About This Report

The 2019 OPM Federal Employee Viewpoint Survey (OPM FEVS) Small Agency Management Report (SAM) was designed to provide an overview of survey results, enabling agencies to easily identify issues and take action for improvement. The SAM can be helpful in providing a starting point for analysis of your agency’s OPM FEVS results, acting as an agency overview before drilling down into specific components of the agency for a more in-depth analysis. This report also highlights important agency successes, which should be acknowledged. We encourage you to share both successes and areas for improvement with employees.

Sections of the SAM

Employee Engagement Index, New IQ Index, and Global Satisfaction Index

The Employee Engagement Index (EEI), New IQ Index, and Global Satisfaction Index provide agencies with consistent metrics for measuring progress toward objectives. Benchmarks are included to provide insight into how your agency compares to others, and to encourage information sharing between agencies. For example, some of the top ranking agencies in the Employee Engagement Index may have suggestions on things that have and have not worked to engage their employees. Trends for all three indices are also displayed.

Decision Aid

The Decision Aid is useful in easily identifying the most critical issues in your agency as well as recognizing where your agency has improved since 2018. The Decision Aid is divided into three sections to help you focus your attention on improvements and declines in your results since last year:

- Increases** contains items that increased since 2018
- Decreases** contains items that decreased since 2018
- No Change** contains items that did not change since 2018

Appendices

The appendices give you an opportunity to more thoroughly understand your workforce by displaying item-level results.

- Appendix A** outlines the 2019 OPM FEVS item changes/improvements since 2018.
- Appendix B** shows how well your agency scored relative to other small agencies. Scanning the graphs can indicate how your agency is generally performing as well as help you identify particularly strong or weak areas.
- Appendix C** shows the breakdown of the 2018-2019 Partial Government Shutdown results.
- Appendix D** shows the breakdown of the Work-Life Program results.
- Appendix E** lists all agencies arranged by employee population size.

About This Report (continued)

Understanding Your Results

When reviewing results, keep the guidelines below in mind. These guidelines were created to organize survey results in a way that is easier to digest and interpret.

Percent Positive

The sum of two positive categories (e.g., Strongly Agree/Agree)

Percent Negative

The sum of two negative categories (e.g., Strongly Disagree/Disagree)

Percent Neutral

The neutral category (e.g., Neither Agree nor Disagree)

Identifying Strengths, Challenges, and Neutral Findings

65 percent positive or higher is considered a strength

35 percent negative or higher is considered a challenge

30 percent neutral or higher suggests uncertainty, presenting an opportunity for communication between managers and staff

Identifying Increases and Decreases

Movement up or down since the previous year is another important piece of information to consider when examining your results. Any increase or decrease in results can be important; however larger increases or decreases (generally 3 or more percentage points) may be a result of significant changes taking place within your agency and should be explored. Increases indicate positive change that should continue to be reinforced. Decreases, especially in areas considered mission critical, may call for appropriate action to initiate and support beneficial workplace improvements.

Employee Engagement Index

Because the OPM FEVS is an assessment of organizational climate, the Employee Engagement Index (EEI) does not directly evaluate an employee’s level of engagement. Therefore, instead of measuring aspects of engagement such as focused attention and dedication to completing assignments, this index concentrates on factors that lead to an engaged workforce (e.g., supporting employee development, communicating agency goals).

Below, you can see where your agency’s EEI score ranks (out of 42 small agencies with 10 or more respondents) and how it compares to the combined small agency average. The names of the highest-ranked small agencies are listed to facilitate the sharing of information, such as best practices. The U.S. Office of Personnel Management (OPM) has also created the UnlockTalent website (www.unlocktalent.gov) to share resources and help with interagency communication.

Employee Engagement Index Benchmarks: Small Agencies, Combined

In addition to looking at your agency’s EEI results from a combined small agencies perspective, the figure below allows you to compare your EEI results to those from similar sized agencies. Appendix E contains a listing of agencies by size category for your reference.

Employee Engagement Index Benchmarks: Very Small Agencies (<100 employees)

Employee Engagement Index (continued)

This table displays the EEI score for each component in your agency as well as the scores for the three engagement subindices, which can facilitate information-sharing within your agency. To provide more information on engagement, the table also includes engagement trends back to 2016 for your components, as well as the combined small agency trends for comparison. Please note that depending on organizational structure in previous administrations, not all components may trend back to 2016.

It consists of 20 questions that relate to inclusive work environments. These 20 questions are grouped into five Habits of Inclusion: Fair, Open, Cooperative, Supportive, and Empowering. The New IQ Index score for your agency, the highest scoring agencies, and the combined small agency average, are displayed below, along with your agency ranking (out of 42 small agencies with 10 or more respondents).

Decision Aid: No Change

Identifying Items That Have Not Changed Since 2018

Your percent positive results for these items have not changed since last year. These are items that your agency is maintaining, which can be either a positive, neutral, or negative finding. For example, an item with low percent positive results over several years is a strong indication of a need for focused action. You may also want to consider changing or updating your approach to addressing these issues if the item has been the focus of attention in the past. On the other hand, a trend of stable, high percent positive results is a finding that should be celebrated. Review each item carefully to determine whether there may be areas of concern for your agency.

Using the Legend Icons

The legend icons provide context for interpreting results. While these items have not increased or decreased, they still may be causes for celebration or concern depending on the percent positive, negative, and neutral results. The “Top Pos/Neg” icons highlight where an item is either in the top 10 positive items or top 10 negative items for your agency.

Appendix B: Item Results and Benchmarks

For each item, your agency's percent positive results are shown on a 0 to 100 scale, with the triangular arrow indicating where your agency falls. The gray bars represent the range of scores for the 42 small agencies surveyed that had 10 or more respondents.

To understand how well your agency performed compared to other small agencies, focus on the location of the triangle within the gray bar. If the triangle is toward the right side of the bar, then your agency was above average on that item. If it is at the right edge of the bar, then you had the highest percent positive results for that item. Additionally, you can numerically compare your percent positive results to the combined small agency average, listed to the right of each item.
