank

The Asian Development Bank (AsDB) promotes broad-based sustainable economic growth and development, poverty alleviation, and regional cooperation and integration in the Asia-Pacific region. It has two main financing windows: 1) the Asian Development Bank's Ordinary Capital Resources (OCR), which provides "hard loans" at market rates and "soft loans" to eligible countries at concessional rates; and 2) the Asian Development Fund (AsDF), which provides grants to the region's poorest countries that are at moderate or high risk of debt distress. Prior to January 2017, when AsDF's equity and lending operations were merged with AsDB's OCR, the AsDF also provided concessional loans.

The AsDB provides long-term loans at market-based rates to 22 middle-income Asian countries that lack the resources to finance their national economies and build critical infrastructure. AsDB also supports private sector development with technical assistance, loans, guarantees, and direct equity investments in viable private sector projects with strong development impacts. In 2018, AsDB approved \$18.3 billion for projects and leveraged another \$13.7 billion in co-financing from official and commercial sources. Through its lending, AsDB supports the construction of critical infrastructure, the expansion of private enterprise, and sustainable economic growth. The majority of AsDB assistance is for investments in energy, transportation, agriculture and natural resources, public sector management, water supply, municipal infrastructure, finance, and education. AsDB is financed through capital contributions from donors, income earned on its loan and investment portfolios and bond issuances. No funding is requested for AsDB in 2021.

Asian Development Fund

The FY 2021 Budget requests \$47.4 million in support of Asian Development Fund (AsDF) programs over the eleventh replenishment (AsDF-12; FY 2018-FY 2021), including towards the fourth and final installment to AsDF-12.

AsDF currently provides grants to 17 of the poorest countries in Asia and the Pacific that face moderate or high risk of debt distress, including Afghanistan. It focuses on supporting inclusive, sustainable economic growth, as well as regional cooperation and integration. AsDF projects support water, energy, transportation, infrastructure, financial sector deepening, agriculture, and health. AsDF also invests in cross-cutting

activities, such as connecting entrepreneurial training with financing for small and medium-sized enterprises. In 2018, AsDF committed \$1.4 billion in grants for AsDF-eligible countries. Cumulatively, AsDF has provided over \$51 billion for projects in developing member countries since 1974. As a result of the merger of AsDF's lending assets into AsDB's OCR on January 1, 2017, AsDF now provides only grants. In recent years, the United States has focused attention within AsDF on countries where support aligns with U.S. strategic interests, such as Afghanistan and the Pacific Island Countries.

The African Development Bank Group comprises 1) the African Development Bank (AfDB), which lends at market-linked rates to middle-income African countries and Africa's private-sector; and 2) the African Development Fund (AfDF), which provides grants and concessional loans to the poorest African countries. The AfDF account includes a portion of the U.S. commitment to the Multilateral Debt Relief Initiative (MDRI).

African Development Bank

The FY 2021 Budget requests \$54.6 million for the first of eight equal installments for the seventh general capital increase of the AfDB. The FY 2021 Budget also requests authorization to subscribe to the paid-in and callable capital shares allotted to the United States under the capital increase. The AfDB provides public sector financing at market-linked rates to 20 middle-income African countries, and provides loans, equity investments, lines of credit, and guarantees to support private sector investments in all 54 African member countries. The AfDB approved \$7.0 billion in loans in 2019, 70 percent of which were for public sector projects and 30

percent for private sector projects. In 2019, approximately 48 percent of AfDB approvals were for infrastructure, primarily energy and transportation. Other key sectors include finance, agriculture, and governance. The United States is the largest non-regional shareholder of the AfDB, with 6.4 percent of total shareholding, and the second-largest shareholder after Nigeria.

African Development Fund

The FY 2021 Budget requests \$171.3 million in support of AfDF programs over the fifteenth replenishment (AfDF-15; FY 2021-FY 2023), including towards the first of three installments to AfDF-15.

The AfDF is the AfDB Group's concessional lending window, providing grants and highly concessional loans to the poorest countries in Africa, of which half are fragile or conflict-affected states. In 2019, the AfDF provided \$2.1 billion in financing, technical assistance, and capacity-building activities to the 37 eligible countries. Many AfDF recipient countries are becoming new, emerging markets and growing U.S. trading partners. Other AfDF recipient countries, however, remain trapped in fragility, conflict, and poverty. They are highly vulnerable to both internal and external shocks and are in need of special assistance to achieve basic levels of service delivery. The AfDF is one of the largest official financiers of infrastructure in Sub-Saharan Africa, committing approximately 60 percent of its funding to national and regional infrastructure projects in sectors such as energy, transportation, and water and sanitation. The remainder of its funding is devoted to governance, agriculture and food security, and human capital development (e.g., health and education). The AfDF also sets aside special funding for regional projects and fragile and transitioning states. In total, approximately half of its resources are directed to fragile states.

Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the AfDB. Countries receive MDRI benefits after completing the reforms under the HIPC Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. In accordance with the MDRI donors compensate AfDF for cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. Similar to IDA, AfDF calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Donor commitments must be met within the three-year replenishment period to avoid a negative impact on the AfDF's commitment capacity. The U.S. share of the cost of MDRI under AfDF-15 (FY 2021-FY 2023) is \$68.0 million. No funding is requested for AfDF MDRI in 2021.

The North American Development Bank (NADB) finances infrastructure projects that help preserve, protect, and enhance the environment of the U.S.-Mexico border region in order to advance the well-being of people in both the United States and Mexico. NADB provides funding for projects to benefit communities on both sides of the border. Eligible projects must be located within 100 kilometers of the border on the U.S. side and 300 kilometers on the Mexican side. NADB provides loans and grants to both private sponsors and to municipalities and public utilities. Under its charter the United States and Mexico contribute equally to NADB's capital. The FY 2021 Budget requests authority to subscribe to additional callable capital but does not request an appropriation for paid-in capital.

Pursuant to the Office of Technical Assistance's (OTA) authorizing statute, OTA provides technical assistance to facilitate the implementation of policy, management, and administrative reforms in the areas of budget, revenue, government debt, financial institutions and financial enforcement to developing and transition countries. This assistance supports U.S. foreign policy and national security objectives.

The 2021 Budget includes \$33 million to fund full-time resident technical assistance advisors, intermittent advisors, program-related administrative costs, and enhanced monitoring and evaluation. The appropriation will

support technical assistance programs in Asia, the Middle East, Africa, Latin America, the Caribbean, and Europe. It will enable the provision of technical assistance to developing and transition countries to strengthen the capacity of finance ministries, central banks, and other government institutions to manage public finances and oversee the financial sector. Technical assistance projects support efficient revenue collection, well-planned and executed budgets, judicious debt management, sound banking systems, and strong controls to combat corruption and economic crimes, including terrorist financing. The appropriation will also support Treasury's work to strengthen the financial underpinnings for infrastructure development. OTA will continue to coordinate its activities with the Department of State, USAID, and other relevant U.S. Government agencies as well as international financial institutions and other bilateral donors when determining where its technical assistance program can have the greatest positive impact.

Debt relief and restructuring can be fundamental to helping countries stabilize their economies, restart economic growth, and alleviate poverty and instability. Through the Paris Club and programs such as the Heavily Indebted Poor Countries (HIPC) Initiative, countries that have demonstrated a commitment to economic reforms can benefit from debt restructuring. These programs have provided authority and appropriations to reschedule and/or reduce debt repayments to the U.S. Government, allowing beneficiary countries to increase poverty reduction expenditures in areas such as health, education, and rural development. Debt relief can also contribute to achieving other U.S. Government policy priorities. The FY 2021 Budget requests \$78 million for Treasury's Debt Restructuring account to pay for the cost of the United States' Paris Club debt relief funding for Somalia as part of HIPC, in the event that Somalia meets the conditions specified for debt relief by U.S. law and the HIPC Initiative and consistent with U.S. foreign policy considerations.

Development Assistance Programs.—The Development Assistance (DA) account invests in partnerships that support countries' journey to self-reliance to plan, finance, and implement solutions to their own development challenges, to end extreme poverty, and promote resilient, democratic societies around the world. In an effort to streamline accounts and ensure the most effective use of foreign assistance funding, the 2021 Budget consolidates the DA; Economic Support Fund (ESF); Assistance for Europe, Eurasia and Central Asia (AEECA); and Democracy Fund (DF) accounts into the Economic Support and Development Fund account. The 2021 Budget focuses foreign assistance in regions and on sectors that advance our national security and protect the American people, promote U.S. prosperity and economic opportunities, and advance American interests and values around the world, while continuing to support key strategic partners and allies and ensuring efficiency, effectiveness, and accountability to the U.S. taxpayer.

Prior to 2008, funds were appropriated to the Child Survival and Health Programs account to support activities that address family planning/reproductive health; child survival and maternal health, including activities directed at vulnerable children and the primary causes of morbidity and mortality, polio, micronutrients and iodine deficiency; preventing and treating infectious diseases such as malaria and tuberculosis; and reducing HIV transmission and the impact of the HIV/AIDS pandemic in developing countries. Additional funding for HIV/AIDS was appropriated in the Global HIV/AIDS Initiative account for this purpose through 2007. Beginning in 2008, funds for these activities were appropriated in the Global Health and Child Survival (now Global Health Programs) account, and will continue to be requested in that account.

The purpose of the Assistance for Europe, Eurasia and Central Asia (AEECA) account was to support programs to foster the democratic and economic transitions of the countries of Southeastern Europe and the independent states that emerged from the dissolution of the Soviet Union, as well as related efforts to address social sector reform and combat transnational threats in these countries. From 2013 through 2015, funding for the programs formerly funded through AEECA were included in the Economic

Support Fund (ESF), International Narcotics Control and Law Enforcement (INCLE), and Global Health Programs (GHP) accounts. In 2016, Congress reinstated the AEECA account for those programs funded with ESF and INCLE; however, the 2018, 2019, 2020, and 2021 requests propose funding all of these programs through the Economic Support and Development Fund, INCLE, and GHP accounts.

In previous years, the International Disaster Assistance (IDA) account provided funds to save lives, reduce human suffering, and mitigate and prepare for natural and complex emergencies overseas. As conflict-based crises increase and force multiple displacements of populations within and outside their national borders, the 2021 Budget seeks to optimize humanitarian assistance, prioritize funding, and use funding as effectively and efficiently as possible, including through consolidating all overseas humanitarian assistance in a single account that can respond flexibly as crises evolve. Accordingly, the Budget consolidates overseas humanitarian assistance management, programming, implementation, and oversight of all implementers into the new International Humanitarian Assistance (IHA) account, including funds formerly requested in IDA and funds for overseas assistance formerly requested in the Migration and Refugee Assistance (MRA) account.

Funds in IHA will support all aspects of overseas humanitarian assistance, including shelter, protection, emergency health and nutrition, the provision of safe drinking water, livelihoods supports, emergency food interventions, rehabilitation, disaster risk reduction, and transition to development assistance programs and will support the programs of international organizations, including the United Nations High Commissioner for Refugees (UNHCR), the International Committee of the Red Cross (ICRC), and the International Organization for Migration (IOM), the World Food Program (WFP), the UN Office for the Coordination of Humanitarian Affairs (OCHA), as well as non-governmental organizations (NGOs).

The 2021 request also continues to propose eliminating funding for the inefficient food aid in the P.L. 480 Title II account. IHA will ensure that all food assistance programs are appropriate to local needs and will increase overall effectiveness.

The Transition Initiatives (TI) account addresses opportunities and challenges facing conflict-prone countries and those countries making the transition from the initial crisis stage of a complex emergency to sustainable development and democracy. Programs are focused on advancing peace and stability, including promoting the responsiveness of central governments to local needs, increasing civic participation, raising awareness of national issues through media, addressing the underlying causes of instability, and supporting conflict resolution measures. Recent country examples where TI funds were used include Bosnia, Columbia, Ethiopia, and Libya.

TI funding has provided core operational funds for the Office of Transition Initiatives within the U.S. Agency for International Development (USAID) Bureau for Democracy, Conflict, and Humanitarian Assistance. Given the planned USAID reorganization, the 2021 request will support the Office of

Transition Initiatives within the new USAID Bureau for Conflict Prevention and Stabilization.

The Fund, authorized by section 635(m) of the Foreign Assistance Act of 1961, finances on a reimbursable basis the costs associated with providing administrative support to other agencies under the International Cooperative Administrative Support Services (ICASS) program overseas. Under ICASS, each agency pays a proportional share of the cost of those services they have agreed to receive. Working through inter-agency councils at post, all agencies have a say in determining which services the USAID mission will provide, defining service standards, reviewing costs, and determining funding levels. The Fund is also used for deposit of rebates from the use of Federal credit cards, the deposits then being made available for start-up costs at new ICASS service-provider missions and technical support to missions currently providing services.

As required by the Federal Credit Reform Act of 1990, this account recorded, for the Development Credit Authority (DCA), the subsidy costs associated with direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program and legacy USAID credit programs. The subsidy amounts are estimated on a net present value basis; the administrative expenses are estimated on a cash basis.

In 2020, per the modernizations and other reforms included in the Better Utilization of Investments Leading to Development Act of 2018, DCA will be consolidated with other development finance functions, such as the Overseas Private Investment Corporation, into the new U.S. International Development Finance Corporation (DFC). All FY 2020 and future DCA activities are presented in the DFC accounts.

On October 5, 2018, the President signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020.

The Overseas Private Investment Corporation (OPIC) encouraged the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its primary noncredit program was political risk insurance against losses due to expropriation, inconvertibility, and damage due to political violence.

On October 5, 2018, the President signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into

a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020. All FY 2020 and future OPIC activity will be presented in the DFC accounts.

OPIC encouraged the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its credit program provided investment financing through loans and guaranteed loans. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Budget proposes to eliminate funding for several independent Agencies, including for the U.S. Trade and Development Agency (USTDA), as part of the Administration's continued effort to move the Nation towards fiscal responsibility, to redefine the proper role of the Federal Government, to prioritize rebuilding the military and to make critical investments in the Nation's security. The United States has several other Agencies that will continue to promote exports, support American businesses overseas, and

facilitate international infrastructure development. These include the U.S. Export-Import Bank, the U.S. Department of Commerce, the U.S. International Development Finance Corporation, and the U.S. Agency for International Development. The Budget requests \$12.1 million to conduct an orderly closeout of the Agency beginning in 2021, which includes funding for personnel costs, including severance payments and salaries for essential personnel during the closeout; rental payments; and other costs related to termination.

On October 5, 2018, President Donald J. Trump signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020. The DFC will mobilize and facilitate the participation of private sector capital and skills in the economic development of less developed countries. This facilitation of private sector investment will have a positive developmental impact through transactions the private sector would not do on its own. All future DFC insurance and equity activities are presented in the DFC Corporate Capital Account.

On October 5, 2018, President Donald J. Trump signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications and cost re-estimates of direct loans or loan guarantees that resulted from obligations or commitments in any year). The subsidy amounts are estimated on a present value basis.

The Peace Corps also promotes mutual understanding between the peoples of the developing world and the United States and focuses the attention of the American people on the benefits of community service. Peace Corps Volunteers work primarily in the areas of agriculture, community economic development, education, environment, health and HIV/AIDS, and youth in development.

This account transfers funds to the operating expense account for the Peace Corps to finance upward adjustments of recorded obligations because of foreign currency fluctuations. Transfers are made as needed to meet disbursement requirements in excess of funds otherwise available for obligation adjustment. Net gains resulting from favorable exchange rates are returned to this account and are available for subsequent transfer when needed. The account is replenished through the utilization of a special transfer authority that allows the Peace Corps to withdraw unobligated balances from the operating expenses account from prior years as long as the authorized limit of \$5 million is not exceeded at the time of the transfer.

In order to streamline the panoply of international affairs agencies operating today, the Budget proposes consolidating small grants functions and assistance aimed at reaching poor and remote communities that is currently carried out by the Inter-American Foundation (IAF) into the U.S. Agency for International Development (USAID) in FY 2021. To facilitate the consolidation, the Budget requests funding to conduct an orderly closeout of IAF beginning in fiscal year 2021, which includes sufficient funding for severance payments for duplicative functions not merged into USAID and other miscellaneous requirements for an orderly shutdown.

In order to streamline the panoply of international affairs agencies operating today, the Budget proposes consolidating small grants functions and assistance aimed at reaching poor and remote communities that is currently carried out by the U.S. African Development Foundation (ADF) into the U.S. Agency for International Development (USAID) in FY 2021. To facilitate the consolidation, the Budget requests funding to conduct an orderly closeout of ADF beginning in fiscal year 2021, which includes sufficient funding for severance payments for duplicative functions not merged into USAID, lease termination fees, and other miscellaneous requirements for an orderly shutdown.

The United States mainly participates in the International Monetary Fund (IMF) through a quota subscription, denominated in Special Drawing Rights (SDRs). Under reforms to IMF quotas decided in 2010 and implemented by the IMF in early 2016 after Congress passed the necessary legislation ratifying the reforms, the U.S. quota at the IMF increased by SDR 40,871,800,000 (approximately \$58 billion using the current exchange

rate) to the U.S. quota in the IMF is presently SDR 82,994,200,000 (approximately \$115 billion using the current exchange rate). Quotas are the main metric used by the Fund to assign voting shares and to determine countries' contributions to quota contributions are the first line of resources to the IMF's general resources and access to IMF financing.

The use of the U.S. quota resources by at the IMF constitutes an exchange of monetary assets and does not result in budget outlays. When the United States transfers dollars or other reserve assets to the IMF under the U.S. quota subscription, the United States receives an equal, offsetting, and interest-bearing claim on the IMF, which is reflected as an increase in U.S. international monetary reserves. The U.S. reserve position in the IMF is readily available to meet a U.S. balance-of-payments financing need.

See the "Loans to International Monetary Fund" account for additional information about the 2020 IMF agreement.

In January 1997, the Executive Board of the IMF approved the creation of the New Arrangements to borrow (NAB), which is a standing arrangement among certain IMF members to supplement the IMF's quota resources as needed to forestall or cope with an impairment of the international monetary system or to deal with an exceptional situation that poses a threat to the stability of the system. The NAB became effective on November 17, 1998. It is now the second line of defense for IMF resources after a prior arrangement, the General Arrangements to Borrow (GAB), lapsed on December 25, 2018. The amounts authorized for the GAB were also authorized to be used for the NAB.

A total of 40 countries and institutions participate in the NAB for a total of SDR 181 billion (about \$250 billion), of which the current U.S. share is approximately SDR 28 billion (about \$38.5 billion). The NAB is currently not activated, meaning that at present the IMF is relying on quota resources for current financing.

In recent months, the United States joined other key countries and IMF leadership in advancing a package of actions to maintain overall IMF resources roughly at current levels in conjunction with reforms to IMF governance and lending, including substantive reforms to adjust IMF compensation and benefits in line with its role as a public institution. The United States successfully achieved its negotiating priorities during this process: (1) a decision to close the IMF's 15th review of quotas without changes to existing quota; (2) an agreement to maintain the IMF's overall lending resources by renewing and doubling the size of the NAB, while reducing by a similar amount the IMF's bilateral borrowing agreements, in which the United States does not participate; and (3) preservation of U.S. veto power over the IMF's sources of lending.

To implement the terms of the agreement, the Administration is seeking to double the current U.S. participation in the NAB to a total level of SDR 56,404,940,000 (approximately \$78 billion using the current exchange rate), and to extend the U.S. participation in the NAB through December 31, 2025. Currently, Congress has authorized the U.S. to participate in the NAB until December 16, 2022.

With respect to this account, resources provided by the United States under the NAB constitute an exchange of monetary assets and do not result in any budgetary outlays because such transactions result in an equivalent increase in U.S. international reserve assets in the form of an equal, offsetting, interest-bearing claim on the IMF. U.S. claims on the IMF under the

NAB are readily available to meet a U.S. balance-of-payments financing need. (See the *Analytical Perspectives* for additional information.) Section 7065 of the 2021 General Provisions in this chapter includes the necessary legislative language to extend and increase the NAB.

The Special Defense Acquisition Fund (SDAF) helps expedite the procurement of defense articles for provision to foreign nations and international organizations. The 2021 request reflects \$900 million in new SDAF obligation authority, to be funded by offsetting collections. In 2021, offsetting collections will be derived from SDAF sales of stock as well as other receipts consistent with section 51(b) of the Arms Export Control Act. The 2021 request will support advance purchases of high-demand equipment that has long procurement lead times, which is often the main limiting

The new International Humanitarian Assistance (IHA) account supports the Administration's commitment to deliver the fundamental changes needed to achieve optimal results both for affected populations and for American

taxpayers. As conflict-based crises increase and force multiple displacements of populations within and outside their national borders, the 2021 Budget seeks to significantly improve our ability to respond flexibly by consolidating all overseas humanitarian assistance so that policy and implementation can be seamlessly coordinated across State and USAID to reach affected persons.

Accordingly, the Budget consolidates our fragmented and outdated overseas humanitarian programming, implementation, and oversight of all implementers into one account and into the Bureau of Humanitarian Assistance (BHA) being stood up at USAID, in recognition of its proven expertise on effective program implementation and oversight. The ongoing merger of USAID offices into BHA demonstrates the benefits from consolidation that underpin the broader 2021 account and restructuring proposal.

The Budget preserves State's lead role on foreign policy, diplomatic engagement and policy oversight of international organizations, its lead responsibilities for refugee, migration, and population policy issues, as well as the U.S. refugee admissions program (USRAP). Funding in the new IHA account will be appropriated to the President and administered by USAID under the authority of the Secretary of State. This restructuring is supported by several independent analyses and builds on State's and USAID's comparative strengths. The new account and organizational structure will enable the U.S. government to respond seamlessly to ongoing as well as new humanitarian needs of the most vulnerable displaced people, including refugees, conflict victims, stateless persons, and migrants worldwide. This restructuring is also critical to establishing a strong, single U.S. voice that can extract optimal UN reforms, to induce other donors to do their fair share, and to resolve ongoing crises. Preliminary details of this proposal, including agency lead responsibilities, were outlined in the 2020 State Congressional Budget Justification Appendix.

The Budget eliminates funding for the International Disaster Assistance (IDA) account and for overseas humanitarian assistance previously funded from the Migration and Refugee Assistance (MRA) account in favor of consolidated funding in the new IHA account. Programs related to U.S. refugee admissions and certain other administrative expenses will continue to be funded through the MRA account, discussed separately in the Appendix. In addition, appropriations language under the MRA account gives the Secretary of State authority to transfer funding from IHA to MRA should projected funding for refugee resettlement not be sufficient. The 2021 request also continues to eliminate the P.L. 480 Title II account. The IHA request will ensure that all food assistance programs are appropriate to local needs and will increase overall effectiveness. The 2021 Budget request enables the United States to remain the largest single humanitarian donor in the world with near-peak program levels.

Specifically, these funds support all aspects of overseas humanitarian assistance, including shelter, protection, emergency health and nutrition, the provision of safe drinking water, livelihoods supports, emergency food interventions, rehabilitation, disaster risk reduction, and transition to development assistance programs. Emergency food aid can include interventions such as local and regional purchase of food near crises, the provision of U.S. commodities, food vouchers, or cash transfers, and complementary activities that support the relief, recovery, and resilience of populations affected by food crises. Funds will support the programs of international organizations, including the United Nations High Commissioner for Refugees (UNHCR), the International Committee of the Red Cross (ICRC), and the International Organization for Migration (IOM), the World Food Program (WFP), the UN Office for the Coordination of Humanitarian Affairs (OCHA), as well as non-governmental organizations (NGOs).

When combined with carryover, the estimated average annual funding for 2020 and 2021 overseas humanitarian assistance at the IHA request level is \$8.8 billion, allowing the United States to program above the second highest level ever.
